HOW TO USE THIS CALENDAR

The following provides an overview of the structure of this Calendar to guide users.

General Information

This section provides the contact information for the Faculty and University.

Degrees and Diplomas conferred in the Faculty

This section provides information on each of the qualifications conferred in the Faculty.

Explanation of the National Qualifications Framework (NQF)

This is a brief section on the NQF levels and qualification types.

Faculty Board and Faculty Office Staff

This section lists staff members who constitute the Faculty Board and Faculty office staff members.

Lecturing and Technical Staff

A comprehensive Faculty staff listing per Department, Centre, Institute, School or Unit is provided.

Rules for Programmes

This section provides information on the rules for each academic programme at undergraduate and postgraduate level offered by the faculty. In each year level, and depending on the programme for which a student is registered, they are required to complete and pass a certain number of credits in order to promote to the next level of study. Promotion requirements per programme can be found in this section. These rules should be read in conjunction with the academic rules (Section 3) of the General Calendar (Part 1). Students should acquaint themselves with the rules in both Calendars and annually check for rule and curriculum changes.

Module Descriptors

This section provides information on all the modules offered by the faculty at undergraduate and postgraduate level. Module descriptors contain information which relate to the main outcomes and content for each module, including the credit value and NQF level of the module and pre-requisite and co-requisite modules. It is set in alphanumeric order per undergraduate and postgraduate offering. An alphabetical listing of all modules can be found in the module descriptor index.

Pre-requisite and Co-requisite Modules

A pre-requisite module is a module that must be passed prior to a student being admitted to a higher module or the following year of study as determined in the faculty yearbook.

A co-requisite module is a module that must be passed prior to or simultaneously with another associated module before credit can be granted for the latter module. Requirements are provided in each module descriptor.

Explanation of Symbols and Remarks on Academic Transcript

This section provides an explanation of the symbols used and the remarks on the academic transcript.

GENERAL INFORMATION

CORRESPONDENCE WITH THE UNIVERSITY

All postal correspondence should be addressed to the relevant person or department at:

The University of the Western Cape
Private Bag X17
Bellville
7535

Should you not know the person or department, please direct all correspondence to the Registrar.

Faculty related enquiries can be directly forwarded to:

The Faculty Manager
Faculty of Education
The University of the Western Cape
Private Bag X17
Bellville
7535

Postgraduate Diploma in Higher Education in Teaching and Learning	PGDip (Higher Education in Teaching and Learning)	1
Postgraduate Diploma in Technical and Vocational Education and Training	PGDip (Technical and Vocational Education and Training)	1

* Please refer to the programme information for specialisations.

EXPLANATION OF THE NATIONAL QUALIFICATIONS FRAMEWORK

The National Qualifications Framework (NQF) is “a single integrated system for the classification, registration, publication and articulation of quality-assured national qualifications” as stipulated in Section 4 of the NQF Act, 2008 (Act No 67 of 2008).

The National Qualifications Framework (NQF) has ten levels of which Higher Education qualifications occupy 6 levels of the NQF, namely levels 5 to 10.

Levels 5 to 7 comprise the undergraduate qualifications (with the exception of the Professional Bachelor's degree at Level 8) and levels 8 to 10 comprise the postgraduate qualifications.

NQF LEVELS	QUALIFICATION TYPES
5	Higher Certificate
6	Advanced Certificate Diploma
7	Advanced Diploma Bachelor's Degree
8	Honours Degree Postgraduate Diploma Professional Bachelor's Degree
9	Master's Degree Professional Master's Degree
10	Doctoral Degree Professional Doctoral Degree

As cited in the Higher Education Qualifications Sub-Framework (CHE, 2013)

FACULTY BOARD AND FACULTY OFFICE STAFF

Ex Officio Members: The Rector, Vice Rector/s, Registrar and Dean

Profs: R Govender, C Julie, RFA Maarman, T Moodley, S Pather, S Sesanti, A Sheik

Assoc Profs: K Collett, T Dhurumraj, FP Khanare, K Koopman, M Luckay, N Mdzanga, B Nel, J Papier

Sen Lecturers: P Cutalele-Maqhude, L Du Plooy, CA February, K Frizelle, MN Hendricks, R Koch, B May, S Needham, P Plüddemann, N Ravjee, M Simons, K Aploon-Zokufa

Lecturers: Z Allie, J Bergstedt, N Bondesio, D David, S Dinie, JM Du Plessis, D Fagan, G Gamiet, L Johns, Dr T Kosi, C Louw, S Louw, T McBride, NA Nesi, S Ngece, N Nondalana-Vuzane, N Nondabula, N Prinsloo, AD Riffel, T Sebotsa, SM Shezi, AM Williams (*Seconded*)

Associate Lecturer: Vacant

NGAP Lecturer: T Sebotsa

FACULTY OFFICE PERSONNEL

Dean:	Prof R Govender, BSc (UNISA) UDE BSc (Hons) MEd (Durban Westville) PhD (UKZN) PGDip Higher Education (T&L) (Cum Laude) (UWC)
Deputy Dean (Learning and Teaching):	Prof M Luckay, (BSc (Wits) BSc (Hons) HDE MEd (Cum Laude) PhD Postdoctoral Fellow (UCT)
Deputy Dean (Research and Postgraduate Studies):	Prof RFA Maarman, BEd (UNISA) BA HDE (UWC) MEd (RAU) PhD (North West)
Learning and Teaching Specialist:	Dr MC Bladergroen, BEd MEd (UWC) MTh (SU) PhD (UWC)
Faculty Manager:	Ms V Beerwinkel, BA BA (Hons) Psychology MSc (UWC)
Senior Faculty Officer:	Ms K Styer, BA, BA (Hons) (UWC)
Faculty Officers:	Ms C Lewis, ND (Commercial Administration) BTech (OMT) (CPUT) Ms M Moloi, NC (Packaging) (Institute for Packaging SA) ND (Packaging) (Technology) (Wits) Advance Diploma in Management (UWC) Mr V Ndabeni, ADPA (UWC) Mr T Plaatjies, N6 Commerce Secretarial (OTC)
Financial Administrator:	Mr S Kemp, ND (Cost and Management Accounting) MDP BCom (Hons)(UWC)
Administrator (Dean's Office):	Ms W Adams, ND (Office Management and Technology) (CPUT)
Administrative Officers:	Mr R Adonis, Marketing N6 (Boland College) AdvDip (Public Administration) (UWC) Dr N Donn-Arnold, BA BA (Hons) MA PhD (Environmental & Water Science) (UWC) Mr D Lillienfeldt, Business Computing Dip (Boston House College)
Administrators:	Ms Z Arendse, BAdmin (UWC) Ms N Masete, BSc (Biotechnology) PGDip (Business Admin) (UWC)

	Ms F February, BCom (Industrial Psychology) (UWC)
	Ms M Dayimani, BPA (Hons) (SU) BTech (Public Management)
	Mr C Frans, BA (UWC) PGCE (US)
	Dr I Harun, BSc BSc (Hons) (UWC) LLB (UNISA)
	MPhil Law (UWC) PhD (Comm Law) (UCT)
Administrative Assistant:	L Mekana, BTech (Project Management) (CPUT)
	Certificate (Occupational Health and Safety) (UCT)
Senior Officer Academic Centre:	Dr AM Williams, BEd (Hons) (SU) MEd (CIE) (UP) PhD (Education) (UWC) (<i>Seconded to Lecturer</i>) Resource Centre

LECTURING AND TECHNICAL STAFF

LECTURING STAFF

Full Professors:

Prof R Govender, BSc (UNISA) UDE BSc (Hons) MEd (Durban Westville) PGDip Higher Education (T&L) (Cum Laude) PhD (UKZN)
 Prof C Julie, HDE (UNISA) MSc (UWC) PhD (Illinois) (NRF First Rand Chair in Mathematics Education)
 Prof RFA Maarman, BEd (UNISA) BA HDE (UWC) MEd (RAU) PhD (North West)
 Prof S Pather, BPaed (UDW) BEd (Hons) (UKZN) Dip Special Ed (UNISA) MEd (Cum Laude) (UKZN) PhD (CCCUC, UK)
 Prof S Sesanti, N Dip (PE Technikon) MA (UPE) PhD (SU) PhD (Wits)

RULES FOR UNDERGRADUATE PROGRAMMES

BACHELOR OF EDUCATION IN LANGUAGES AND SOCIAL SCIENCES (4512)

(not offered to new students from 2020)

E.1 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Languages and Social Sciences Degree - BEd (Languages and Social Sciences)**:

E.1.1 Minimum admission requirements for applicants who matriculated from 2008

(a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

(b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

(c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the learning-area specialisation combination: **Languages and Social Sciences**

English and Social Sciences

- Level 4 (50-59%) in English (Home Language), or Level 5 (60-69%) in English (First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in History, and
- Level 4 (50-59%) in Geography, and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

Afrikaans and Social Sciences

- Level 4 (50-59%) in Afrikaans (Home Language), or Level 5 (60-69%) in Afrikaans (First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in History, and
- Level 4 (50-59%) in Geography, and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

Xhosa and Social Sciences

- Level 4 (50-59%) in Xhosa (Home Language), or Level 5 (60-69%) in Xhosa (First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in History, and
- Level 4 (50-59%) in Geography, and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

E.1.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50%-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects

E.2 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.3 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time study.

E.4 CURRICULUM

E.5 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.6 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

E.6.1 Level 1

A student shall be promoted to Level 2 of study on obtaining at least 120 credits and on passing Education Practice 101.

E.6.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 245 credits and on passing Education Practice 201.

E.6.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 365 credits and on passing Education Practice 301 and all Level 1 modules.

E.6.4 Level 4

A student shall complete the degree once 535 credits are obtained and all the requirements for the degree are met.

E.7 ADVANCE REGISTRATION

E.7.1 Level 1

E.7.1.1 A student may only register for modules in advance at Level 2 of study if they do not have more than 45 credits outstanding at the current level.

E.7.1.2 A repeating student, who has not promoted, may be allowed to register for a maximum of 90 credits at Level 1, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.7.2 Level 2

E.7.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.7.2.2 A repeating student, who has not promoted, may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.7.3 Level 3

E.7.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits outstanding at the current or lower level.

- E.7.3.2** A repeating student, who has not promoted, may be allowed to register for a maximum of 90 credits, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.8 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.9 SPECIAL REQUIREMENTS FOR THE PROGRAMME

- E.9.1** A student shall be trained to teach primarily at the Senior Phase of the GET band.
- E.9.2** The Faculty reserves the right not to offer particular learning area specialisations in a particular year.
- E.9.3** The two electives selected shall be taken in all four years of study which will qualify a student to teach in those two learning areas.

E.9.4 Learning Area Specialisations

- E.9.4.1** To qualify for admission to all learning areas, a student should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.
- E.9.4.2** A student shall select any two electives listed below based on their Grade 12 results:
- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
 - Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study.
 - Life Orientation
 - Social Sciences
 - Mathematics
 - Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

BACHELOR OF EDUCATION IN LANGUAGES AND LIFE ORIENTATION

(4513)

(not offered to new students from 2020)

E.10 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Languages and Life Orientation Degree - BEd (Languages and Life Orientation)**:

E.10.1 Minimum admission requirements for applicants who matriculated from 2008

(a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

(b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

(c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the learning-area specialisation combination: **Languages and Life Orientation**

English and Life Orientation

- Level 4 (50-59%) in English (Home Language), or Level 5 (60-69%) in English (First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Life Orientation, and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

Afrikaans and Life Orientation

- Level 4 (50-59%) in Afrikaans (Home Language), or Level 5 (60-69%) in Afrikaans (First Additional language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Life Orientation, and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

Xhosa and Life Orientation

- Level 4 (50-59%) in Xhosa (Home Language), or Level 5 (60-69%) in Xhosa (First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Life Orientation, and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

E.10.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects.

E.11 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.12 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time.

BACHELOR OF EDUCATION IN LANGUAGES AND MATHEMATICS

(4515)

(not offered to new students from 2020)

E.28 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Languages and Mathematics Degree – BEd (Languages and Mathematics)**:

E.28.1 Minimum admission requirements for applicants who matriculated from 2008

(a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

(b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

(c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the learning-area specialisation combination: **Languages and Mathematics**

English and Mathematics

- Level 4 (50-59%) in English (Home Language), or Level 5 (60-69%) in English (First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70-79%) in Mathematical Literacy

OR

Afrikaans and Mathematics

- Level 4 (50-59%) in Afrikaans (Home Language), or Level 5 (60-69%) in Afrikaans (First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70-79%) in Mathematical Literacy

OR

Xhosa and Mathematics

- Level 4 (50-59%) in Xhosa (Home Language), or Level 5 (60-69%) in Xhosa (First Additional Language), and
- Level 3(40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70-79%) in Mathematical Literacy

E.28.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects.

E.29 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.30 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time.

FINAL TOTAL 485**E.32 ASSESSMENT**

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.33 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

E.33.1 Level 1

A student shall be promoted to Level 2 of study on obtaining at least 90 credits and on passing Education Practice 101.

E.33.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 185 credits and on passing Education Practice 201.

E.33.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 335 credits and on passing Education Practice 301 and all Level 1 modules.

E.33.4 Level 4

A student shall complete the degree once 485 credits are obtained and all the requirements for the degree are met.

E.34 ADVANCE REGISTRATION

E.34.1 Level 1

E.34.1.1 A student may only register for modules in advance at Level 2 of study if they do not have more than 45 credits outstanding at the current level.

E.34.1.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 1, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.34.2 Level 2

E.34.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level

E.34.2.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.34.3 Level 3

E.34.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.34.3.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.35 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.36 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.36.1 A student shall be trained to teach primarily at the Senior Phase of the GET band.

E.36.2 The Faculty reserves the right not to offer particular learning area specialisations in a particular year.

E.36.3 The two electives selected shall be taken in all four years of study which will qualify a student to teach in those two learning areas.

E.36.4 Learning Area Specialisations

E.36.4.1 To qualify for admission to all learning areas, a student should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

E.36.4.2 A student shall select any two electives listed below based on their Grade 12 results:

- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
- Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study
- Life Orientation
- Social Sciences
- Mathematics
- Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

BACHELOR OF EDUCATION IN MATHEMATICS AND NATURAL SCIENCES (4516)

(not offered to new students from 2020)

E.37 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Mathematics and Natural Sciences Degree - BEd (Mathematics and Natural Sciences)**:

E.37.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:

- Level 4 (50-59%) in English (Home or First additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

- (c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the learning-area specialisation combination: **Mathematics and Natural Sciences**

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70-79%) in Mathematical Literacy, and
- Level 4 (50-59%) in Life Sciences, or
- Level 4 (50-59%) in Physical Sciences

E.37.2 Admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50% - 59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects.

E.38 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.39 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time.

--------------------	------------

E.41 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.42 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

E.42.1 Level 1

A student shall be promoted to Level 2 of study on obtaining at least 90 credits and on passing Education Practice 101.

E.42.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 195 credits and on passing Education Practice 201.

E.42.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 345 credits and on passing Education Practice 301 and all Level 1 modules.

E.42.4 Level 4

A student shall complete the degree once 505 credits are obtained and all the requirements for the degree are met

E.43 ADVANCE REGISTRATION

E.43.1 Level 1

E.43.1.1 A student may only register for modules in advance at Level 2 of study if they do not have more than 45 credits outstanding at the current level.

E.43.1.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 1, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.43.2 Level 2

E.43.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.43.2.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.43.3 Level 3

E.43.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.43.3.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.44 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.45 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.45.1 A student shall be trained to teach primarily at the Senior Phase of the GET band.

E.45.2 The Faculty reserves the right not to offer particular learning area specialisations in a particular year.

E.45.3 The two electives selected shall be taken in all four years of study which will qualify a student to teach in those two learning areas.

E.45.4 Learning Area Specialisations

E.45.4.1 To qualify for admission to all learning areas, a student should obtain at least a Level 4 (50%-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

E.45.4.2 A student shall select any two electives from below based on their Grade 12 results:

- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
- Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study
- Life Orientation
- Social Sciences
- Mathematics
- Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

BACHELOR OF EDUCATION IN FOUNDATION PHASE TEACHING (4517)

E.46 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Foundation Phase Teaching Degree - BEd (Foundation Phase Teaching)**:

E.46.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:

- Level 4 (50-59%) in English (Home or First Additional language), and
- Level 4 (50-59%) in another Language (First Additional Language), and
- Level 3 (40-49%) in Mathematics, or Level 5 (60-69%) in Mathematical Literacy

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

E.46.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

E.46.3 Alternative admission requirements in terms of Recognition of Prior Learning (RPL)

- (a) An applicant who completed the NSC in 2008 or thereafter, but has not obtained an endorsement, shall be considered for alternative admission to the Foundation Phase programme after the age of 23. Such an applicant shall be required to complete an RPL portfolio development course and submit to a process where relevant learning and/or experience shall be assessed.
- (b) An applicant who is 23 years or older and does not have a matriculation certificate or NSC, but who may have obtained other qualifications or experience that may be deemed to be equivalent to admission criteria for the Foundation Phase programmes shall also be required to complete an RPL portfolio development course or an RPL portfolio process as agreed upon, and to submit to a process where such learning, qualification, and/or experience shall be assessed.

E.47 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.48 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time.

BACHELOR OF EDUCATION IN LANGUAGES AND LIFE ORIENTATION **(4091)**

(not offered to new students from 2020)

E.53 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Languages and Life Orientation Degree - BEd (Languages and Life Orientation)**:

E.53.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 27 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:
- Level 4 (50-59%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or First Additional Language), and
 - Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.
- (c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the two learning-area specialisation combination: **Languages and Life Orientation**

English and Life Orientation

- Level 4 (50-59%) in English (Home Language), or Level 5 (60-69%) in English (First Additional Language), and
- Level 3(40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Life Orientation, and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

Afrikaans and Life Orientation

- Level 4 (50-59%) in Afrikaans (Home Language), or Level 5 (60-69%) in Afrikaans (First Additional Language), and
- Level 3(40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Life Orientation, and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

Xhosa and Life Orientation

- Level 4 (50-59%) in Xhosa (Home Language), or Level 5 (60-69%) in Xhosa (First Additional Language), and
- Level 3(40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Life Orientation, and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

E.53.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

E.53.3 Alternative Admission

Alternative admission requirements for applicants according to Recognition of Prior Learning (RPL)

An applicant who completed the NSC in 2008 or thereafter, but has not obtained an endorsement, shall be considered for alternative admission to the Foundation Phase programme after the age of 23. Such an applicant shall be required to complete an RPL portfolio development course and submit to a process where relevant learning and/or experience shall be assessed.

An applicant who is 23 years or older and does not have a matriculation certificate or NSC, but who may have obtained other qualifications or experience that may be deemed to be equivalent to admission criteria for the particular programme shall also be required to complete an RPL portfolio development course or an RPL portfolio process as agreed upon, and to submit to a process where such learning, qualification, and/or experience shall be assessed.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects.

E.54 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.55 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over five years full- time.

E.57 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.58 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

E.58.1 Level 1

A student shall be promoted to Level 2 of study on obtaining at 60 credits.

E.58.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 110 credits and passing Education Practice 101.

E.58.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 215 credits and on passing Education Practice 201.

E.58.4 Level 4

A student shall be promoted to Level 5 of study on obtaining at least 335 credits and on passing Education Practice 301 and all Level 1 and 2 modules.

E.58.5 Level 5

A student shall complete the degree once 502 credits are obtained and all the requirements for the degree are met.

E.59 ADVANCE REGISTRATION**E.59.1 Level 1**

Advance registration is not permitted at Level 1.

E.59.2 Level 2

E.59.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.59.2.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.59.3 Level 3

E.59.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.59.3.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes

E.59.4 Level 4

E.59.4.1 A student may only register for modules in advance at Level 5 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.59.4.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.60 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.61 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.61.1 A student shall be trained to teach primarily at the Senior Phase of the GET band.

E.61.2 The Faculty reserves the right not to offer particular learning area specialisations in a particular year.

E.61.3 The two electives selected shall be taken in all four years of study which will qualify a student to teach in those two learning areas.

E.61.4 Learning Area Specialisations

E.61.4.1 To qualify for admission to all learning areas, students should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

E.61.4.2 A student shall select any two electives listed below based on their Grade 12 results:

- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
- Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study
- Life Orientation
- Social Sciences
- Mathematics
- Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

BACHELOR OF EDUCATION IN MATHEMATICS AND NATURAL SCIENCES (4092)

(not offered to new students from 2020)

E.62 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Mathematics and Natural Sciences Degree - BEd (Mathematics and Natural Sciences)**:

E.62.1 Minimum admission requirements for applicants who matriculated from 2008

(a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 27 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

(b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

(c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the two learning-area specialisation combination: **Mathematics and Natural Sciences**

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70-79%) in Mathematical Literacy, and
- Level 4 (50-59%) in Life Sciences, or
- Level 4 (50-59%) in Physical Sciences

E.62.2 Admission requirements for applicants who matriculated before 2008

(a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

(b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

E.62.3 Alternative Admission

Alternative admission requirements in terms of Recognition of Prior Learning (RPL)

An applicant who completed the NSC in 2008 or thereafter, but has not obtained an endorsement, shall be considered for alternative admission to the Foundation Phase programme after the age of 23. Such an applicant shall be required to complete an RPL portfolio development course and submit to a process where relevant learning and/or experience shall be assessed.

An applicant who is 23 years or older and does not have a matriculation certificate or NSC, but who may have obtained other qualifications or experience that may be deemed to be equivalent to admission criteria for the particular programmes shall also be required to complete an RPL portfolio development course or an RPL portfolio process as agreed upon, and to submit to a process where such learning, qualification, and/or experience shall be assessed.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects.

E.63 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.64 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over five years full- time.

E.66 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

E.66.1 Level 1

A student shall be promoted to Level 2 of study obtaining 60 credits.

E.66.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 105 credits and on passing Education Practice 101.

E.66.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 210 credits and on passing Education Practice 201.

E.66.4 Level 4

A student shall be promoted to Level 5 of study on obtaining at least 360 credits and on passing Education Practice 301 and all Level 1 and 2 modules.

E.66.5 Level 5

A student shall complete the degree once 520 credits are obtained and all the requirements for the degree are met.

E.67 ADVANCE REGISTRATION

E.67.1 Level 1

Advance registration is not permitted at Level 1.

E.67.2 Level 2

E.67.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.67.2.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.67.3 Level 3

E.67.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.67.3.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.67.4 Level 4

E.67.4.1 A student may only register for modules in advance at Level 5 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.67.4.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.68 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.69 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.69.1 A student shall be trained to teach primarily at the Senior Phase of the GET band.

E.69.2 The Faculty reserves the right not to offer particular learning area specialisations in a particular year.

E.69.3 The two electives selected shall be taken in all four years of study which will qualify a student to teach in those two learning areas.

E.69.4 Learning Area Specialisations

E.69.4.1 To qualify for admission to all learning areas, a student should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

E.69.4.2 A student shall select any two electives from those listed below based on their Grade 12 results:

- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
- Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study
- Life Orientation
- Social Sciences
- Mathematics
- Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

BACHELOR OF EDUCATION IN SENIOR PHASE AND FURTHER EDUCATION AND TRAINING TEACHING [ACCOUNTING (FET), ECONOMIC AND MANAGEMENT SCIENCES (SP), AND MATHEMATICS (SP)] (4401)

E.70 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Senior Phase and Further Education and Training Teaching [Accounting (FET), Economic and Management Sciences (SP), and Mathematics (SP)] Degree**:

E.70.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

- (c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the learning-area specialisation combination: **Accounting (FET), Economic and Management Sciences (SP), and Mathematics (SP)**

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70%-79%) in Mathematical Literacy and
- Level 4 (50-59%) in Accounting, or
- Level 4 (50-59%) in Business Studies, or
- Level 4 (50-59%) in Economics

E.70.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects.

E.70.3 Admission requirements for applicants who obtained a National Certificate (Vocational) (NCV):

- (a) Subject to institutional admission requirements, the minimum admission requirement to a Bachelor's degree programme is a National Certificate (Vocational) Level 4 issued by Council for General and Further Education and Training. The minimum legislative requirements for admission to a Bachelor's degree include the achievement of:

- Three (3) fundamental subjects between 60 - 69% (including English, which is the medium of instruction at the University of the Western Cape)
- Three (3) vocational subjects from the designated list between 70 - 79%.

- (b) The institutional requirements are:

- i) An applicant who holds an NCV may be invited to write a test, provided that they have met the following compulsory institutional requirements as well as the Faculty and degree-specific requirements.
- ii) An applicant must have:
 - Taken English as either Language of Learning and Teaching or as the First Additional language.
 - Taken Mathematics as a Fundamental Component.
 - Achieved 70 - 79% for all seven subjects - in fundamental and vocational categories.

E.71 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.72 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time.

E.74 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.75 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

E.75.1 Level 1

A student shall be promoted to Level 2 of study on obtaining at least 120 credits and on passing Education Practice 101 (EDC101).

E.75.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 210 credits and on passing Education Practice 202 (EDC202).

E.75.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 350 credits and on passing Education Practice 302 (EDC302), and on passing all Level 1 modules.

E.75.4 Level 4

A student shall complete the Level 4 of study only when all the required modules have been passed and 555 credit points have been obtained.

E.76 ADVANCE REGISTRATION

E.76.1 Level 1

E.76.1.1 A student may only register for modules in advance at Level 2 of study if they do not have more than 45 credits outstanding at the current level.

E.76.1.2 A repeating student, who has not promoted, may be allowed to register for a maximum of 90 credits at Level 1 provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.76.2 Level 2

E.76.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.76.2.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.76.3 Level 3

E.76.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits to make up at the current or lower level.

E.76.3.2 A repeating student who have not been promoted may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.77 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.78 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.78.1 A student shall be trained to teach at the Senior Phase of the GET band and FET Phase of the FET band.

E.78.2 The Faculty reserves the right not to offer particular learning area specialisations in a particular year.

E.78.3 The two electives selected shall be taken in all four years of study which will qualify a student to teach in those two learning areas.

E.78.4 Learning Area Specialisations

E.78.4.1 To qualify for admission to all learning areas, a student should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

E.78.4.2 A student shall select any two electives listed below based on their Grade 12 results:

- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
- Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study.
- Life Orientation
- Social Sciences
- Mathematics
- Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

BACHELOR OF EDUCATION IN SENIOR PHASE AND FURTHER EDUCATION AND TRAINING TEACHING [LANGUAGES (SP & FET) AND LIFE ORIENTATION (SP)] (4402)

E.79 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Senior Phase and Further Education and Training Teaching [Languages (SP & FET) and Life Orientation (SP)] Degree:**

E.79.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:
- Level 4 (50-59%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or First Additional Language), and
 - Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.
- (c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the learning-area specialisation combination: **Languages (SP & FET) and Life Orientation (SP)**

English and Life Orientation

- Level 4 (50-59%) in English (Home Language), or Level 5 (60-69%) in English (First Additional Language), and
- Level 4 (50-59%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Life Orientation, and
- Level 3 (40-49%) in Mathematics or Level 5 (60-69%) in Mathematical Literacy

OR

Afrikaans and Life Orientation

- Level 4 (50-59%) in Afrikaans (Home Language), or Level 5 (60-69%) in Afrikaans (First Additional Language), and
- Level 4 (50-59%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Life Orientation, and
- Level 3 (40-49%) in Mathematics or Level 5 (60-69%) in Mathematical Literacy

OR

Xhosa and Life Orientation

- Level 4 (50-59%) in Xhosa (Home Language), or Level 5 (60-69%) in Xhosa (First Additional Language), and
- Level 4 (50-59%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Life Orientation, and
- Level 3 (40-49%) in Mathematics or Level 5 (60-69%) in Mathematical Literacy

E.79.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects.

E.79.3 Admission requirements for applicants who obtained a National Certificate (Vocational) (NCV):

- (a) Subject to institutional admission requirements, the minimum admission requirement to a Bachelor's degree programme is a National Certificate (Vocational) Level 4 issued by Council for General and Further Education and Training. The minimum legislative requirements for admission to a Bachelor's degree include the achievement of:
- Three (3) fundamental subjects between 60 - 69% (including English, which is the medium of instruction at the University of the Western Cape)
 - Three (3) vocational subjects from the designated list between 70 - 79%.
- (b) The institutional requirements are:
- i) An applicant who holds an NCV may be invited to write a test, provided that they have met the following compulsory institutional requirements, as well as the Faculty and degree-specific requirements.

ii) An applicant must have:

- Taken English as either Language of Learning and Teaching or as the First Additional language.
- Taken Mathematics as a Fundamental Component.
- Achieved 70 - 79% for all seven subjects - in fundamental and vocational categories.

E.80 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.81 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time.

**Method of isiXhosa 402	TMX402	20
	Sub-total	40
	Total	130
	FINAL TOTAL	530

Note:

- * Depending on the language of specialisation, students will choose either English 111 (ENG111) and English 121 (ENG121) or Afrikaans 111 (AFN111) and Afrikaans 121 (AFN121) or Xhosa 111 (XHO111) and Xhosa 121 (XHO121).
- ** Depending on the language of specialisation, students will choose to do either Method of English 303 (TME303) and Method of English 402 (TME402) or Method of Afrikaans 303 (TMA303) and Method of Afrikaans 402 (TMA402) or Method of isiXhosa 303 (TMX303) and Method of isiXhosa 402 (TMX402).

E.83 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.84 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

E.84.1 Level 1

A student shall be promoted to Level 2 of study on obtaining at least 90 credits and on passing Education Practice 101 (EDC101).

E.84.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 230 credits and on passing Education Practice 202 (EDC202).

E.84.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 350 credits and on passing Education Practice 302 (EDC302), and on passing all Level 1 modules.

E.84.4 Level 4

A student shall complete the degree once 530 credits are obtained and all the requirements for the degree are met.

E.85 ADVANCE REGISTRATION

E.85.1 Level 1

E.85.1.1 A student may only register for modules in advance at Level 2 of study if they do not have more than 45 credits outstanding at the current level.

E.85.1.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 1, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.85.2 Level 2

E.85.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.85.2.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.85.3 Level 3

E.85.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits to make up at the current or lower level.

E.85.3.2 A repeating student who have not been promoted may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.86 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.87 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.87.1 A student shall be trained to teach primarily at the Senior Phase of the GET band and Further Education and Training Phase.

E.87.2 The Faculty reserves the right not to offer particular learning area specialisations in a particular year.

E.87.3 The two electives selected shall be taken in all four years which will qualify a student to teach in those two learning areas.

E.87.4 Learning Area Specialisations

E.87.4.1 To qualify for admission to all learning areas, a student should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

E.87.4.2 A student shall select any two electives listed below based on their Grade 12 results:

- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
- Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study.
- Life Orientation
- Social Sciences
- Mathematics
- Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

BACHELOR OF EDUCATION IN SENIOR PHASE AND FURTHER EDUCATION AND TRAINING TEACHING [LANGUAGES (SP & FET) AND MATHEMATICS (SP)] (4403)

E.88 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for **Bachelor of Education in Senior Phase and Further Education and Training Teaching [Languages (SP & FET) and Mathematics (SP)] Degree:**

E.88.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:
- Level 4 (50-59%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or First Additional Language), and
 - Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.
- (c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the learning-area specialisation combination: **Languages (SP & FET) and Mathematics (SP)**

English and Mathematics

- Level 4 (50-59%) in English (Home Language), or Level 5 (60-69%) in English (First Additional Language), and
- Level 4 (50-59%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70-79%) in Mathematical Literacy

OR

Afrikaans and Mathematics

- Level 4 (50-59%) in Afrikaans (Home Language), or Level 5 (60-69%) in Afrikaans (First Additional Language), and
- Level 4 (50-59%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70-79%) in Mathematical Literacy

OR

isiXhosa and Mathematics

- Level 4 (50-59%) in Xhosa (Home Language), or Level 5 (60-69%) in Xhosa (First Additional Language), and
- Level 4 (50-59%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70-79%) in Mathematical Literacy

E.88.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects.

E.88.3 Admission requirements for applicants who obtained a National Certificate (Vocational) (NCV):

- (a) Subject to institutional admission requirements, the minimum admission requirement to a Bachelor's degree programme is a National Certificate (Vocational) Level 4 issued by Council for General and Further Education and Training. The minimum legislative requirements for admission to a Bachelor's degree include the achievement of:

- Three (3) fundamental subjects between 60 - 69% (including English, which is the medium of instruction at the University of the Western Cape)
- Three (3) vocational subjects from the designated list between 70 - 79%.

- (b) The institutional requirements are:

- i) An applicant who holds an NCV may be invited to write a test, provided that they have met the following compulsory institutional requirements, as well as the Faculty and degree-specific requirements.

ii) An applicant must have:

- Taken English as either Language of Learning and Teaching or as the First Additional language.
- Taken Mathematics as a Fundamental Component.
- Achieved 70 - 79% for all seven subjects - in fundamental and vocational categories.

E.89 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.90 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time.

Electives

Method of Mathematics 402	TMM402	20
and		
Select one of the following:		
**Method of Afrikaans 402	TMA402	20
**Method of English 402	TME402	20
**Method of isiXhosa 402	TMX402	20
	Sub-total	40
	Total	130
	FINAL TOTAL	540

Note:

- * Depending on the language of specialisation, students will choose either English 111 (ENG111) and English 121 (ENG121) or Afrikaans 111 (AFN111) and Afrikaans 121 (AFN121) or Xhosa 111 (XHO111) and Xhosa 121 (XHO121).
- ** Depending on the language of specialisation, students will choose to do either Method of English 303 (TME303) and Method of English 402 (TME402) or Method of Afrikaans 303 (TMA303) and Method of Afrikaans 402 (TMA402) or Method of isiXhosa 303 (TMX303) and Method of isiXhosa 402 (TMX402).

E.92 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.93 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

E.93.1 Level 1

A student shall be promoted to Level 2 of study on obtaining at least 90 credits and on passing Education Practice 101 (EDC101).

E.93.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 230 credits and on passing Education Practice 202 (EDC202).

E.93.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 360 credits and on passing Education Practice 302 (EDC302), and on passing all Level 1 modules.

E.93.4 Level 4

A student shall complete the degree once 540 credits are obtained and all the requirements for the degree are met.

E.94 ADVANCE REGISTRATION

E.94.1 Level 1

E.94.1.1 A student may only register for modules in advance at Level 2 of study if they do not have more than 45 credits outstanding at the current level.

E.94.1.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 1, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.94.2 Level 2

E.94.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.94.2.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.94.3 Level 3

E.94.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits to make up at the current or lower level.

E.94.3.2 A repeating student who have not been promoted may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.95 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.96 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.96.1 A student shall be trained to teach at the Senior Phase of the GET band and FET Phase of the FET band.

E.96.2 The Faculty reserves the right not to offer particular learning area specialisations in a particular year.

E.96.3 The two electives selected shall be taken in all four years of study which will qualify a student to teach in those two learning areas.

E.96.4 Learning Area Specialisations

E.96.4.1 To qualify for admission to all learning areas, a student should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

E.96.4.2 A student shall select any two electives listed below based on their Grade 12 results:

- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
- Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study.
- Life Orientation
- Social Sciences
- Mathematics
- Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

BACHELOR OF EDUCATION IN SENIOR PHASE AND FURTHER EDUCATION AND TRAINING TEACHING [LANGUAGES (SP & FET) AND SOCIAL SCIENCES (SP)] (4404)

E.97 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Senior Phase and Further Education and Training Teaching [Languages (SP & FET) and Social Sciences (SP)] Degree**:

E.97.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.
- (c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the learning-area specialisation combination: **Languages (SP & FET) and Social Sciences (SP)**

English and Social Sciences

- Level 4 (50-59%) in English (Home Language), or Level 5 (60-69%) in English (First Additional Language), and
- Level 4 (50-59%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in History, or
- Level 4 (50-59%) in Geography, and
- Level 3 (40-49%) in Mathematics or Level 5 (60-69%) in Mathematical Literacy

OR

Afrikaans and Social Sciences

- Level 4 (50-59%) in Afrikaans (Home Language), or Level 5 (60-69%) in Afrikaans (First Additional Language), and
- Level 4 (50-59%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in History, or
- Level 4 (50-59%) in Geography, and
- Level 3 (40-49%) in Mathematics or Level 5 (60-69%) in Mathematical Literacy

OR

Xhosa and Social Sciences

- Level 4 (50-59%) in Xhosa (Home Language), or Level 5 (60-69%) in Xhosa (First Additional Language), and
- Level 4 (50-59%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in History, or
- Level 4 (50-59%) in Geography, and
- Level 3 (40-49%) in Mathematics or Level 5 (60-69%) in Mathematical Literacy

E.97.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50%-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects

E.97.3 Admission requirements for applicants who obtained a National Certificate (Vocational) (NCV):

- (a) Subject to institutional admission requirements, the minimum admission requirement to a Bachelor's degree programme is a National Certificate (Vocational) Level 4 issued by Council for General and Further Education and Training. The minimum legislative requirements for admission to a Bachelor's degree include the achievement of:

- Three (3) fundamental subjects between 60 - 69% (including English, which is the medium of instruction at the University of the Western Cape)
- Three (3) vocational subjects from the designated list between 70 - 79%.

- (b) The institutional requirements are:

- i) An applicant who holds an NCV may be invited to write a test, provided that they have met the following compulsory institutional requirements, as well as the Faculty and degree-specific requirements.

ii) An applicant must have:

- Taken English as either Language of Learning and Teaching or as the First Additional language.
- Taken Mathematics as a Fundamental Component.
- Achieved 70 - 79% for all seven subjects - in fundamental and vocational categories.

E.98 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.99 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time study.

	Sub-total	40
	Total	130
	FINAL TOTAL	540

PLEASE TAKE NOTE:

- * Depending on the language of specialisation, students will choose either English 111 (ENG11) and English 121 (ENG121) or Afrikaans 111 (AFN111) and Afrikaans 121 (AFN121) or Xhosa 111 (XHO111) and Xhosa 121 (XHO121).
- ** A student who selects Geography 111 (GES111) and Geography 121 (GES121) in their first year of study must select Geography Level 2 module (20 credits) with Humanities 111 (HUM111) and Humanities 121 (HUM121) in their second year of study.

OR

- ** A student who selects Humanities 111 (HUM11) and Humanities 121 (HUM121) in their first year of study must select History Level 2 module (20 credits) with Geography 111 (GES111) and Geography 121 (GES121) in their second year of study.
- *** Depending on the language of specialisation, a student shall choose either Method of English 303 (TME303) and Method of English 402 (TME402) or Method of Afrikaans 303 (TMA303) and Method of Afrikaans 402 (TMA402) or Method of isiXhosa 303 (TMX303) and Method of isiXhosa 402 (TMX402).

E.101 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.102 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

E.102.1 Level 1

A student shall be promoted to Level 2 of study on obtaining at least 90 credits and on passing Education Practice 101 (EDC101).

E.102.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 230 credits and on passing Education Practice 202 (EDC202).

E.102.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 350 credits and on passing Education Practice 302 (EDC302), and on passing all Level 1 modules.

E.102.4 Level 4

A student shall complete the degree once 540 credits are obtained and all the requirements for the degree are met.

E.103 ADVANCE REGISTRATION

E.103.1 Level 1

E.103.1.1 A student may only register for modules in advance at Level 2 of study if they do not have more than 45 credits outstanding at the current level.

E.103.1.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 1, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.103.2 Level 2

E.103.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.103.2.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.103.3 Level 3

E.103.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits to make up at the current or lower level.

E.103.3.2 A repeating student who have not been promoted, may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes

E.104 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.105 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.105.1 A student shall be trained to teach at the Senior Phase of the GET band and FET Phase of the FET band.

E.105.2 The Faculty reserves the right not to offer particular learning area specialisations in a particular year.

E.105.3 The two electives selected shall be taken in all four years of study which will qualify a student to teach in those two learning areas.

E.105.4 Learning Area Specialisations

E.105.4.1 To qualify for admission to all learning areas, a student should obtain at least a Level 4 (50-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

E.105.4.2 A student shall select any two electives listed below based on their Grade 12 results:

- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
- Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study.
- Life Orientation
- Social Sciences
- Mathematics
- Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

BACHELOR OF EDUCATION IN SENIOR PHASE AND FURTHER EDUCATION AND TRAINING TEACHING [MATHEMATICS (SP), MATHEMATICAL LITERACY (FET), AND NATURAL SCIENCE (SP)] (4405)

E.106 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Education in Senior Phase and Further Education and Training Teaching**, **[Mathematics (SP), Mathematical Literacy (FET), and Natural Science (SP)] Degree**:

E.106.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with a score of no fewer than 33 points calculated according to the University's approved points system, as well as the following minimum specific subject requirements area:

- Level 4 (50-59%) in English (Home or First additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 3 (40-49%) in Mathematics or Mathematical Literacy

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

- (c) In addition to the above, applicants are required to meet the minimum specific subject requirements for the learning-area specialisation combination: **Mathematics (SP), Mathematical Literacy (FET) and Natural Science (SP)**

- Level 4 (50-59%) in English (Home or First Additional Language), and
- Level 3 (40-49%) in another Language (Home or First Additional Language), and
- Level 4 (50-59%) in Mathematics, or Level 6 (70-79%) in Mathematical Literacy, and
- Level 4 (50-59%) in Life Sciences, or
- Level 4 (50-59%) in Physical Sciences

E.106.2 Admission requirements for applicants who matriculated before 2008

- (a) A Matriculation Certificate or Exemption Certificate thereof or Conditional Exemption from the Matriculation Board.

Learning Area Specialisations

To qualify for admission to all learning areas, applicants should obtain at least a Level 4 (50% - 59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

If the Senior Certificate was obtained before 1977, the applicant must have obtained in the Senior Certificate Examination:

- i) at least 40% in one of the official languages in the Higher Grade;
- ii) at least 33% in the remaining official language on the Lower Grade;
- iii) at least 40% in two additional subjects.

E.106.3 Admission requirements for applicants who obtained a National Certificate (Vocational) (NCV):

- (a) Subject to institutional admission requirements, the minimum admission requirement to a Bachelor's degree programme is a National Certificate (Vocational) Level 4 issued by Council for General and Further Education and Training. The minimum legislative requirements for admission to a Bachelor's degree include the achievement of:
- Three (3) fundamental subjects between 60 - 69% (including English, which is the medium of instruction at the University of the Western Cape)
 - Three (3) vocational subjects from the designated list between 70 - 79%.
- (b) The institutional requirements are:
- (i) An applicant who holds an NCV may be invited to write a test, provided that they have met the following compulsory institutional requirements, as well as the Faculty and degree-specific requirements.
 - (ii) An applicant must have:
 - Taken English as either Language of Learning and Teaching or as the First Additional Language.
 - Taken Mathematics as a Fundamental Component.
 - Achieved 70 - 79% for all seven subjects - in fundamental and vocational categories.

E.107 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.108 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time.

FINAL TOTAL 560**E.110 ASSESSMENT**

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.111 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for the in the Faculty rules:

E.111.1 Level 1

A student shall be promoted to Level 2 of study on obtaining at least 90 credits and on passing Education Practice 101 (EDC101).

E.111.2 Level 2

A student shall be promoted to Level 3 of study on obtaining at least 230 credits and on passing Education Practice 202 (EDC202).

E.111.3 Level 3

A student shall be promoted to Level 4 of study on obtaining at least 370 credits and on passing Education Practice 302 (EDC302), and on passing all Level 1 modules.

E.111.4 Level 4

A student shall complete the degree once 560 credits are obtained and all the requirements for the degree are met.

E.112 ADVANCE REGISTRATION

E.112.1 Level 1

E.112.1.1 A student may only register for modules in advance at Level 2 of study if they do not have more than 45 credits outstanding at the current level.

E.112.1.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 1, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.112.2 Level 2

E.112.2.1 A student may only register for modules in advance at Level 3 of study if they do not have more than 45 credits outstanding at the current or lower level.

E.112.2.2 A repeating student who has not promoted may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.112.3 Level 3

E.112.3.1 A student may only register for modules in advance at Level 4 of study if they do not have more than 45 credits to make up at the current or lower level.

E.112.3.2 A repeating student who have not been promoted may be allowed to register for a maximum of 90 credits at Level 2, provided that pre-requisites and co-requisites are met and there are no timetable clashes.

E.113 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.114 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.114.1 A student shall be trained to teach at the Senior Phase of the GET band and FET Phase of the FET band.

E.114.2 The Faculty reserves the right not to offer particular learning area specialisations in a particular year.

E.114.3 The two electives selected shall be taken in all four years of study which will qualify a student to teach in those two learning areas.

E.114.4 Learning Area Specialisations

E.114.4.1 To qualify for admission to all learning areas, a student should obtain at least a Level 4 (50%-59%) or a D (HG) or C (SG) in Grade 12 in the subject or area of specialisation.

E.114.4.2 A student shall select any two electives from below based on their Grade 12 results:

- Economic and Management Sciences (EMS): Economics, Business Economics and Accounting
- Languages: A student shall follow a general language programme in Level 1 of study and then specialise in Afrikaans, English or isiXhosa in subsequent levels of study
- Life Orientation
- Social Sciences
- Mathematics
- Natural Sciences (A student who chooses Natural Sciences as an elective shall select Mathematics as the other elective)

RULES FOR ADVANCED DIPLOMA PROGRAMMES

ADVANCED DIPLOMA IN SCHOOL LEADERSHIP AND MANAGEMENT (4340)

E.115 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Advanced Diploma in School Leadership and Management – AdvDip (School Leadership and Management)**:

- E.115.1** Priority will be given to serving or aspirant principals who meet the criteria below as well as to School Management Team members wishing to enroll as a group/team in order to develop a community of practice in school leadership.
- E.115.1.1** An applicant should have a formal professional teacher qualification at REQV level 14 or above.
- E.115.1.2** An applicant should have at least 3 years teaching experience.
- E.115.1.3** An applicant should be employed at Post Level 2 and above. (However, in exceptional cases a candidate with Post Level 1 and related experience and competence could be considered.)

E.116 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.117 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over two years part-time study.

E.118 CURRICULUM

E.118.1 Level 1

Module Name	Module Code	Credits
Compulsory		
Action Research Project Cycle 1 - 111	SLM111	15
Leading and Managing People and Change 114	SLM114	18
Leading and Managing the School as an Organisation 115	SLM115	18
Leading and Managing Extra and Co-curricular Activities 117	SLM117	9

Working with and for the Wider Community 118	SLM118	9
	Sub-total	60
	FINAL TOTAL	120

E.119 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.120 PROGRESSION RULES

E.120.1 Part-time

Unless Senate decides otherwise, a part-time student shall complete the programme in two consecutive years and accumulate at least 42 credits (i.e. 3 modules) per annum to proceed with their studies. A student who has accumulated 84 credits (i.e. 6 modules) within two years may be allowed to proceed to the following year to complete the programme.

E.121 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.122 SPECIAL REQUIREMENTS FOR THE PROGRAMME

There are not special requirements for this programme.

RULES FOR POSTGRADUATE CERTIFICATE PROGRAMMES

POSTGRADUATE CERTIFICATE IN EDUCATION IN FURTHER EDUCATION AND TRAINING TEACHING) (4654)

E.123 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Postgraduate Certificate in Education in Further Education and Training Teaching - PGCE (Further Education and Training Teaching)**:

- E.123.1** A student must be in possession of an appropriate three-year (360 credit level) university degree or national diploma structured for teaching purposes in one of the following ways:
 - E.123.1.1** The degree should include subjects/courses in at least two appropriate fields of study which will require the student to offer teaching methods in school subjects and/or learning areas. A teaching method in an FET school subject should allow an appropriate academic field of study at NQF Level 6 at least; OR
 - E.123.1.2** The degree/diploma must include at least two approved subjects/courses at NQF Level 6; OR
 - E.123.1.3** The degree/diploma must include at least one approved subject/course at NQF Level 7 and one approved subject at NQF Level 6; OR
 - E.123.1.4** The degree/diploma must include at least one approved subject/course at NQF Level 7, and at least two other approved subjects/courses at NQF Level 6 in the Sciences. Only courses that give admission to the next year of study are recognized for this combination of courses, OR
- E.123.2** A student should have selected their subjects in such a way that they would be able to take courses in the method of teaching in two school subjects.
- E.123.3** The qualification requires specific depth and specialisation of knowledge that will equip successful students to teach two specialisations in the FET phase. This disciplinary basis for specialising in teaching the FET subjects must be included in the prior qualification. Specific requirements for subject specialisations are listed below:
 - E123.3.1** To register for Method of English: The degree/diploma should at least include English at NQF Level 6 (minimum 30 credits), or Linguistics at NQF Level 7 provided that English NQF Level 6 is also included in the degree.
 - E.123.3.2** To register for Method of Mathematical Literacy: The degree/diploma should include a combination of any two of the following: Mathematics, Applied Mathematics, Statistics, Mathematical Statistics, and Financial Mathematics, provided one is at least at NQF Level 6 (minimum 30 credits) and the other at NQF Level 6 (minimum 24 credits).
 - E.123.3.3** To register for Method of Geography: The degree/diploma should at least include Geography at NQF Level 6 (minimum 30 credits).

- E.123.3.4** To register for Method of History: The degree/diploma should at least include History at Level 2 (minimum 30 credits).
- E.123.3.5** To register for Method of Life Orientation: The degree/diploma should at least include Psychology at NQF Level 7 and preferably Sociology or Human Movement Studies or Philosophy or Political Studies or Labour Studies or Industrial Studies at NQF Level 6 (minimum 30 credits).
- E.123.3.6** To register for Method of Life Sciences: The degree/diploma should include a combination of any two of the following: Biochemistry, Biological Sciences, Biology, Genetics, Microbiology, Molecular Biology, Physiology and Zoology, with one at least at Level 2 (minimum 30 credits) is required provided at Level 1 (minimum 24 credits) in Biology or Botany and Zoology are also included.
- E.123.3.7** To register for Method of Mathematics: The degree /diploma should at least include Mathematics at NQF Level 6 (minimum 30 credits) OR Mathematics at NQF Level 6 (minimum 24 credits) and at least Statistics at NQF Level 6 /Mathematical Statistics at Level 2/ Applied Mathematics at Level 2/ Financial Mathematics at NQF Level 6 (minimum 30 credits).
- E.123.3.8** To register for Method of Physical Sciences: The degree/diploma should include both Physics and Chemistry. One of these must be taken at NQF Level 6 and the other at least at NQF Level 6. For example, Physics NQF Level 6 (minimum 30 credits) and Chemistry NQF Level 6 (minimum 24 credits) or vice versa.
- E.123.3.9** To register for Method of Economics: The degree should at least include Economics at NQF Level 6 (minimum 30 credits).
- E.123.3.10** To register for Method of Business Studies: The degree/diploma should at least include Business Economics or Business Management at NQF Level 6 (minimum 30 credits).
- E.123.3.11** To register for Method of Afrikaans: The degree/diploma should at least include Afrikaans at NQF Level 6 (minimum 30 credits).
- E.123.3.12** To register for Method of African Language: The degree/diploma should at least include isiXhosa at NQF Level 6 (minimum 30 credits).
- E.123.3.13** To register for Method of Accounting: The degree/diploma should at least include Accounting at NQF Level 6 (minimum 30 credits).
- E.123.3.14** To register for Method of Computer Applications Technology (CAT): The degree/ diploma should include Computer Science or Information Systems or Informatics at NQF Level 6 (minimum 30 credits).
- E.123.3.15** To register for Method of Information Technology (IT): The degree/diploma should include Computer Science at NQF Level 6 (minimum 30 credits).
- E.123.3.16** Where an undergraduate qualification does not fully meet the requirements to offer a specific teaching method, the student may be allowed concurrent registration of

the outstanding method subject for the following scarce subjects only: Life Sciences, Geography and Physical Sciences.

E.124 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.125 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over one year full-time.

FINAL TOTAL		135

E.127 ASSESSMENT

E.127.1 Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.127.2 The following assessment rules shall also apply to this programme:

E.127.2.1 A supplementary examination may be written in a maximum of three of the compulsory subjects.

E.127.2.2 If a final mark of below 50% but not less than 45% is obtained in Teaching Practice an additional period of supervised practice teaching must be arranged in consultation with the Faculty.

E.128 ADVANCE REGISTRATION

The renewal of registration will be governed by the Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1.

E.129 PROGRESSION RULES

Unless Senate decides otherwise, a student shall complete the programme in one year. A student who has passed at least 90 credits may proceed with their studies to complete the programme the following year.

E.130 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.131 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.131.1 80% attendance is compulsory for all practicals in the Faculty.

E.131.2 Courses in secondary school teaching method cannot be taken in a subject in which only practical or special courses (e.g. English 105) have been taken, i.e. a course which will not admit a student to Level 2 in the subject concerned. These courses are introductory or bridging type courses and do not have the rigour of a content course as stipulated that would lead to competent and confident teaching.

E.131.3 Prospective teachers seeking employment within a particular educational authority need to acquaint themselves with the teacher selection procedures, if any, required by such an authority.

E.131.4 German Special 305 and French 305 are recognised for method purposes as school subjects on Level 2.

E.131.5 In a case where an undergraduate qualification does not fully meet the requirements to offer a specific teaching method in the subjects of Life Sciences, Geography and Physical Sciences only, an institution may require of a student to concurrently study a module or course to strengthen their disciplinary knowledge while completing the PGCE- in order to ensure thorough teaching competence in that area. This is not applicable/cannot be applied to instances where the student does not fully meet the admission requirements for the PGCE.

E.131.6 A student should have selected their subjects in such a way that they would be able to take courses in the method of teaching in two school subjects.

- E.131.7** A student should consult with the Faculty of Education to determine in which subject method courses are offered.
- E.131.8** The Faculty reserves the right not to offer any of the optional subjects during a particular year. These are not compulsory, and can be done as extra-mural additional offerings.
- E.131.9** A student is strongly advised to make use of the facilities for sport and cultural activities in view of the demand for teachers with experience in these aspects of the school programme. Students will receive certificates of attendance.

RULES FOR POSTGRADUATE PROGRAMMES

POSTGRADUATE DIPLOMA IN EDUCATION (4652)

(not offered in 2026)

E.132 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Postgraduate Diploma in Education – PGDip**:

A student must be in possession of a BEd. Honours degree or a qualification deemed by the Senate to be the equivalent.

E.133 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.134 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over one year full-time or two years part-time study.

E.135 CURRICULUM

Students registered for this programme prior to 2013 should refer to the 2012 Faculty Calendar for rules and information.

The Postgraduate Diploma in Education is offered in the following areas of specialisation areas:

- Adult Education
- Educational Psychology
- Educational Studies
- Higher Education Studies in Teaching and Learning
- Language and Literacy
- Leadership and Management
- Mathematics
- Science Education

E.135.1 Adult Education

E.135.2 Educational Psychology

Module Name	Module Code	Credits
Compulsory		
Introduction to Research in Educational Psychology 715	EDU715	15

FINAL TOTAL 120**E.136 ASSESSMENT**

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.137 PROGRESSION RULES**E.137.1 Full-time**

Unless Senate decides otherwise, a full-time student shall complete the programme in one year. A student who has passed at least 60 credits may proceed with their studies to complete the programme in the following year.

E.137.2 Part-time

Unless Senate decides otherwise, a part-time student shall complete the programme in two consecutive years and accumulate at least 60 credits per annum to proceed with their studies. A student who has accumulated 90 credits within two years may be allowed to proceed to the following year to complete the programme.

E.138 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.139 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.139.1 A student who has obtained a Postgraduate Diploma in Education from the University of the Western Cape may subsequently apply to register for a MEd or MPhil degree.

E.139.2 The Faculty Board may require a student to register for an additional module (or modules) if, in its view, certain new developments in the field of study have made it necessary.

E.157 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.158 PROGRESSION RULES

E.158.1 Full-time

Unless Senate decides otherwise, a full-time student shall complete the programme in one year. A student who has passed at least 60 credits may proceed with their studies to complete the programme in the following year.

E.158.2 Part-time

Unless Senate decides otherwise, a part-time time student shall complete the programme in two consecutive years and accumulate at least 45 credits per annum to proceed with their studies. A student who has accumulated 90 credits within two years shall be allowed to proceed to the following year to complete the programme.

E.159 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.160 SPECIAL REQUIREMENTS FOR THE PROGRAMME

- E. 160.1** A student may appeal to Senate to have their modules taken for extra-curricular enhancement purposes recognised for the purposes of a BEd (Hons) degree.
- E. 160.2** 80% attendance is compulsory for all modules in the BEd (Hons) programme.
- E. 160.3** The elective modules shall be selected from the list of semester modules available provided that all pre-requisites and co-requisites are met.
- E. 160.4** The Senate reserves the right to require BEd (Hons) students to satisfy coursework requirements, in addition to passing the appropriate examinations, before the degree shall be awarded. Pre-requisites and limitations for the various modules and areas of focus, will be found in the Faculty Honours handbook.
- E. 160.5** The Senate reserves the right not to offer a given area of focus or module every year and to offer additional areas of focus or modules. The Faculty Honours handbook may be consulted in this regard.
- E. 160.6** The offering of areas of focus for which fewer than ten students register, is at the discretion of the Senate.
- E. 160.7** A full-time student may select a maximum of five modules per semester and a part-time student may select a maximum of two modules per semester.
- E. 160.8** A student may, as part of their area of focus and up to a maximum of the equivalent of two semester modules, select an available module from the Advanced Diploma for Educators of Adults or enrol for a module at Honours or equivalent level in another Faculty in the University. Information on the conditions under which this option may be exercised, will be found in the Faculty Honours handbook.
- E.160.9** A student upon completion of the BEd (Hons) degree may register for module(s) for non-degree purposes.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (C), Electives (E), Year Module (YR), Semester Module (S), Pre-requisites and Co-requisites, Service Module (SM)

BACHELOR OF EDUCATION HONOURS IN EDUCATIONAL PSYCHOLOGY (Full-Time - 4117) / (Part-Time - 4118)

(Full-Time – 4117: not offered in 2026)

E.161 ADMISSION

Unless Senate decides otherwise, a student shall be admitted to study for the **Bachelor of Education Honours in Educational Psychology Degree - BEd (Hons) (Educational Psychology)** or register modules for non-degree purposes with:

E.161.1 a university degree and having obtained an average of 60% in Psychology 3 and

E.161.2 One of the following teaching qualifications;

- a) Teaching qualification(s) recognised by the University as equivalent to M+4, or
- b) Advanced Teachers Diploma, or
- c) A Higher Diploma in Education (non-graduate) awarded by the University of the Western Cape

Please note: This qualification does not articulate to registration as a counsellor with the Health Professions Council of South Africa (HPCSA)

E.162 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

E.163 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over one year full-time or two years part-time study.

E.164 CURRICULUM

Module Name	Module Code	Credits
Compulsory		
Counselling Practice 709 (not offered in 2026)	BED709	15
Counselling Theory 710 (not offered in 2026)	BED710	15
Development and Learning 712	BED712	15
Educational Psychology Research Project 715	BED715	15
Special Needs and Support Services 737	BED737	15
Psycho-Educational Assessment 749 (not offered in 2026)	BED749	15
Psychopathology 756 (not offered in 2026)	BED756	15
Introduction to Research in Educational Psychology 715	EDU715	15
	FINAL TOTAL	120

***Part-time students should consult the Faculty Honours Handbook for module selection.**

E.165 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

E.166 PROGRESSION RULES

E.166.1 Full-time

Unless Senate decides otherwise, a full-time student shall complete the programme in one year. A student who has passed at least 60 credits may proceed with their studies to complete the programme in the following year.

E.166.2 Part-time

Unless Senate decides otherwise, a part-time student shall complete the programme in two consecutive years and accumulate at least 45 credits per annum to proceed with their studies. A student who has accumulated 90 credits within two years may be allowed to proceed to the following year to complete the programme.

E.167 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

E.168 SPECIAL REQUIREMENTS FOR THE PROGRAMME

E.168.1 A student may appeal to Senate to have their modules taken for extra-curricular enhancement purposes recognised for the purposes of a BEd (Hons) degree.

E.168.2 80% attendance is compulsory for all modules in the BEd (Hons) programme.

E.168.3 The Senate reserves the right to require BEd (Hons) students to satisfy coursework requirements, in addition to passing the appropriate examinations, before the degree shall be awarded. Pre-requisites and limitations for the various modules and areas of focus, will be found in the Faculty Honours handbook.

E.168.4 The Senate reserves the right not to offer a given area of focus or module every year and to offer additional areas of focus or modules. The Faculty Honours handbook may be consulted in this regard.

E.168.5 The offering of areas of focus for which fewer than 20 students register, is at the discretion of the Senate.

E.168.6 A full-time student may select a maximum number of four modules per semester and a part-time student may select a maximum number of two modules per semester.

E.168.7 A student may, as part of their area of focus and up to a maximum of the equivalent of two semester modules, select an available module or enrol for a module at Honours or equivalent level in another Faculty in the University. Information on the conditions under which this option may be exercised, will be found in the Faculty Honours handbook.

UNDERGRADUATE MODULE DESCRIPTORS

Faculty	Education		Home Department			Language Education	
Module Name	Academic Literacy 111		Module Code			ADL111	
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	10
Programmes in which the module will be offered	BEd (SP and FET) (4401, 4402, 4403, 4404, 4405)				Total Learning Time	100 hours	
Duration	Year			Proposed Semester		Both Semesters	
Main Learning Outcomes	On completion of the module students should be able to: - Understand the range of metacognitive and discourse-based strategies that will improve their ability to engage with academic reading and writing tasks - Develop an awareness of the social, personal, cognitive and knowledge-building aspects of reading and writing - Explore a range of strategies and processes for improving writing skills which include an ability to identify and make appropriate language choices at the levels of genre, register, global and local coherence relations, modality, etc. - Use basic technological tools like excel and the basic four function calculator to do calculations related to measurement, costs, percentages, interest and measures of central tendency - Create, interpret and manipulate or transform basic statistical information (tables, charts, graphs, etc.)						
Main Content	Reading for Learning - Active reading skills and strategies across a range of disciplines: predicting, skimming, scanning, understanding textual organization and recognizing key discourse features - Making notes - Summarizing - Using discourse and language clues to track the development of an argument and identify/evaluate the author's position and evidence - Critical language awareness: recognizing the impact of language choices and patterns Writing for Learning - Explore a range of strategies and processes for improving writing skills which include an ability to identify and make appropriate language choices at the levels of genre, register, global and local coherence relations, modality, etc. - Understanding that writing takes place in particular contexts and situations, and has particular goals for particular audiences - Developing authorial voice and adapting that voice to different audiences - Planning, brainstorming, drawing up outlines, structuring an argument using appropriate discourse features, etc. - Drafting - Editing carrying out on-line writing or other tasks - Using Excel documents to convert data into charts or graphs - Accurately interpreting tables, graphs and charts, manipulating or transforming data, and writing up analyses						
Pre-requisite	None			Prohibited module Combination		None	
Co-requisite	None

Module Type	Elective	NQF Level	6	Year Level	3	NQF Credit	30
Programme in which the module will be offered		BEd (SP and FET) (4401)				Total Learning Time	300 hours
Duration	Year		Proposed Semester		Both Semesters		
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Understand and critically analyse the EMS curriculum policy documents and the curriculum context in which they will be teaching • Examine and evaluate the role of learning about economic and management issues in the South African context • Apply and reflect on the theories underpinning EMS and learning • Apply and reflect on the approaches and strategies to EMS teaching and learning • Develop and assess the recording of business transactions, analysis and preparation of financial information • Demonstrate competence in teaching and assessing the economy, financial literacy and entrepreneurship in the Senior Phase • Critically evaluate EMS textbooks • Develop a reflective practice towards teaching and learning through action research • Compile an educator's/subject management file						
Main Content	• Introduction to Curriculum and Assessment Policy Statement (CAPS) Senior Phase and FET • Economic and management issues in the South African context • EMS and learning • Approaches to EMS teaching that underpin the curriculum (Curriculum as content, product, process and emancipatory) • Teaching and assessing the recording of business transactions, analysis and preparation of financial information • Teaching, assessing and demonstrating competence in the economy, financial literacy and entrepreneurship • Textbook evaluation • Theory and practice of action research as a research methodology

		(Languages and Life Orientation, 5y) (4091), BEd (Mathematics and Natural Sciences, 5y) (4092)					
Duration	Semester	Proposed Semester			First Semester		
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Use newly developed intra and interpersonal skills in their interactions with learners. • Distinguish between Life Skills, Life Orientation, Health Education, and Health Promotion. • Identify youth at risk in terms of Sexual and Reproductive Health; Alcohol, Tobacco and other Substance Use; Fitness and Nutrition; Interpersonal Violence, and HIV and AIDS. • Foster and develop resilience in youth through Lifeskills interventions. • Design and facilitate Life Skills Programmes. • Reflect on prejudices regarding HIV and AIDS and engage critically with issues of stigma and discrimination, as this directly impacts on affected children and adults. • Understand the needs of learners affected by HIV/AIDS and refer appropriately. • Employ listening and support skills to better respond to learners, parents and colleagues who may need ‘counseling’, specifically in the area of HIV and AIDS.						
Main Content	• Designing and facilitating Life Skills Programmes • The theoretical foundations of a Life Skills Approach • Risk and resilience in youth • Combating stigma and discrimination around HIV and AIDS • HIV/AIDS: Transmission, prevention strategies and treatment interventions • The impact of HIV/AIDS on individuals and systems • The role of educators in the lives of children affected by HIV and AIDS: Counselling care and support • Education policy on HIV/AIDS in South Africa

Duration	Semester		Proposed Semester		Second Semester		

Main Learning Outcomes	On completion of this module, students should be able to:			
	Curriculum and Pedagogy			
	Knowledge			
	• Develop a critical understanding of the concept and nature of the curriculum and pedagogy • Know curriculum policy development in the South African context with specific reference to outcomes-based education • Discuss how curriculum is operationalized in South African schools with specific reference to curriculum orientations • Demonstrate theoretical and practical knowledge about how and why the curriculum is planned and organized in a specific way.			
Main Learning Outcomes	Skills			
	• Apply knowledge of curriculum in practice • Construct a good learning environment based on the assumptions about curriculum, knowledge, skills and values underlying the South African approach to OBE • Reflect on the impact of different curriculum orientations and views to the curriculum on teaching and learning. • To think critically about the debates and controversies in teaching the curriculum in South Africa			
	Values			
	• Engage critically, honestly and sincerely with others • Respect the views of others			
Main Learning Outcomes	Learner Discipline			
	• Define the concept 'learner discipline' • Identify and analyze the factors which result in learner misbehavior • Know the various approaches that can be used to prevent learner misbehavior, focusing on those that are applicable to the educator in the classroom • Discuss the most appropriate means of remedying learner misbehavior			
	Main Content	Areas that are covered in this module include:		
		Curriculum and Pedagogy		
• Concept and nature of curriculum and pedagogy • Curriculum policy development and Outcomes-based education • Curriculum orientations and its implementation in the South African classroom • Planning, organising and teaching the curriculum • Constructing a good learning environment based on the assumptions about curriculum, knowledge, skills and values underlying the South African approach to outcomes-based education • Debates and controversies in teaching the curriculum in South Africa				
Learner Discipline				
Main Content	• Defining 'learner discipline' • In-and-out of school causes of learner misbehavior • The preventative approach: the educator • The preventative approach: the learner • The preventative approach: the school • The preventative approach: the parents • Corrective measures: reprimands and punishment

Programme in which the module will be offered		BEd (Foundation Phase) (4517)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Define development and discuss the fundamental issues in developmental psychology. • Explain how children develop holistically and within a socio-cultural context. • Discuss significant aspects of development from conception to grade r. • Discuss key concepts within theories of development and learning in infancy and early childhood. • Explain underlying assumptions of theories of play. • Apply theories of child development in classroom and school settings. • Explain the educational implications of developmental theory. • Identify systemic/contextual factors that impact on development.						
Main Content	• What is child development? • Fundamental issues in developmental psychology. • Eco-systemic approach to understanding development • Physical development (0-6 years) • Beginnings: Heredity, Prenatal development and birth • Physical growth and motor development • Theories of Development • Psycho-social development (0-6 years) • Cognitive development (0-6 years) • Theories of Play						

	• Implications for development and learning • Factors impacting on development: family, school, media and society.				
Pre-requisite	None	Prohibited module Combination		None	
Co-requisite	None

Faculty	Education		Home Department			Educational Psychology	
Module Name	Child Development 211		Module Code			FCD211	
Module Type	Core	NQF Level	6	Year Level	2	NQF Credit	20
Programme in which the module will be offered		BEd (Foundation Phase) (4517)				Total Learning Time	200 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Discuss significant aspects of development in middle childhood and adolescence.						
	• Discuss key concepts within theories of development and learning in middle childhood and adolescence.						
	• Explain the impact of physical, emotional, social and cognitive development on learning.						
	• Discuss and debate notions of intelligence.						
	• Apply theories of development and learning to the foundation phase classroom.						
Main Content	• Identify systemic/contextual factors that impact on learning and academic achievement.						
	• Physical development (7-18 years).						
	• Theories of development						
	• Psycho-social development (7-18 years)						
	• Cognitive development (7-18 years)						
	• Theories of learning.						
Pre-requisite	FCD111		Prohibited module Combination			None

Programme in which the module will be offered		BEd (Foundation Phase Teaching) (4517)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Apply newly developed intra and interpersonal skills in their interactions with foundation phase learners. • Identify children at risk. • Explain how teachers can foster and develop resilience in children. • Understand the importance of support skills to better respond to children and parents (parental involvement and wellness). • Design and facilitate life skills classroom-based activities. • Apply appropriate teaching and learning strategies for teaching life skills in the foundation phase. • Develop and apply relevant assessment tools and methods • Explain and implement life skills curriculum topics in an integrated way.						
Main Content	• The self: intra- and inter- personal development. • Defining life skills. • The theoretical foundations of a life skills approach. Different theoretical approaches to Life skills from Bandura to Mitchell. • Children at risk. • The Foundation Phase curriculum. • The role of educators in counseling care and support (ethics of care perspective). • Key features of life skills • Life skills concepts • Life skills teaching methodologies for Foundation Phase. • Designing and facilitating life skills programmes. • Assessment tools and methods in the Foundation Phase. • Materials design for teaching life skills in the Foundation Phase

Faculty	Education		Home Department			School of Science and Mathematics Education	
Module Name	Foundation Phase Mathematics 111		Module Code			FPM111	
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	15
Programme in which the module will be offered		BEd (Foundation Phase Teaching) (4517)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Identify numbers represented in ancient numeration systems. • State and exemplify the importance of the 'place value' concept in the development of numeration systems leading to the hindu-arabic numeration system. • Translate number representations from one numeration system to another. • Perform basic calculations in ancient numeration systems and control for their corrections using the hindu-arabic systems. • Design and use concrete materials for the development of addition, subtraction, multiplication and division of whole and fractions. • Identify young children's acquisition of number and operations—from various forms of counting to using number as an abstract category.						
Main Content	• Place value in the Mayan, Egyptian, Roman and Hindu-Arabic numeration systems. • Translation of numbers between the Mayan, Egyptian, Roman and Hindu-Arabic numeration systems. • Basic operations in Mayan, Egyptian and Roman systems and control of their solutions through the use of the Hindu-Arabic system. • Basic operations in base 2 and 5. • The concept of a fraction. • Rules and conventions governing whole number operations: Commutativity, associativity, distributivity, identity elements, partitive and measurement division, closure, factors, multiples and inverse operations. • Order of operations. • Sets and basic operations as binary operations. • Acquisition of number and number operations by young children. • Selection, design and use of concrete representations of Hindu-Arabic numbers for the development of basic operations with whole numbers and fractions. • Number and number operations in the South African Foundation Phase school curriculum.

Module Name	Method of Teaching Natural Sciences 302		Module Code			GSM302	
Module Type	Core	NQF Level	7	Year Level	3	NQF Credit	15
Programmes in which the module will be offered		BEd (Mathematics and Natural Sciences) (4516), BEd (Mathematics and Natural Sciences, 5Yr) (4092)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate an application of educational theory to pedagogical practice. • Consolidate the 7 roles of the educator into the teaching and learning of Natural Science through demonstration.						
Main Content	Planning for teaching and Learning 2 • Micro teaching • Developing competencies in designing of lessons with emphasis on methods of assessment of learning. • Designing Integrated Science-Indigenous Knowledge teaching and learning resources. • Introduction to the DAIM (Dialogical Argumentation Instructional Model) as a teaching methodology.						
Pre-requisite	None		Prohibited module Combination			None

Module Name	Method of Teaching Natural Sciences 401		Module Code			GSM401	
Module Type	Core	NQF Level	7	Year Level	4	NQF Credit	15
Programmes in which the module will be offered		BEd (Mathematics and Natural Sciences) (4516, 4092)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Learners should be able to demonstrate their ability to integrate education theory and policy with pedagogy. • Learners should assimilate the seven roles of the educator into the teaching and learning of relevant Natural Sciences lessons.						

Main Content	Planning for Teaching and Learning II			
	• Regional and international comparative studies in science education • Reading and research of science education literature • To engage students with the curriculum for teaching and learning of Natural Sciences at the Senior Phase (Grades 7, 8, 9) of GET as advised by NCS 2002 • Research into teaching and learning in the science classroom II • Materials and resource development II • Models of teaching and learning with emphasis on argumentative and socio-scientific discourses to encourage an understanding of the relevance of the Natural Sciences

Module Type	Core	NQF Level	6	Year Level	2/3	NQF Credit	15
Programmes in which the module will be offered	BEd (Languages and Life Orientation) (4513, 4091)				Total Learning Time	150 hours	
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Communicate accurate understanding of their roles and responsibilities as teachers in the age of HIV/AIDS by stating at least five specific roles of educators which are different from their traditional role; • Be capable of discussing the implications of negative discriminatory attitudes towards persons infected by HIV or affected by HIV/AIDS, why it is important not to discriminate and what to do to avoid discriminating against persons infected with HIV or affected by HIV/AIDS. • Communicate accurate understanding of the human rights of children and parents by stating specifically at least five children's rights and how educators acknowledge and respect these in their classrooms; • Demonstrate understanding of the concepts of care and support by accurate definition of the concepts including stating the different types of care and support to provide for learners infected by HIV or affected by HIV/AIDS and how to provide these care and support; • Describe concisely how to develop a health promoting and supportive school environment for learners as well as supportive community environment for teachers and parents in the context of HIV/AIDS. • Demonstrate different intervention strategies in crisis situations related to HIV/AIDS (therapy, voluntary testing and counseling, care and support for persons infected with HIV or affected by HIV/AIDS including orphans, trauma counseling, bereavement counseling etc.)						

Main Content	• The module will feature lectures, discussions and individual or group presentations and demonstrations around the following: • The changing roles and responsibilities of educators in the age of HIV/AIDS; • Attitudes and Attitude change towards HIV/AIDS infected and affected; • Human and Children's rights and how these affect HIV/AIDS infected and affected; • Care and Support (meanings, types, provisions) for HIV/AIDS infected and affected; • Voluntary Testing and Counselling • Maintaining a health promoting school environment – Universal precautions • Basic counseling/communication/interview skills- why educators need basic counseling skills and how to make use of the skills to intervene in problem situations related to HIV/AIDS.

Module Type	Elective	NQF Level	6	Year Level	2	NQF Credit	10
Programme in which the module will be offered		BEd (SP and FET) (4402)			Total Learning Time	100 hours	
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate sound theoretical understanding of the concept. • Understand the process and development of health promoting schools internationally and nationally. • Transform schools into health promoting sites. • Collaborate with education support service personnel to meet the needs of learners. • Develop partnerships with parents and communities to ensure the well-being of our youth.						
Main Content	• The HPS concept • National policy in relation to HPS in South Africa • How HPS can play a role in addressing some of the major health problems impacting on the well-being of children in South Africa • Understanding the school as a system and how this impacts upon the development and sustainability of a health promoting school						

	- Understanding the challenges and opportunities of working inter-sectorally and practical strategies for working with other sectors, departments and institutions in the process of establishing a HPS - Strategies for implementing the HPS concept in South Africa – how HPS has been implemented in different contexts - Monitoring and evaluation of HPS

Module Name	English Language Study 151		Module Code			LAN151	
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		BEd (Languages and Life Orientation, 5y) (4091) BEd (Mathematics and Natural Sciences, 5y) (4092)				Total Learning Time	150 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to: • Write a clear, logically developed argument with minimal English grammatical errors. • Have a metalanguage for discussing linguistic choices.						
Main Content	• Skills Enhancement (reading/writing/vocabulary): • Practising reading strategies and skills, improving vocabulary range and working on fluency and accuracy of writing • Key grammatical terms for metalinguistic awareness and knowledge • Simple, compound and complex clauses • Linking clauses and paragraphs • Structuring an argument: stages, key linguistic features, modality, signalling stance towards information and making claims • Vocabulary development • Summary and paraphrase skills: using academic sources, avoiding plagiarism						
Pre-requisite	None		Prohibited module Combination			None

Programmes in which the module will be offered		BEd (Mathematics and Natural Sciences) (4516, 4092) BEd (SP and FET) (4401, 4403, 4405)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate an informed understanding, manipulative competence and the command of cognitive and conceptual tools to deal with arithmetic and geometry in terms of: • Number systems • Set theory • Modular arithmetic • Abstract algebra concepts such as groups and rings						
Main Content	• Numeration systems and the development and establishment of place value of the Hindu-Arabic system. • Elementary set theory, relations and functions • The sets of natural (N) and counting numbers (N0) and their properties • The fundamental theorem of arithmetic. • The division algorithm and divisibility tests. • Modular arithmetic. The RSA cryptography system. • The set of integers (Z) and properties of integers • The concept of a group and (Z, +), (Z, ×) and (Z, -) as groups. • Line and triangle geometry (Synthetic approach): Structure of geometry, point, line, plane, geometric figure, curves, simple plane region. Congruence and similarity. Proofs related to lines and triangles. The theorem of Pythagoras. • Elementary probability: Basic concepts • Mathematical problem-solving and modelling Graduate attributes covered • A critical attitude towards knowledge

Programmes in which the module will be offered		BEd (Mathematics and Natural Sciences) (4516, 4092), BEd (SP and FET) (4401, 4403, 4405)				Total Learning Time	150 hours

Duration	Semester	Proposed Semester	Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to:			
	• Demonstrate an informed understanding, manipulative competence and the command of cognitive and conceptual tools to deal with arithmetic and geometry of: • The set rational numbers • The set of real numbers • Abstract algebra concepts such as groups and rings • Polygons with focus on quadrilaterals • Elementary statistical concepts • Polynomial functions			
Main Content	• Properties of $(Q, +)$, $(Q, \times)$, $(Q, +, \times)$. The concept of a field and the field of rational numbers. Rational numbers and fractions. • Properties of R and the field of real numbers. Irrational numbers. Intervals of real numbers, absolute value, number and decimal representation of real numbers. Real numbers as infinite decimals. Fundamental operations including root extraction and exponentiation. Scientific notation of real numbers • Ratio. Elements of financial mathematics I. • Quadrilaterals and polygons. Definitions, properties, classifications, theorems. • Elementary statistical concepts: Measures of central tendency. • Functions and relations I. Definitions, domain, range, representational forms. Polynomial functions: algebra of polynomial functions. Solution of linear and quadratic equations: equality, equivalence, difference. • Mathematical problem-solving and modelling Graduate attributes covered • A critical attitude towards knowledge

Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Profound understanding, manipulative competence and the command of cognitive and conceptual tools to deal with polynomial and trigonometric functions, sequences and series and circle geometry. • Apply this knowledge to solve mathematical problems.						

Main Content	• Functions and relations: Polynomial functions: linear, quadratic, cubic functions. The factor and remainder theorem. Rational functions. Algebra of rational functions. Solution of equations including systems of equations. • Circle geometry: Angles subtended by chords (including the diameter). Cyclic quadrilaterals. • Trigonometry: Radian measure. Elementary trigonometric functions, periodicity, amplitude, solution of trigonometric equations. • Sequences and series: Recursion, arithmetic, geometric, harmonic, Fibonacci sequences. Mathematical induction. Graduate attributes covered • A critical attitude towards knowledge				
	Pre-requisite	MAE111 and MAE121 with an average of at least 50% for these two modules	Prohibited module Combination		None

Duration	Year		Proposed Semester		Both Semesters		
Main Learning Outcomes	On completion of this module, students should be able to: • Have profound understanding, manipulative competence and the command of cognitive and conceptual tools to deal with intuitive developments of differentiation and integration, elementary differential equations. • Apply this knowledge to solve mathematical problems and develop elementary mathematical models. • Intellectually enriched to use a CAS to explore Mathematics.						
Main Content	• Infinitesimal calculus: Intuitive developments of differentiation and integration restricted to polynomial functions. Differentiation of polynomial and rational functions. Intuitive development of integration restricted to polynomial functions. Integration of polynomial functions. The limit concept • Elementary differential equations. • Advanced notions of probability and statistics dealt with in school mathematics • Using CAS for computations related to the mathematical ideas and notions discussed in years 1 and 2. • Historical problems that facilitated the development of certain mathematical ideas • Mathematical problem solving • Mathematical modelling Graduate attributes covered • A critical attitude towards knowledge

Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Name the South African official languages and the key features of the target language.						
	• Show basic understanding of the phonological and syntactic structure of the target language.						
	• Demonstrate knowledge of basic vocabulary in the target language.						
	• Construct simple sentences in the target language.						
	• Listen and respond appropriately to different forms of the target language used in different classroom situations.						
	• Demonstrate basic reading skills in Afrikaans.						
	• Create and write basic texts in Afrikaans.						
Main Content	• Demonstrate basic competence to use the target language for intervention in the classroom.						
	• Introducing South African Languages						
	• Afrikaans as an official language						
	• The structure of the target language: phonetics, phonology, syntax and semantics.						
	• Afrikaans and functional discourse in the classroom.						
	• Afrikaans in cultural contexts.

Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment		CA		60%
					FA		40%

Faculty	Education		Home Department			Language Education	
Module Name	IsiXhosa Second Additional Language 101		Module Code			SXL101	
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	10
Programme in which the module will be offered		BEd (Foundation Phase Teaching) (4517)			Total Learning Time	100 hours	
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Name the South African official languages and the key features of the target language.						
	• Show basic understanding of the phonological and syntactic structure of the target language.						
	• Demonstrate knowledge of basic vocabulary in the target language.						

	• Construct simple sentences in the target language. • Listen and respond appropriately to different forms of the target language used in different classroom situations. • Demonstrate basic reading skills in isiXhosa. • Create and write basic texts in isiXhosa. • Demonstrate basic competence to use the target language for intervention in the classroom.						
Main Content	• Introducing South African Languages. • Afrikaans as an official language. • The structure of the target language: phonetics, phonology, syntax and semantics. • IsiXhosa and functional discourse in the classroom. • IsiXhosa in cultural contexts. • IsiXhosa and mediation across the curriculum.

Main Learning Outcomes	On completion of this module, students should be able to:						
	• Demonstrate understanding of the specific skills and aims suggested in the Curriculum and Assessment Policy Statements (CAPS) for Mathematics and Mathematical Literacy.						
	• Use specific teaching and learning approaches such as the investigative, problem solving and collaborative approaches.						
	• Develop personal competence at designing appropriate assessment instruments in particular those suitable for continuous assessment.						
	• Demonstrate competence as learning resources adaptor and mediator of learning with a focus on becoming a subject specialist.						
	• Conduct classroom-based research.						
	• Analyze school mathematics subject matter in terms of classroom activities and interactions.						
	• Design lesson plans						
	• Use of mathematical technologies for teaching and learning mathematics.						
	• Apply reflective practice competencies.						

Main Content	• CAPS: Specific aims and skills – Mathematics and Mathematical Literacy • Objects of Mathematics Teaching. • Mediation strategies for teaching and learning of mathematics with emphasis on the Learning Outcomes of Process Skills and Knowledge in mathematics in the senior phase • Forms and tools of assessment. • Selected Learning Theories. • Classroom-based research as part of reflective instructional practice. • Didactical analysis of school mathematics subject matter in terms of classroom activities and interactions. • Instructional design based on the didactical analysis of school mathematics subject matter. • The socio-cultural and socio-economic use of mathematics in everyday living.

Faculty	Education		Home Department			School of Science and Mathematics Education	
Module Name	Method of Teaching Mathematics 401		Module Code			TMM401	
Module Type	Elective	NQF Level	7	Year Level	4	NQF Credit	15
Programmes in which the module will be offered		BEd (Languages and Mathematics) (4515), BEd (Mathematics and Natural Sciences) (4516, 4092)			Total Learning Time	150 hours	
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate competence as learning resources adaptor and mediator of learning for the senior phase of the GETC with a focus on becoming a subject specialist within the OBE framework. • Demonstrate and understanding of selected Learning Theories (such as van Hiele Theory of Geometric Thought; Socio-cultural theory the theory of Instrumentation) and their implications for teaching and learning mathematics. • Demonstrate competence to conduct classroom based research. • Understand the nature, scope and methods of assessments of project work in school mathematics. • Demonstrate competence in didactical analysis of school mathematics subject matter. • Demonstrate competence in instructional design based on the didactical analysis of school mathematics subject matter. • Demonstrate competence in the use of mathematical technologies for teaching and learning mathematics.						

Main Content	Teaching, Learning, Assessment: • Critique of articles; materials and mathematical texts. • Mediation strategies for teaching and learning of mathematics with emphasis on mathematical knowledge and process skills for solving practical problems at the senior phase. Selected Learning Theories: • Van Hiele Theory; Socio –cultural theory and theory of instrumentation. • Problem Solving Approaches. • Project work • Didactical analysis of school mathematics subject matter • Instructional design based on the didactical analysis of school mathematics subject matter • Use of Geometer's Sketchpad and statistical software.

ADVANCED DIPLOMA MODULE DESCRIPTORS

Faculty	Education		Home Department			Educational Studies	
Module Name	Action Research Project Cycle 1 - 111		Module Code			SLM111	
Module Type	Core	NQF Level	7	Year Level	1	NQF Credit	15
Programme in which the module will be offered	AdvDip (School Leadership and Management) (4340)					Total Learning Time	150 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of the module students should be able to: • Demonstrate a sound understanding of what is involved in school leadership and management in South Africa and in relation to what constitutes good practice in South Africa and other parts of the world (the outcome that is introduced here should be elaborated further in the introduction to each subsequent module of the programme). • Demonstrate a sound understanding of the theory and methodology related to action research. • Plan, justify, execute and evaluate a workplace action research project aimed at school improvement. • Make an assessment of own abilities in leadership and management in terms of current notions of competence and relevance in South Africa in relation to leadership and management.						
Main Content	• Theory and practice of action research. • Identity development and reflexive practice. • The concept of 'context' as a departure point for understanding school leadership and management. • Contextual tensions, contradictions and harmonies, which are inherent in leadership and management. • The values and practices that should underpin school culture and policies. • The legislative and policy frameworks affecting schools including the impact of the broader national development plan. • Principalship in the South African context and the role of school leaders and managers as agents of change with specific reference to the South African Standard for School Principalship, contemporary trends and emerging challenges and opportunities identified in relevant literature. • The concept of school culture and the role of the school leaders and managers especially in relation to social justice and Child Rights. • Accountability as part of the democratic transformation linked to the use of prevailing quality management systems in the South African context, as drivers of school quality control and development. • Different organizational models; generic leadership and management principles with regard to planning, organizing, governance, evaluation and control and how this conceptual understanding is applicable to managing and leading people; teaching and learning, physical facilities, external relations, learner affairs, administrative information systems and financial affairs within a school. Transformational, instructional and distributed leadership, including teacher leadership, models will be explored (i.e. introducing all the themes that will be picked up in separate modules of the programme).						

	• Evidence-based enquiry (including use of data derived from SIPs (SIM's), WSE, ANAs etc.) • Knowledge and methodology of reflective practice and action research, including aspects such as: ○ Analyse personal and situational: self-evaluation and educational life story. ○ Document personal experience of education change. ○ Critical reflection: Develop a vision, set goals for own development, identify multiple roles, and practise self-evaluation. • Project management.

Faculty	Education		Home Department			Educational Studies	
Module Name	The School as an Organisation 115		Module Code			SLM115	
Module Type	Core	NQF Level	7	Year Level	1	NQF Credit	18
Programme in which the module will be offered		AdvDip (School Leadership and Management) (4340)				Total Learning Time	180 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of the module students should be able to:						

	• Demonstrate the personal and professional qualities and skills necessary for effective management of organisational systems, including ICT, and financial and physical resources. • Implement, evaluate and maintain and improve organisational systems for the school where possible making use of appropriate information and communication technology ICT. • Lead and manage the physical and financial resources of the school in a transparent and accountable way. • Understand and be able to apply relevant content knowledge and skills in the management of organisational systems, ICT and physical and financial resources. • Create, manage, innovate, and sustain appropriate systems and procedures to enhance a caring and disciplined environment and show commitment to following this through in the way in which teaching and learning is organised.		
Main Content	• Relevant policies, regulations, applicable legislation and other applicable data. • Participatory management skills. • Qualities of an effective school. • Constitutional values such as efficiency, accountability, transparency, fairness, building financial responsibility and punctuality. • Problem-solving techniques, innovation and creative thinking skills. • Communication strategies. • Communication media, technology and systems. • Information management systems in schools. • School administration - the setting up of a school administrative office, setting up and maintaining school resource management systems (The school administrative system is consistent with the requirements of the South African Schools Act (SASA). • Departmental guidelines on managing physical resources. • The relationship between good communication systems and school effectiveness and improvement. • Theory, policy and guidelines on school financial management. • Fundraising strategies and mechanisms i.e. entrepreneurship. • A business plan for schools. • Marketing of schools. • The norms and standards of funding for schools in the South African education system. • The principles of information management. • The principles and practices of the health-promoting school underpinned by Section 22 of the South African Constitution. • The principles and practices of safe schools. • The principles and practices of inclusive education. • Codes of conduct for teachers and learners. Racism, xenophobia, sexism ... policy and practice review.

Assessment Module Type	Continuous Assessment (CA)		Method of Student Assessment			CA	100%
Faculty	Education		Home Department			Educational Studies	
Module Name	The School System 116		Module Code			SLM116	
Module Type	Core	NQF Level	7	Year Level	2	NQF Credit	18
Programme in which the module will be offered		AdvDip (School Leadership and Management) (4340)				Total Learning Time	180 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of the module students should be able to: • Demonstrate a sound understanding of the overall contemporary policy context applicable to schooling in South Africa. • Demonstrate the personal qualities necessary for effective management of legislative mandates, policy, planning, school development and governance. • Develop and communicate school values, vision, mission, policies and plans in a collaborative way and secure commitment to these. • Develop and maintain sound working relationships with the School Governing Body as well as parents, learners, the community and the department. • Understand and be able to apply relevant content knowledge in leading and managing policy, planning, school development and governance.						
Main Content	• Key concepts within the context of schooling: - o Administration - o Management and leadership - o Governance • Schools as Transforming Communities • Interdependence of Structure, Agency and Support - o National Department; - o Provincial Department; - o Districts; - o Circuits; - o Schools; and - o Individual roles. • The links between values, vision, mission, policy, planning and the role of leadership and management in relation to these. • Formulation of a description (definition) of policy. View policy holistically, in relation to multiple contexts: - o Policy as part of a process - focus on questions of why, how, when and who. - o Legislation as related to policy (basis of authority). - o Reviewing policy: What roles do principals and SGBs play in policy formulation and implementation? - o Policy as action plans. • Policy process. • Policy mediation from planning to action. • Legal and Policy Context: - o Mapping policies and legislative frameworks; - o Specific policies and legislation; - o SA Constitution;						

	- o South African Schools Act; - o National Curriculum Statement/ CAPS; - o Labour Relations; - o Employment of Educators Act; - o South African Council of Educators; • SA Standard for Principalship • A practical framework for formulating, implementing and evaluating policy in the school context. • Planning for school development. • Different Approaches: - o School effectiveness; - o School improvement; and • Whole School Evaluation. • The School Development Plan. • Strategic Planning.

Faculty	Education		Home Department			Educational Studies	
Module Name	Education Practice 403		Module Code			HDE403	
Module Type	Core	NQF Level	7	Year Level	1	NQF Credit	30
Programme in which the module will be offered		PGCE (Further Education and Training Teaching) (4654)			Total Learning Time		300 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Plan and execute lessons effectively • Apply the required subject knowledge in teaching and learning situations • Reflect on their own practice • Demonstrate professional conduct in their interaction with learners and colleagues in schools						
Main Content	The above outcomes are achieved in an integrated way with students' engagement with:						
	• School and classroom observation • Lesson observation (peers and teachers) • Lesson planning and execution • Reflection on their own teaching • The compilation of a journal to record reflection on issues inside and outside of the classroom that impact on teaching and learning • The compilation of a portfolio of teaching and other resources • The completion of a teaching practice workbook

Module Name	Method of History 405		Module Code		MTH405		
Module Type	Elective	NQF Level	7	Year Level	1	NQF Credit	25
Programme in which the module will be offered		PGCE (Further Education and Training Teaching) (4654)				Total Learning Time	250 hours
Duration	Year		Proposed Semester		Both Semesters		
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Demonstrate basic planning techniques in history teaching. • Relate the principles and theory of history to classroom teaching. • Develop classroom teaching materials and activities; • Integrate content, skills and values in the teaching and learning process. • Apply a range of teaching styles. • Develop detailed lesson plans. • Develop a theme, learning unit and lesson plan. • Outline the basic principles underlying the National Curriculum. • Evaluate the conditions for history teaching in schools. • Use a range of teaching materials.						
Main Content	• Aims of the South African Curriculum • South African history of education • Teaching History in contemporary South Africa • African Renaissance • The History classroom • Lesson plans • Assessment in History						

	• Developing learning support materials

Faculty	Education		Home Department			Language Education	
Module Name	Method of English 412		Module Code			MTH412	
Module Type	Elective	NQF Level	7	Year Level	1	NQF Credit	25
Programme in which the module will be offered		PGCE (Further Education and Training Teaching) (4654)			Total Learning Time		250 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to:						
	- Analyse the Language Policy and Curriculum contexts in which English is taught in South Africa. - Interpret and implement the National Curriculum regarding Language and Learning Principles. - Apply knowledge and skills in methods for teaching the four language skills' learning outcomes: speaking and listening; reading and viewing; writing and presenting; language structures and conventions. - Explain and apply theories of learning, approaches to developing thinking skills and conceptual understanding. - Evaluate the role of language in learning across the curriculum.						

	• View language as a powerful tool for learning.				
Main Content	The teaching of English as both Home Language and First Additional Language is the focus of this English Method Course. The course has both theoretical and practical components, as it is important that students should understand the policies and theories which form the basis of current, good language teaching practice, as well as knowing how to teach language skills.				
	• Language-in-Education Policy National Curriculum				
	• Theories of learning.				
	• Principles, methods and ideas for teaching the language learning outcomes, and the teaching of reading (including literature), writing, grammar and spelling.				
	• The role of language in learning across the curriculum				
	• Developing learners' thinking skills. Methods for language teaching. Language Learning Principles				
	• Assessing language learning.

Programme in which the module will be offered		PGCE (Further Education and Training Teaching) (4654)				Total Learning Time	250 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module students should be able to: • Demonstrate the ability to understand the curriculum and assessment policy documents for Computer, Applications Technology (CAT); • Prepare and develop lesson plans for Computer Applications Technology lessons; • Apply appropriate educational theories in teaching and learning of CAT; • Use relevant learning management system to support computer mediated instruction for e-learning; • Demonstrate competence to manage a computer centre; • Demonstrate competence in conducting educational research in CAT; • Demonstrate acquaintance with current trends in Computer Applications Technology; • Apply appropriate assessment strategies in CAT; • Understand aspects of the National Curriculum statement and Curriculum and Assessment Policy related to CAT; • Implement CAT practical assessment tasks; • Demonstrate an appreciation for ICT related solutions to real-life problems.						
Main Content	The focus of this module is on general pedagogical knowledge and pedagogical content knowledge required to teach Computer Applications Technology content from grades 10 – 12 in the FET phase. It also focuses on experience in situational and practical learning. • The Science of teaching Computer Applications Technology; • Understanding of the Curriculum and Assessment policy documents for Computer Applications Technology (CAT); • Insights into the various Computer Applications Technology components; • Lesson planning development and implementation in Computer Applications Technology;						

	• Application of educational theories in the teaching and learning of Computer Applications Technology; • Computer-mediated instruction using Learning Management Systems for e-learning; • Implementation and management of computer centres; • Computer Applications Technology (CAT) as a subject discourse in the national school curriculum in South Africa; • The Science of teaching CAT; • Educational research in CAT; • Current and future trends in CAT; • Assessment methods in CAT; • CAT Project work at school level.

Module Name	Metatheory 700		Module Code			BED700					
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	15				
Programme in which the module will be offered	BEd (Hons) (4115, 4116), PGDip (4652)					Total Learning Time	150 hours				
Duration	Semester		Proposed Semester			First Semester					
Main Learning Outcomes	On completion of this module, students should be able to:										
	• Demonstrate an understanding of the various frameworks of educational thinking arguments that divide different frameworks.										
	• Demonstrate an understanding of how each of these frameworks of thinking works as well as the nature and purpose of educational theory.										
	• Demonstrate an understanding of each of these frameworks of thinking engages with the concepts of 'truth', 'objectivity' and 'research'.										
Main Content	• Demonstrate an understanding of how each of these frameworks of thinking makes the relationships between theory and practice.										
	• The nature and purpose of educational theory										
	• Positivist Educational Theory										
	• Interpretive Educational Theory										
Pre-requisite	None		Prohibited module Combination			None

Programmes in which the module will be offered		BEd (Hons) (4115, 4116), PGDip (4652)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Locate curriculum and pedagogy in a broader social context. • Explain the curriculum. • Discuss how the curriculum should be understood. • Demonstrate an Understanding of the basic orientations to the curriculum (cognitive development, personal relevance, academic rationalism, social adaptations and social reconstruction, curriculum as technology) for the purpose of determining what educational purposes drive their teaching. • Explore what ideas or paradigms shape the actual construction of the curriculum. • Examine the implications of the central debates and issues raised for teaching and developing the curriculum in South Africa; and • Critically evaluate their curriculum practice by doing action research in the classroom. Demonstrate from a professional development point of view: • Foundational competence, i.e. an understanding of the knowledge and thinking about curriculum that informs the actions taken; • Practical competence, i.e. an ability, in an authentic context, to consider a range of possibilities for action, to make considered decisions about which possibility to follow, and to perform the reflexive chosen action; and • Reflexive competence, i.e. an ability to integrate or connect performances and decision-making with understanding and an ability to adapt to change and unforeseen circumstances and to explain the reasons behind these actions.						
Main Content	Areas that are covered in this module include: • Curriculum and pedagogy as components of a schooling system – a system of public education; • Historical development of curriculum policy in South Africa • Conceptualising the curriculum; • Basic orientations to the curriculum underpinning educational values; • Curriculum approaches or paradigms shaping construction of the curriculum; • Learning and teaching with specific reference to learning as construction of meaning; everyday knowledge and school knowledge; and the teacher as mediator and assessor of learning; • An emancipatory role for the teacher; and • The reflective practitioner: Action research in the classroom

Programmes in which the module will be offered	BEd (Hons) (4115, 4116), PGDip (4652)					Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Explain the concept of holistic development and the importance of understanding the individual in context. • Refer to key debates and themes within developmental theory in understanding child development. • Demonstrate application of the basic assumptions, key concepts and educational implications of various theories of learning and development. • Analyse the factors impact on achievement at school • Explain the applicability of the theories in South African classrooms.						
Main Content	• The concept of development • Key themes in development theory • Physical development • Development theories • Information Processing Theory • Behaviourism • Underachievement						
Pre-requisite	None		Prohibited module Combination			None	
Co-requisite	BED747, BED749, BED710, BED737, BED709, BED756, BED715, BED742						
Timetable Requirement per week			1	Lectures p.w.			
			0	Practicals p.w.

Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	15

Programmes in which the module will be offered		BEd (Hons) (4117, 4118)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Design appropriate research instruments. • Conduct an empirical research in the field of Educational Psychology ethically. • Use a range of appropriate data collection methods in an empirical study. • Analyse and interpret data according to acceptable models of analysis, showing awareness of alternative models of analysis and theoretical frameworks. • Integrate the various components of the research cycle. • Compile Educational Psychology research reports which meets postgraduate standards of scholarship. • Reflect critically on the outcomes of the enquiry and on the research process. • Develop the skills to present aspects of their research at seminars and conferences.						
Main Content	• Refinement of research topic, research aims and research questions • Revision of research proposal and development of research instruments • Extension of literature review • Data Collection • Methods of analysis of quantitative and qualitative data • Issues of validity and reliability • Report writing

Programmes in which the module will be offered		BEd (Hons) (4115, 4116), PGDip (4652)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Use the theoretical frameworks and conceptual tools of educational leadership and management in their understanding of schooling, in general, and schooling in South Africa, in particular. • Participate in debates about educational leadership and management in South Africa in ways that are theoretically sound and conceptually informed.						

	• Use the theories and concepts introduced in the module to understand leadership and management experiences in their own workplace contexts.					
Main Content	Areas that are covered in this module include: • Leadership versus Management • Leadership and Management Styles • Transactional leadership and management • Transformational leadership and management • Strategic leadership and management • Curriculum leadership and management • Constructivist leadership and management • Entrepreneurial leadership and management • Invitational leadership and management • Distributed leadership and management • Female/Feminist leadership • Micropolitical leadership • Leadership and emotional and social intelligence • Ethical leadership and management • Sustainable leadership

Programmes in which the module will be offered		BEd (Hons) (4115, 4116), PGDip (4652)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Solve appropriate mathematical problems with the aid of technology. • Evaluate mathematical curriculum unit. • Examine research articles related to the use of technology in mathematics. • Produce scholarly pieces related to the use of technology in mathematics. • Design lesson sequences incorporating the use of mathematical technologies.						
Main Content	• A brief history of the use of technology in mathematics. • Use the following kind software effectively and efficiently teach and learn mathematics: Geometer's Sketchpad; Geogebra; Tinkerplots; Excel; Voyage 200; Microsoft Excel						

	• Use technology to conjecture/ discover, generalize and justify mathematical results. • Falacies and misconceptions that might result from using mathematics technologies. • Zome Geometry • Mathematical technologies and assessment

Programmes in which the module will be offered		BEd (Hons) (4115, 4116), PGDip (4652)		Total Learning Time	150 hours
Duration	Semester	Proposed Semester		First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate a critical awareness and understanding of socio-scientific issues in school sciences especially the nature of learning difficulties of students from socio-economically deprived backgrounds • Develop compensatory teaching and learning strategies in science classroom • Identify problems in science education, solve problems, make decisions, using critical and creative thinking • Demonstrate an understanding of current challenges that influence the teaching of science education locally and abroad • Collect, analyze, organize and critically evaluate information • Communicate effectively using visual, symbolic and/or language skills, IT skills • Demonstrate an understanding of the world as a set of related systems in a social-economic-cultural context. • Demonstrate knowledge and understanding of current research domains in science education				
Main Content	• Learning objectives of CAPS and broader societal relevance • Relevance of Science Education • Learning to teach science and the teaching practice • Nature of scientific enquiry • Introduction to current issues in science education • Constructivism, Meta-cognitive strategies and science teaching/learning • Application of learning theories to science teaching • Exploring, structuring and constructing common science knowledge through instructional strategies • Reflective-creative teaching/learning assessment in sciences

Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	15
Programmes in which the module will be offered	BEd (Hons) (4115, 4116), PGDip (4652)					Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	

Main Learning Outcomes	On completion of this module, students should be able to: • Develop a critical appreciation of curriculum issues relating to science education and an awareness of different science curriculum initiatives internationally and locally • Develop competence to review literature in science education • Demonstrate an ability to conduct literature searches in varied data bases • Understanding the role of theoretical frameworks to explain issues in science education • Compare curriculum reforms in two foreign countries alongside a critical look at curriculum development in science education • Explain curriculum development and implementation of change in South Africa and how various educational policies impact on the sciences. Case studies of policy implementation and the work of current Science Education Projects.				
Main Content	• Relevance of science education locally and internationally • Problems, prospects and challenges of curriculum design and change • Role of literature review in the understanding of current issues in science education • The application of theoretical frameworks in science education • Teaching science in multi-cultural classrooms to second language learners. Integrating science with indigenous knowledge • What can educators learn from classroom-based research • Application of learning theories to science teaching • Developing lesson plans for micro-teaching on selected science concepts • Developing and implementing valid assessment instruments (including classroom interactions).

Programmes in which the module will be offered		BEd (Hons) (4115, 4116), PGDip (4652)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate an understanding of the relationship between language and society. • Examine and discuss sociolinguistic issues and insights for understanding their impact on education.						

	• Discuss, critique and analyze theories underpinning sociolinguistics in education. • Apply sociolinguistics knowledge in different social and educational contexts. • Critically reflect on sociolinguistic issues as they apply in their own classrooms.			
Main Content	• Conceptualizing Sociolinguistics • Language Prestige and Ideologies • Language Attitudes and Language Choice • Theorising Language, Culture and Identity • Theorising Language and Gender Construction • Language Power, Variation and Diglossia • Language Contact, Pidgins and Creoles • Language Maintenance, Shift and Revitalization • Bi-/Multilingualism • Language and Code • Mother Tongue and Bilingual Education • Teaching and Learning Theories on Mother Tongue and Bilingual Education

Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		BEd (Hons) (4115, 4116), PGDip (4652)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate an understanding of the nature of science. • Develop an awareness of the general debates surrounding the scientific/technological literacy and various science curricula e.g. Science curriculum, Science technology Society (STS) curriculum and Science for All Curriculum. • Demonstrate an understanding of investigative issues in science education. • Explore investigative techniques to current problems in science education. • Identify the current curricular emphasis on indigenous knowledge systems. • Demonstrate an awareness of theoretical and practical issues relating to assessment of learning outcomes in science.						

Main Content	• Current trends in science education research including IKS, scientific inquiry and nature of science • International and national bench mark testing in science education. • Current practices in data collection to understand challenges in the teaching of science at school. • Science, science education and culture. Teaching science in a multi cultural classroom and socio-cultural issues in science education. • Recent curriculum reforms in school science e.g. C2005, STS, CAPS and Science for All, and implications for science teaching/learning. • Assessment and Assessment Standards • National and International comparative studies on achievement in science: Implication for policy. Curriculum development and instructional practices.

Module Type	Core	NQF Level	8	Year Level	1
Programmes in which the module will be offered	BEd (Hons) (4117, 4118), PGDip (4652)		Total Learning Time		150 hours

Duration	Semester	Proposed Semester	Second Semester		
Main Learning Outcomes	On completion of this module, students should be able to:				
	• Develop an understanding of education policy and the manner in which it reflects and shapes political, economic, social and cultural history. • Develop an understanding of the history-sociology of education (colonial and apartheid) and policy development in South Africa with special reference to the period since 1994. • Develop an understanding of education debates and contests in their own terms but also to analyse education policy and resistance in the light of broader societal issues of power, equity, democracy, economics and parity. • Demonstrate an understanding of the links between education policy reform in post-apartheid South Africa and neo-liberal or market trends in the globalization of education policy. • Develop a theoretical understanding of schooling in structuralist and interactionist terms. • Demonstrate an understanding of sociology of education and some theories relating to processes of educational policy formulation and implementation. • Demonstrate an understanding of conceptual tools to engage with debates in contemporary South African education.				
Main Content	Areas that are covered in this module are:				
	• the history-sociology of modern missionary and colonial education in South Africa in the 20th Century: Contestation and debate. • the Bantu Education Act 1953: Reproduction of black labour, social control and resistance. • Alternatives to Bantu Education • ANC education in exile • RESA • Peoples Education • NEPI • Education in post-apartheid South Africa • Class and integration in Schools • Functional and Dysfunctional Schools • Education, state, society and schooling in South African education. • Experiences of and resistances to Apartheid education • Educational policy formulation and developing an alternative to Apartheid education. • Educational experiences in post-Apartheid South African education. • Learner achievement levels and teacher preparedness; Challenges in contemporary South African education.

			FA	50%	

Faculty	Education		Home Department			Language Education	
Module Name	Adolescent literature 752		Module Code			BED752	
Module Type	Elective	NQF Level	8	Year Level	1	NQF Credit	15
Programmes in which the module will be offered	BEd (Hons) (4115, 4116), PGDip (4652)					Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Describe adolescent or young adult literature. • Analyse the role of adolescent literature in the development of a world view and the development of a life-long reader. • Summarise elements of (and reading materials representing) popular culture and how those elements affect teen reading interests. • Evaluate books across various text types and themes. • Identify books used in the classroom and library and assess goals for creating a climate of understanding and appreciation for diverse cultures and heritages. • Develop activities for motivating young adults to read and discuss books critically, for example: book clubs, literary circles. • Analyse literary elements -- for example: content, plot, characterization, dialogue, and point of view in story and apply critical judgments to selected literature. • Create a literature unit demonstrating an understanding of the body of contemporary young adult literature and best practices for using literature with teenage readers.						
Main Content	Students will read, interpret and critically assess a wide array of literary texts. This will serve as a basis for a well-informed examination of the role of adolescent literature in the development of a wholesome world view and the development of a life-long reader. Following a socially-aligned conceptualization of young adult literature, the module equips students with response-centered approaches to literature that can help adolescents						

	develop a repertoire of strategies and skills for personalizing their reading of literature. By applying relevant theoretical issues and insights students will be able to formulate a set of criteria/procedures for both selecting and using well-informed selections of literary texts with adolescents. This will encourage young adults to: • Develop an appreciation of how language works in texts as they make meaning of what they read, • Bring their own experience to bear on what they read and write in response to their reading, develop cultural awareness through a reflection of cultural differences, • Promote an understanding of the role of the individual in society and the need for socio-cultural literacy.

Faculty	Education		Home Department			Language Education	
Module Name	ICTs in Language Education 753		Module Code			BED753	
Module Type	Elective	NQF Level	8	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		BEd (Hons) (4115, 4116), PGDip (4652)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Develop an informed understanding of new technologies and how they can contribute to language learning and teaching. • Understand and communicate relevant jargon and concepts in order to communicate more effectively with learners, colleagues, ICT managers and technicians in educational institutions and with software suppliers. • Demonstrate familiarity with the basics of computer assisted language learning (CALL), and different approaches to using CALL software in the (multilingual) language classroom. • Articulate and demonstrate the possibilities and constraints of multimedia in language teaching. • Demonstrate an understanding of the implications of new media and technologies for developing multimodal, mobile and digital literacies. • Critically evaluate multimedia as tools for teaching and learning languages and literacies. • Develop a language learning unit using ICTs.						
Main Content	The approach will be pedagogy-driven with an emphasis on language teaching methodologies that can be implemented successfully with the aid of new technologies. • Conceptualising ICTs in relation to education policies • Understanding theories of learning and teaching in ICTs • Introduction to new technologies						

	• Introduction to computer hardware and software: what the language teacher needs to know • Using word-processing and presentation software in the Languages classroom • Introduction to Computer Assisted Language Learning (CALL). Be familiar with the basics of computer assisted language learning (CALL), beginning with a definition of CALL, its historical development and an overview of different types of programmes. Different approaches to using CALL software in the languages classroom are explored, from whole-class teaching to distance learning. • Introduction to multimedia CALL • General characteristics of digital media • Exploiting World Wide Web resources online and offline • Integrating and critically evaluating ICTs in language teaching.

Programmes in which the module will be offered		BEd (Hons) (4115, 4116), PGDip (4652)				Total Learning Time	150 hours	
Duration	Semester		Proposed Semester			Second Semester		
Main Learning Outcomes	On completion of this module, students should be able to:							
	• Demonstrate an understanding of key concepts in language in education policy and planning, 'mother tongue' education and bi-/ multilingual education. • Demonstrate an awareness and understanding of the current LiEP in South Africa and the debates surrounding it. • Evaluate models of language planning in South Africa and elsewhere. • Develop language planning models for South African educational institutions.							
Main Content	• Language policy and language planning • Models of language planning • Language in education policies: A comparative perspective • Debates in 'mother tongue' education • Bi- and multilingual education models

Module Type	Core/ Elective	NQF Level	8	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		BEd (Hons) (4115, 4116), PGDip (4652)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate broad awareness and understanding of key educational leadership imperatives and approaches. • Demonstrate an analytical and critical understanding of educational leadership concept and related research, practice and policy. • Explain relationships between leadership theories, practice and outcomes. • Apply educational theory to educational practice and research.						
Main Content	Areas that are covered in this module include: • Key global and local educational leadership imperatives and challenges. • Educational leadership conceptualisation • Mainstream approaches to educational leadership practice and study • The link between educational leadership, context, institutional culture, change, policy and school effectiveness and improvement. • In-depth explorations of key issues associated with educational leadership such as values, ethics, individual and dispersed leadership, formal and informal leadership and leadership development.

Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	15
Programmes in which the module will be offered	BEd (Hons) (4117, 4118), PGDip (4652)					Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate a good theoretical understanding of the different causes of psychological disorders amongst children, adolescents and adults.						

	• Demonstrate familiarity with the different intervention strategies being applied in the treatment of psychological disorders. • Demonstrate understanding of forming a differential diagnosis. • Identify and categorise different types of psychological problems. • Integrate existing research to analyse issues pertaining to children, adolescents or adults with emotional or behavioural problems. • Demonstrate a good understanding of the role of culture in the diagnosis and treatment of psychological disorders in South Africa. • Distinguish between various approaches and select the most appropriate intervention for the context.			
Main Content	• Introduction to the study of child, adolescent and adult psychopathology • Theories and causes of child, adolescent and adult psychopathology • Assessment and treatment of child, adolescent and adult psychopathology • Diagnostic clinical evaluation • Externalising disorders • Internalising disorders • Developmental disorders • Neurological disorders • Learning disorders • Substance use disorders • Psychotic disorders • Eating disorders • Sleep and movement disorders • Child maltreatment			
Pre-requisite	None	Prohibited module Combination		None

Programmes in which the module will be offered		BEd (Hons) (Foundation Phase Teaching) (4113, 4114)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of the module students should be able to: • Demonstrate application of the basic assumptions, key concepts and educational implications of various theories of learning and development in the foundation phase. • Critically analyse the different theories presented and apply them in contextually appropriate ways to meet the needs of young learners in different socio-cultural settings.						

	• Demonstrate the ability to critically review information gathering, synthesis of data, evaluation and management processes in Foundation Phase learning context in order to develop creative responses to problems and issues. • Conduct and develop research informed solutions to promote learning in Foundation Phase classrooms, schools and communities. • Demonstrate the ability to present and communicate academic and professional texts effectively to a range of audiences, offering creative insights, rigorous interpretations and solutions to problems and issues related to Foundation Phase learning			
Main Content	• The extension of different theories of learning including theories from an African perspective • Brain-based learning and its implication for the foundation phase • Holistic development and learning and wellbeing

Programmes in which the module will be offered		BEd (Hons) (Foundation Phase Teaching) (4113, 4114)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of the module students should be able to:						
	• Locate curriculum and pedagogy in a broader social context.						
	• Demonstrate an understanding of the basic orientations to the curriculum for the purpose of determining which educational purposes drive their teaching.						
	• Critically analyse the philosophical paradigms that actually shape the curriculum.						
	• Critically examine central debates and issues surrounding the development of the curriculum in South Africa and its implications for teaching and learning in the Foundation Phase.						
Main Content	• Demonstrate an understanding of the alignment between curriculum, pedagogy and assessment.						
	• Trace the historical evolution of Foundation Phase schooling in South Africa, and in the rest of the world.						
	• Critically engage with key pedagogical approaches like critical pedagogy in different context and its implications for Foundation Phase teaching.						
	• Curriculum and pedagogy as components of a schooling system-a system of public schooling.						

	• Basic orientations to the curriculum underpinning educational values. • Curriculum approaches or paradigms shaping the construction of the curriculum. • Curriculum reforms in South Africa and its relation to pedagogical strategies adopted by teachers in the Foundation Phase of schooling. • The link between curriculum, assessment and different pedagogical approaches. • Historical evolution of Foundation Phase Schooling locally and globally. • Key pedagogical approaches, including critical pedagogy, and its implication for Foundation Phase Teaching.

Programmes in which the module will be offered		BEd (Hons) (Foundation Phase Teaching) (4113, 4114)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of the module students should be able to: • Demonstrate an understanding of different theoretical paradigms and approaches to research, and an ability to apply this knowledge to a research study, e.g., engaging in classroom action research. • Select and defend research designs illustrating an understanding of its ability to address the research question. • Identify and review national and international literature in relation to the chosen topic in Foundation Phase teaching. • Identify and explain a range of data collection methods that are appropriate to the chosen Foundation Phase Teaching project. • Demonstrate an awareness of the ethical issues associated with conducting empirical research in the Foundation Phase and develop related ethical protocols to support ethical clearance applications. • Analyse the structure of a Foundation Phase Teaching research proposal and identify the elements that could be included in their proposals • Develop coherent research proposals with acceptable research questions and hypotheses, critical literature reviews, clear and focused methodology and careful consideration of ethical issues.						
Main Content	• Introduction to research as a systematic form of inquiry in Foundation Phase Teaching • Understanding the aim and culture of research • Research paradigms and philosophical perspectives						

	• Problem formulation • Literature review and systematic reviews • Choosing and conceptualizing a research project in the field of Foundation Phase Teaching • Methods of data collection, with a specific focus on research with young children • Ethical consideration in research • Validity in research • Quantitative- and qualitative data analysis and reporting • Research lenses, and distilling research findings • Decolonial ways of conducting research with children • Writing a research proposal

Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of the module students should be able to: • Design appropriate research instruments • Conduct empirical research in the field of Foundation Phase Teaching • Use a range of appropriate data collection methods in an empirical study • Analyse and interpret data according to acceptable models of analysis, showing awareness of alternative models of analysis and theoretical frameworks • Integrate the various components of the research cycle • Compile research reports which meet postgraduate standards of scholarship • Reflect critically on the outcomes of the enquiry and on there search process • Develop skills to present aspects of their research at seminars and conferences						
Main Content	• Refinement of the research topic, research aims and research questions • Revision of research proposals and development of research instruments • Extensions of the literature review or systematic review • Data collection • Methods of analysis qualitative, quantitative and mixed method • Issues of validity and reliability • Report writing						

Pre-requisite	FER701	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		2	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous Assessment (CA)	Method of Student Assessment		CA	100%

Faculty	Education		Home Department			Language Education	
Module Name	Literacy Education in Multilingual Settings 712		Module Code			FIE712	
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		BEd (Hons) (Foundation Phase Teaching) (4113, 4114)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of the module students should be able to: • Demonstrate knowledge of meaning-based, transformative approaches to foundation phase literacy teaching with understanding of a range of early literacy development pedagogies, policies and professional practices. • Appreciate the significance and power for literacy learning of story, children's literature and other authentic language uses for young learners in the foundation phase. • Know why and how to create, holistic, inclusive, socially just, learning environments in diverse South African contexts. • Design programmes that address the learning needs of young learners in the foundation phase which are integral to the critical challenges facing education in South Africa today. • Apply relevant problem-solving skills, adaptive and innovative approaches to planning, teaching and evaluation in the South African context. • Apply ongoing analysis of and critical engagement with theory and practice in literacy development within the Foundation Phase. • Build inter-connections between different types of knowledges and practices within the Foundation Phase. • Draw reflexively from integrated and applied knowledge, to work flexibly and effectively in a variety of contexts.						
Main Content	• Models and Approaches to Literacy teaching and Learning: Global and Local Perspectives. • Integration in language and literacy theories and pedagogies across home and school contexts. • Literacy Theories and Pedagogies for diverse, multilingual communities and Foundation Phase classrooms. • Theories and pedagogical perspectives on the significance of story, oral and written children's literature for Foundation Phase literacy teaching. • Multimodality and Literacy teaching in the Foundation Phase.						

	- Developing multiliteracies and strategies for designing, teaching and assessing multimodal texts. - Approaches to remediation of reading and writing difficulties. - Researching Language and Literacy teaching and learning in the Foundation Phase.

			FA	50%

Faculty	Education		Home Department			School of Science and Mathematics Education	
Module Name	Integrating Technologies into the Foundation Phase 711		Module Code			FPL711	
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		BEd (Hons) (Foundation Phase Teaching) (4113, 4114)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of the module students should be able to: • Critically engage with global and local ICT in Education policies and practices in Foundation Phase Teaching in line with the South African context towards achieving the Sustainable Development Goals of 2030. • Demonstrate familiarity in teaching with new technologies in Foundation Phase classrooms. • Apply the learning theories of behaviorism, cognitivism, constructivism, Instructionism, constructionism, connectivism etc. in Foundation Phase Teaching. • Understanding the Cognitive development and the socio-cultural impact of integrating Information and Communication Technologies (ICTs) in the Foundation Phase. • Articulate and demonstrate the possibilities of applying the Technological Pedagogical Content Knowledge (TRACK) framework in research in the Foundation Phase. • Critically evaluate the use of Artificial Intelligence (AI), Coding and Robotics, Virtual and Augmented Reality and other e-tools the Fourth Industrial Revolution (4IR). • Create and develop Foundation Phase curriculum design with digital resources for future research.						
Main Content	• Global and local ICT policies and practices in the Foundation Phase in line with the South African context towards achieving the Sustainable Development Goals of 2030. • Teaching with new technologies in the Foundation Phase South African classroom.						

	• Learning theories of behaviorism, cognitivism, constructivism, Instructionism, constructionism, connectivism etc. in Foundation Phase Teaching. • Challenging the Learning Theories related to Online Instructional Design. • Cognitive development and the socio-cultural impact of integrating Information and Communication Technologies (ICTs) in the Foundation Phase. • Introduction to Technological Pedagogical Content Knowledge (TRACK) framework and its application in research in the Foundation Phase. • Application of Artificial Intelligence (AI), Coding and Robotics, Virtual and Augmented Reality and other e-tools the Fourth Industrial Revolution (4IR). • Reflective-creative curriculum design, in the creation and development of Foundation Phase Teaching digital resources for future research.

Faculty	Education		Home Department			School of Science and Mathematics Education	
Module Name	Mathematics in the Foundation Phase 711		Module Code			FPM711	
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		BEd (Hons) (Foundation Phase Teaching) (4113, 4114)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of the module students should be able to: • Demonstrate a deep and flexible conceptual understanding of mathematical concepts, operations and relations while making mathematical and real-world connections. • Develop a critical awareness of components that define the nature of mathematics which include: change, constancy, number sense, relationships, patterns, spatial sense and uncertainty. • Develop a critical appreciation of curriculum issues relating to Mathematics Education and an awareness of different Foundation Phase mathematics curriculum initiatives internationally and locally. • Engage with literature on conceptual and theoretical challenges on Mathematics in the Foundation Phase. • Compare curriculum reforms in countries alongside a critical look at curriculum development in mathematics education.						

	• Develop curriculum and material content using universal design for learning mathematics and nature of mathematics methodologies • Critically analyse, from a Sociological Scientific Knowledge perspective, the doing of mathematical work in the Foundation Phase. • Demonstrate an understanding of ongoing and interactive assessment to effective teaching and learning. • Communicate mathematically, use mathematical language and terms, and analyse mathematical definitions. • Apply interactive and self-assessment in order to reflect on and articulate an understanding of mathematical concepts and ideas.						
Main Content	Number Theory • Number concepts and Assessment at the elementary level. • Teaching rotational number concepts. Curriculum development and Theory • Curriculum design and change in inquiry-based mathematics. • Learning theories to enhance mathematical teaching in the Foundation Phase. • Assessment strategies that lead to effective teaching and learning in of mathematics in the Foundation Phase. Problem-solving • Theories and methods of mathematical problem-solving with application to Foundation Phase classroom instruction. • Problem-solving strategies that involve the application of set theory. • Use of experimental or theoretical probabilities to present and solve problems involving uncertainty as it relates to Foundation Phase teaching and learning. • Problem-solving strategies involving conditional statements. History of Mathematics • Universal Design for Learning mathematics and mathematical methodologies.

Programmes in which the module will be offered		PGDip (Higher Education in Teaching and Learning) (4655)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: - Analyse current context in relation to pedagogic problems, students' learning needs, and identify available technologies and their affordances. - Design and develop technology-enhanced learning intervention using technology suitable to the context. - Implement and evaluate a pilot of the technology-enhanced learning intervention. - Reflect on the process of analyzing, designing, developing, implementing and evaluating the technology-enhanced learning intervention.						
Main Content	Current practices of designing and developing technology-enhanced learning intervention in the southern African higher education context.						
Pre-requisite	None		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			0	Lectures p.w.			
			0	Practicals p.w.			
			0	Tutorials p.w.			
Other teaching modes that does not require time-table							
Assessment Module Type	Continuous Assessment (CA)		Method of Student Assessment			CA	100%

Faculty	Education		Home Department			Educational Studies	
Module Name	Service-Learning and Community Engagement in Higher Education 714		Module Code			HES714	
Module Type	Elective	NQF Level	8	Year Level	1	NQF Credit	30
Programmes in which the module will be offered		PGDip (Higher Education in Teaching and Learning) (4655)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			Second Semester	

Main Learning Outcomes	On completion of this module, students should be able to: • Understand, contextualise and critically engage with service-learning within the contemporary theoretical and conceptual perspectives on community engagement (CE) in higher education (HE). • Demonstrate an understanding of the complexities of and key requirements for sustainable collaborative relations needed for engaging in experiential learning methodologies. • Develop an innovative curriculum for a service learning (SL) module or capacity building programme in which SL features as an experiential, transformative pedagogy. • Understanding the difference between modes of inquiry and the application of mode 2 inquiry (to develop useful knowledge) to advance their own teaching practice through systematic, participatory research into and through SL and CE.				
Main Content	The module comprises of the themes and subjects considered relevant towards developing best teaching practice in experiential learning pedagogies and in particular in service-learning. The four main themes covered are: • Theoretical, conceptual and institutional policy perspectives on the development of SL in CE • Participants will be familiarised with the conceptual and theoretical frameworks of SL and CE and required to analyse the role of institutional policy and practice in realising SL and CE within the SA context. • Collaborative Practices in SL and CE • Reciprocity is central to engaging students in community-based curricular work. A clear grasp of the concept community and the process of initiating, establishing and maintaining collaborative relationships and linkages are paramount to this reciprocity. • Application of Service-Learning in curriculum design • The theoretical and conceptual framework for SL forms the foundation of this theme. Phases of curriculum design; Reflection; Assessment; and evaluation are implemented within the context of risk management and quality assurance in experiential teaching and learning. • Research in SL and CE • Research in teaching is one of the pathways to scholarship of engagement which entails reflecting on and writing about one's own work. Participants will be introduced to research aligned with the development of mode 2 knowledge production through applicable research methodologies.

Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Devise and implement institutional policies on student equity, diversity and inclusion within a post-school context. • Oversee academic interventions and remediation for effective student progression within a post-school context. • Establish student counseling services including career counselling.						

	Implement student health, safety and wellness and referral strategies within a post-school context.			
Main Content	- National student policy within TVET College student governance and management frameworks - Academic assessment and remediation interventions for post-school students - Career counseling for post-school learners - Basic counselling and referral mechanisms, occupational health and safety frameworks within a vocational context.			
Pre-requisite	None	Prohibited module Combination		None
Co-requisite	None			
Timetable Requirement per week		2	Lectures p.w.

		0	Tutorials p.w.	
Other teaching modes that does not require time-table				
Assessment Module Type	Continuous Assessment (CA)	Method of Student Assessment	CA	100%

Faculty	Education		Home Department			Institute for Post-School Studies	
Module Name	Curriculum Development in TVET Contexts 709		Module Code			TVT709	
Module Type	Elective	NQF Level	8	Year Level	1	NQF Credit	15
Programme in which the module will be offered		PGDip (Technical and Vocational Education Training) (4656)			Total Learning Time	150 hours	
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate understanding of key curriculum concepts and theoretical perspectives in the field of programme development in TVET. • Engage critically with models of curriculum and programme design within global perspectives of vocational education. • Apply curriculum design principles in vocational contexts.						
Main Content	• Curriculum theory perspectives • Models of Curriculum development • Principles of programme design • Comparative global curriculum perspectives						
Pre-requisite	None		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			2	Lectures p.w.

In addition to the contact mode Ikamva will be used as support to interact with content and to communicate with staff and students.							
Assessment Module Type	Continuous Assessment (CA)		Method of Student Assessment			CA	100%

Faculty	Education		Home Department				Institute for Post-School Studies	
Module Name	Masters Thesis TVET 801/802		Module Code				TVT801/802	
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	180	
Programmes in which the module will be offered		MEd (TVET Studies) (4820, 4821)				Total Learning Time	1800 hours	
Duration	Year		Proposed Semester				Both Semesters	
Main Learning Outcomes	On completion of the module students should be able to:							
	• Demonstrate specialist knowledge to enable engagement with current research theories and practices related to TVET • Evaluate current processes of knowledge production in TVET and choose an appropriate process of enquiry for the TVET research project • Use a wide range of specialised skills in identifying, conceptualising, designing and implementing methods of enquiry to address complex and challenging problems within TVET • Make independent ethical decisions which affect knowledge production or complex issues and uphold and contribute to ethical standards in TVET research							

	• Demonstrate the ability to process and manage information in order to comprehensively review leading and current research in TVET • Use academic discourses to communicate and defend the products of research or development in TVET and use specialised skills and discourses appropriate to TVET, to communicate with a range of audiences • Develop learning strategies which sustain independent learning and academic or professional development and that enable him/her to interact effectively within a learning group as a means of enhancing learning • take full responsibility for his or her own work and undertake leadership in the field that ensures good resource management and governance practices				
Main Content	Academic reading, research, and writing				
Pre-requisite	None	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		2	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Final Assessment (FA)	Method of Student Assessment		FA	100%

Faculty	Education		Home Department			Institute for Post-School Studies	
Module Name	Global Learning (AL) 811		Module Code			ACG811	
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	30
Programme in which the module will be offered		MEd (Adult Education and Global Change) (4830)			Total Learning Time		300 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Draw on a wide range of specialized capabilities in addressing complex problems encountered globally and locally • Orientate to intercontinental study through an introduction to the learning devices and technologies which they will use and through preparing their own profiles which will aid them in finding and interacting with students in other countries. • Understand the notion of a capability framework which will frame their study throughout the programme. They will negotiate their learning goals and outcomes for the programme with their local mentor/tutor, monitor their progress in achieving them throughout the programme and renegotiate them as appropriate. • Reflect on their experience throughout the programme and intergrating their diverse experiences and achievements. • Develop study skills to cope with the demands of study in academic cultures and contexts with which they may not be familiar. (This will include discussion of academic standards).						

Main Content	The course comprises three clusters of activities. One is completed at the start of the enrolment, the second during the programme, the final at the end:							
	• The first of these is the development of a personal learning profile in which students review the prior learning in which they have engaged which is in some way connected to the goals of the course and their aspiration for the learning. From this activity students will draw three products: • A profile which they will use to introduce themselves and their learning goals when interacting with staff and other students in other course • A self-assessment of themselves at the start with respect to the capability framework • A learning plan which will guide their choice of activities in the rest of the programme (while students will not have any choice of course in which they are enrolled, they will be able to influence the task in which they are engaged in those course) • The second is a continuing portfolio or record of learning and their reflections on their experience. Students will be encouraged to keep an on-going learning journal across courses. This will not be formally assessed, but will provide the raw material for the final assessed activity. Students will also be encouraged to form a self-chosen learning partnership, if possible, with a student in another country. Students would be expected to correspond by email and share their experiences of the course. This would supplement any short-term partnerships within a particular course • The third of these is development of a capstone statement demonstrating how the student has met the capabilities of the programme. One element of this will be prepared in the form of a brief descriptive summary of a profile of achievements that can be used to show to employers or educational institutions. This will be detailed evidence to support the summary and which will enable the summary to be endorsed.							
	Criteria for satisfactory performance in each of these will be developed and the first and third of these will be formally assessed and feedback given to students.

Assessment Module Type	Continuous Assessment (CA)		Method of Student Assessment			CA	100%

Faculty	Education		Home Department			Institute for Post-School Studies	
Module Name	Global and Local Learning 815		Module Code			ACG815	
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	30
Programme in which the module will be offered		MEd (Adult Education and Global Change) (4830)			Total Learning Time		300 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: - Engage critically with knowledge literacy globally and locally within the context of adult learning and education. - Examine the global and local development context of adult education in a 'middle income country'. - Explore and develop an understanding of transformative adult education in civil society contexts, in order to stimulate dialogue around the meaning of the concept 'global/local learning'. - Critically discuss the relationships between learning, politics and organization in the context of civil society organizations and social movements.						
Main Content	Course Content The course is organised in four steps and unfolds in the following way: Step 1 (Two weeks) - Exploring your understanding of the concept global/local learning based on your experiences within civil society as an educator and learner in a globalizing world. - In this section you will identify, with your tutorial group, a key set of elements which, in your view, best characterizes global/local learning within civil society. - You will begin to question the social purposes of that learning. Step 2 (Three weeks) - Examining neo-liberal and popular development theories and the relationship between these global frameworks and local social transformation, including adult education. - In this section you will discuss the current global/current development context in South Africa and how it may promote or constrain possibilities for transformative adult education. Step 3 (Two weeks) - Probing understandings of 'transformative adult education' by focusing on key readings. Step 4 (Three weeks) - Analysing, from various perspectives, the connections between the learning, political and organizational aspects of adult education/learning in civil society organisations or social movements. - In this section you will identify and investigate some of the learning practices in a civil society organization or social movement of your choice in order to elaborate the concept 'global/local learning'.

Faculty	Education		Home Department			Institute for Post-School Studies	
Module Name	Work and Learning (AL) 821		Module Code			ACG821	
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	15
Programme in which the module will be offered		MEd (Adult Education and Global Change) (4830)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	

Main Learning Outcomes	On completion of this module, students should be able to: • A critical understanding of the issues underpinning the changing imperative on work and learning. • An understanding of the interplay between national traditions and conditions and the global forces on work and learning. • An understanding of visible the effects of work organization and power relationships on learning. • A familiarity with dominant practices of workplace learning. • An understanding of the possibility for the development of alternative worker-centred practices.						
Main Content	Block 1: • The changing nature of work • Departing from a critical analysis of the local labour market we will make visible the shifts in paid and unpaid work, the changing structure of the labour market, and their effects on different groups in society. • We will give the students an overview of how the discourse on work and learning is changing. We will look at how this is portrayed in different national policy debates. • We will further examine the debate on employability skills and explore the link between work organization, labour processes, skills formation and introduce the consequences of economic democracy as an alternative way of approaching the skills debate. Block 2: • Education and training nature of work • We will examine the learning organization to see what practices can be learned from theory and vice versa. • Building on the previous course on learning, the impact of work processes and work organization on workplace learning will be discussed. • We will also address why and why not employers train and review different forms of workplace learning.

Module Name	Understanding Research (AL) 822		Module Code		ACG822		
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	15
Programme in which the module will be offered	MEd (Adult Education and Global Change) (4830)					Total Learning Time	150 hours
Duration	Semester		Proposed Semester		Second Semester		

Main Learning Outcomes	On completion of this module, students should be able to:					
	• Understand the logic of main approaches in research with relevance to the study of adult learning. • Be critical readers of research. • Read research texts in a sophisticated and critical way. • Develop a research literacy, i.e. the skills required to interrogate research texts critically and ability to evaluate them accordingly to their kind. • Develop skills which will be preparatory for further studies and independent project work.					
Main Content	Research Perspectives: • The first part of the course will focus on the characteristics and the logic of different approaches in contemporary research. • Focus is here on texts about research. • However, students are encouraged to read articles that later will be analysed as concrete references to the interpretation of the texts on research. Critically Analyzing Research Texts: • Examples of research, i.e. articles that represent as well as different aspects of adult learning as different research perspectives, are critically analysed and interrogated in texts which the students produce. • A number of general questions will guide the student. • Each text should be sent to a fellow student and they should compare and debate differences and what could be the best ways of answering the questions. Paper on how to Investigate a Problem: • Each student should write a paper (3500 – 5000 words), where they should identify a particular topic from their own context of practice that offers possibilities for enquiry. • The paper should discuss which of the range of research approaches might be taken in exploring the chosen problem. • In the paper there should be presented a discussion about the consequences of the choice of approach in terms of how to conceive of the topic and the framing of the research choices.
