HOW TO USE THIS CALENDAR

The following provides an overview of the structure of this Calendar to guide users.

General Information

This section provides the contact information for the Faculty and University.

Degrees and Diplomas conferred in the Faculty

This section provides information on each of the qualifications conferred in the Faculty.

Explanation of the National Qualifications Framework (NQF)

This is a brief section on the NQF levels and qualification types.

Faculty Board and Faculty Office Staff

This section lists staff members who constitute the Faculty Board and Faculty Office staff members.

Lecturing and Technical Staff

A comprehensive Faculty staff listing per Department, Centre, Institute, School or Unit is provided.

Rules for Programmes

This section provides information on the rules for each academic programme at undergraduate and postgraduate Level offered by the faculty. In each year level, and depending on the programme for which a student is registered, they are required to complete and pass a certain number of credits in order to promote to the next level of study. Promotion requirements per programme can be found in this section. These rules should be read in conjunction with the academic rules (Section 3) of the General Calendar (Part 1). Students should acquaint themselves with the rules in both Calendars and annually check for rule and curriculum changes.

Module Descriptors

This section provides information on all the modules offered by the faculty at undergraduate and postgraduate Level. Module descriptors contain information which relate to the main outcomes and content for each module, including the credit value and NQF Level of the module and pre-requisite and co-requisite modules. It is set forth in alphanumeric order per Undergraduate and Postgraduate offering. An alphabetical listing of all modules can be found in the module descriptor index.

Pre-requisite and Co-requisite Modules

A pre-requisite module is a module that must be passed prior to a student being admitted to a higher module or the following year of study as determined in the faculty yearbook.

A co-requisite module is a module that must be passed prior to or simultaneously with another associated module before credit can be granted for the latter module. Requirements are provided in each module descriptor.

Explanation of Symbols and Remarks on Academic Transcript

This section provides an explanation of the symbols used and the remarks on the academic transcript.

GENERAL INFORMATION

CORRESPONDENCE WITH THE UNIVERSITY

All postal correspondence should be addressed to the relevant person or department at:

The University of the Western Cape
Private Bag X17
Bellville
7535

Should you not know the person or department, please direct all correspondence to the Registrar.

Faculty related enquiries can be directly forwarded to:

The Faculty Manager
Faculty of Economic and Management Sciences
The University of the Western Cape
Private Bag X17
Bellville
7535
Tel: +27 (0)21 959 3164
Email: Undergraduate: emsadmin@uwc.ac.za
Postgraduate: ems-pg@uwc.ac.za

EXPLANATION OF THE NATIONAL QUALIFICATIONS FRAMEWORK

The National Qualifications Framework (NQF) is “a *single integrated system for the classification, registration, publication and articulation of quality-assured national qualifications*” as stipulated in Section 4 of the NQF Act, 2008 (Act No 67 of 2008).

The National Qualifications Framework (NQF) has ten levels of which Higher Education qualifications occupy 6 levels of the NQF, namely levels 5 to 10.

Levels 5 to 7 comprise the undergraduate qualifications (with the exception of the Professional Bachelor's Degree at Level 8) and levels 8 to 10 comprise the postgraduate qualifications.

NQF LEVELS	QUALIFICATION TYPES
5	Higher Certificate
6	Advanced Certificate Diploma
7	Advanced Diploma Bachelor's Degree
8	Honours Degree Postgraduate Diploma Professional Bachelor's Degree
9	Master's Degree Professional Master's Degree
10	Doctoral Degree Professional Doctoral Degree

As cited in the Higher Education Qualifications Sub-Framework (CHE, 2013)

FACULTY BOARD AND FACULTY OFFICE STAFF

Ex Officio Members: The Rector, Vice Rector/s, Registrar and Dean

RULES FOR UNDERGRADUATE PROGRAMMES

BACHELOR OF ADMINISTRATION (1011)

D.1 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Administration Degree – BAdmin**:

D.1.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with 4 subjects at a rating of 4, with a score of no fewer than 30 points calculated according to the University's approved points system, as well as the following specific subject requirements:
- Level 4 (50-59%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or First Additional Language), and
 - Level 3 (40-49%) in Mathematics or Level 5 (60-69%) in Mathematical Literacy
- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.1.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) An applicant shall not be admitted as a student for the BAdmin Degree unless they have obtained the Matriculation Certificate or an Exemption certificate thereof with an aggregate of at least a D (50%).

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.2 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.3 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over three years full-time study.

D.4 CURRICULUM

D.4.1 Level 1

Module Name Compulsory	Module Code	Credits
Academic Literacy for Commerce 131/132	ALC131/132	15
South African Politics and Government 132	GOV132	15
Introduction to Information Systems 131/132	IFS131/132	15

Introduction to Political Studies and International Relations 131	POL131	15
Introduction to Public and Local Government Administration and Management 131	PUA131	15
Quantitative Literacy for Commerce 141	QLC141	15
Introduction to Psychology in the Workplace 131/132	IPS131/132	15
Principles of Business Management 131/132	MAN131/132	15
	Total	120

D.4.2 Level 2

Compulsory

Public Administration

Public Policy and Research 231	PUA231	20
Comparative Public Administration and Governance 232	PUA232	20

Political Studies

Select two of the following three modules:

(at least two will be offered each year)

South Africa in Comparative Political Context 231	POL231	20
International Political Dynamics 232	POL232	20
Political Thought and Africa 235 (not offered in 2026)	POL235	20
	Sub-total	80

Management

Entrepreneurship – Starting a Small Business 201	MAN201	10
Finance for Small and Medium Enterprises 206	MAN206	10
Marketing 231	MAN231	10
Operations Management 233	MAN233	10
	Sub-total	40
	Total	120

D.4.3 Level 3

Compulsory

Public Administration

Public Finance Management 331	PUA331	30
Public Sector Human Resource Management 332	PUA332	30
	Sub-total	60

Electives (select either the Political Studies or Management group)

Political Studies Group

Compulsory

Research Methodology in Political Studies 332	POL332	30
---	--------	----

Electives: Select one module

(at least one module will be offered each year)

Political Theory 331	POL331	30
Africa in International Perspective 334 (not offered in 2026)	POL334	30
	Sub-total	60

Management Group**(select all modules)**

Services Marketing 303	MAN303	15
Strategic Management 304	MAN304	15
Research and Communication for Business 314	MAN314	15
Project Management 325	MAN325	15
	Sub-total	60
	Total	120
FINAL TOTAL		360

D.5 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.6 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.6.1 Level 1

D.6.1.1 A student shall be promoted to Level 2 of study on obtaining at least 90 credits.

D.6.1.2 A student is required to pass at least 30 credits to renew their Level 1 registration.

D.6.1.3 After two years of study a student must have passed all Level 1 modules in order to be promoted to the next level.

D.6.2 Level 2

D.6.2.1 A student shall be promoted to Level 3 of study on obtaining at least 210 credits.

D.6.2.2 After three years of study a student must have passed all Level 2 modules in order to be promoted to the next level.

D.6.3 Level 3

D.6.3.1 A student shall complete the degree once 360 credits are obtained and all the requirements for the degree are met.

D.6.3.2 Final promotions are done according to the rules applicable to the degree at the date of first enrolment, provided that the student continues to promote.

D.6.3.3 Where further admission was refused or when a student's studies have been interrupted the latest rules applicable to the degree shall be applied.

D.7 ADVANCE REGISTRATION

D.7.1 A student who has not promoted to Level 2 of study may be allowed to register for a maximum of 120 credits for the year. These credits include all the outstanding Level 1 modules provided that all the pre-requisites and co-requisites for these modules are met.

- D.7.2** A student who has not promoted to Level 3 of study may be allowed to register for a maximum of 120 credits for the year. These credits include all the outstanding Level 1 modules provided that all the pre-requisites and co-requisites for these modules are met.

D.8 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.9 SPECIAL REQUIREMENTS FOR THE PROGRAMME

- D.9.1** A full-time student shall not be allowed to enrol for more than 135 credits in any year of study;
- D.9.2** The total credit value may only exceed 360 with the permission of Senate;
- D.9.3** A student shall not be allowed in any academic year of study, to enrol for any combination of modules in which there are class and examination timetable clashes.

D.9.4 Major Modules

Unless the Senate decides otherwise:

- D.9.4.1** A student must enrol for a minimum of 60 credits at Level 3 in Public Administration and
- D.9.4.2** A minimum of 60 credits at Level 3 from one of the following:
- Management
 - Political Studies
- D.9.4.3** A student must register Public Administration and Political Studies as majors at Level 2, as well as one other Level 2 elective group.
- D.9.5** A student shall not be allowed to register for a module if this contravenes module pre-requisite rules.
- D.9.6** If a particular module (providing it is not a compulsory module) has less than 15 students registered at the start of the academic year, the Faculty may cancel that module.

BACHELOR OF COMMERCE (1008)

D.10 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Commerce Degree – BCom**:

D.10.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with 4 subjects at a rating of 4, with a score of no fewer than 30 points calculated according to the University's approved points system, as well as the following specific subject requirements:
- Level 4 (50-59%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or First Additional Language), and
 - Level 4 (50-59%) in Mathematics
- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.10.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) An applicant must have obtained a Matriculation Certificate or an Exemption Certificate thereof or an equivalent qualification with an aggregate of at least a C (60%) with the following subject requirements:
- HG (40%, E symbol) Mathematics or
 - SG (60%, C symbol) Mathematics

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.11 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.12 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over three years full-time study.

D.13 CURRICULUM

FINAL TOTAL 360-365

D.14 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1

D.15 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.15.1 Level 1

D.15.1.1 A student shall be promoted to Level 2 of study on obtaining at least 90 credits.

D.15.1.2 After two years of study a student must have passed all Level 1 modules in order to promote to the next level.

D.15.2 Level 2

D.15.2.1 A student shall be promoted to Level 3 of study on obtaining at least 210 credits.

D.15.2.2 After three years of study a student must have passed all Level 2 modules in order to promote to the next level.

D.15.3 Level 3

D.15.3.1 A student shall complete the degree once 360-365 credits are obtained and all the requirements for the degree are met.

D.15.3.2 Final promotions are done according to the rules applicable to the degree at the date of first enrolment, provided that the student continues to promote.

D.15.3.3 Where further admission was refused or when a student's studies have been interrupted the latest rules applicable to the degree shall be applied.

D.16 ADVANCE REGISTRATION

- D.16.1** A student who has not promoted to Level 2 of study may be allowed to register for a maximum of 120 credits for the year. These credits include all outstanding Level 1 modules, provided that all pre-requisites and co-requisites for these modules are met.
- D.16.2** A student who has not promoted to Level 3 of study may be allowed to register for a maximum of 100 credits for the year. These credits include all outstanding Level 1 and Level 2 modules, provided that all pre-requisites and co-requisites for these modules are met.

D.17 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.18 SPECIAL REQUIREMENTS FOR THE PROGRAMME

- D.18.1** A full-time student shall not be allowed to enrol for more than 125 credits in any year of study.
- D.18.2** The total credit value may only exceed 365 with the permission of Senate.
- D.18.3** A student shall not be allowed in any academic year of study, to enrol for any combination of modules in which there are class and examination timetable clashes.
- D.18.4** A student who does not pass Academic Literacy for Commerce (ALC131) and/or Quantitative Skills for Commerce (QSC132) in the first semester must repeat and pass Academic Literacy for Commerce (ALC132) and/or Quantitative Skills for Commerce (QSC132) in the second semester of Level 1 to qualify for re-admission to the degree.
- D.18.5** A student shall not be allowed to enrol for a module if this contravenes module pre-requisite rules.
- D.18.6** If a particular module (providing it is not a compulsory module) has fewer than 15 students registered at the start of the academic year, the Faculty may cancel that module.

BACHELOR OF COMMERCE (Extended Curriculum Programme - 1751)

(not offered to new students from 2025)

D.19 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Commerce Degree – BCom**:

D.19.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with 4 subjects at a rating of 4, with a score of no fewer than 30 points calculated according to the University's approved points system, as well as the following specific subject requirements:
- Level 3 (40-49%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or Additional Language), and
 - Level 2 (30-39%) in Mathematics or Level 6 (70-79%) in Mathematical Literacy
- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.19.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) An applicant must have obtained a Matriculation Certificate or an Exemption Certificate thereof or an equivalent qualification with an aggregate of at least a D (50%) with the following subject requirements:
- HG (40%, E symbol) Mathematics or
 - SG (50%, D symbol) Mathematics

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.20 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.21 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time study.

D.22 CURRICULUM

D.22.1 Level 1

D.22.1.1 A student who has passed Mathematics (Level 3 or higher)

Module Name	Module Code	Credits
Compulsory		
Introduction to SA Accounting 130/131	ACC130/131	15
Academic Literacy for Business 131/132	ALB131/132	15
Academic Literacy for Commerce 131/132	ALC131/132	15
Introduction to the Economy and Business 133/134	IEB133/134	15
Introduction to Information Systems 131/132	IFS131/132	15
Principles of Business Management 131/132	MAN131/132	15
Quantitative Skills for Commerce 131/132	QSC131/132	15
Quantitative Skills Foundation 131/132	QSF131/132	15
Total		120

D.22.1.2 A student who has passed Mathematics (Level 2) or Mathematical Literacy (Level 6 or higher)

Module Name	Module Code	Credits
Compulsory		
Academic Literacy for Business 131/132	ALB131/132	15
Academic Literacy for Commerce 131/132	ALC131/132	15
Introduction to the Economy and Business 133/134	IEB133/134	15
Introduction to Information Systems 131/132	IFS131/132	15
Introduction to Psychology in the Workplace 131/132	IPS131/132	15
Principles of Business Management 131/132	MAN131/132	15
Quantitative Literacy for Commerce 141/142	QLC141/142	15
Quantitative Skills Foundation 131/132	QSF131/132	15
Total		120

D.22.2 Level 2

D.22.2.1 A student who has passed Mathematics (Level 3 or higher)

Module Name	Module Code	Credits
Compulsory		
Analytical and Critical Thinking 231/233	ACF231/233	15
Analytical and Critical Thinking 232/234	ACF232/234	15
Business Statistics 131/132	BUS131/132	15
Introduction to Microeconomics 151	ECO151	10
Introduction to Macroeconomics 152	ECO152	10
Financial Accounting 141/143	FIA141/143	15
Intensive Reading and Writing 231/232	IRF231/232	15
Sub-total		95

Select one of the following modules:

Case Study Analysis 211	CSA211	15
Quantitative Analysis for Commerce 231	QAC231	15
Sub-total		15

Electives (select one module)

Financial Accounting 142	FIA142	10
Introduction to Psychology in the Workplace 131/132	IPS131/132	15
Mathematics 127	MAM127	10
	Sub-total	10-15
	Total	120-125

D.22.2.2 A student who has passed Mathematics (Level 2) or Mathematical Literacy (Level 6 or higher)

Module Name	Module Code	Credits
Compulsory		
Introduction to SA Accounting 131/133	ACC131/133	15
Analytical and Critical Thinking 231/233	ACF231/233	15

FINAL TOTAL 480-485

D.23 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.24 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.24.1 Level 1

A student is required to pass at least 60 credits to renew their Level 1 registration and 90 credits per annum thereafter.

D.24.1.1 After one year of study, a student must have passed Academic Literacy for Business 131/132 (ALB131/132) and Quantitative Literacy for Commerce 141/142 (QLC141/142) or Quantitative Skills Foundation 131/132 (QSF131/132) and Introduction to the Economy and Business 133/134 (IEB133/134) to renew their registration at Level 1.

D.24.1.2 A student shall be promoted to Level 2 of study on obtaining at least 90 credits including Academic Literacy for Business 131/132 (ALB131/132) and Quantitative Literacy for Commerce 141/142 (QLC141/142) or Quantitative Skills Foundation 131/132 (QSF131/132) and Introduction to the Economy and Business 133/134 (IEB133/134).

D.24.2 Level 2

D.24.2.1 After two years of study a student must have passed all Level 1 modules.

D.24.2.2 A student shall be promoted to Level 3 on obtaining at least 210 credits including all ECP modules.

D.24.3 Level 3

D.24.3.1 A student shall be promoted to Level 4 of study on obtaining at least 330 credits.

D.24.3.2 After three years of study a student must have passed all ECP modules.

D.24.4 Level 4

D.24.4.1 After four years of study a student must have passed all Level 2 modules.

D.24.4.2 After five years of study a student must have passed all Level 3 modules.

D.24.4.3 A student shall complete the degree once 480 - 485 credits are obtained and all the requirements for the degree are met.

D.24.4.4 Final promotions are done according to the rules applicable to the degree at the date of first enrolment, provided that the student continues to promote.

D.24.4.5 Where further admission was refused or when a student's studies have been interrupted the latest rules applicable to the degree shall be applied.

D.25 ADVANCE REGISTRATION

D.25.1 A student who has not promoted to Level 2 of study may be allowed to register a maximum of 120 credits for the year. These credits include all outstanding Level 1 modules, provided all pre-requisites and co-requisites for these modules are met.

D.25.2 A student who has not promoted to Level 3 of study may be allowed to register for a maximum of 120 credits for the year. These credits include all outstanding Level 2 modules, provided all pre-requisites and co-requisites for these modules are met.

D.25.3 A student who has not promoted to Level 4 of study may be allowed to register for a maximum of 120 credits for the year. These credits include all the outstanding Level 3 modules, provided all pre-requisites and co-requisites for these modules are met.

D.25 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.26 SPECIAL REQUIREMENTS FOR THE PROGRAMME

D.26.1 A student who has passed the pre-enrolment exam for Quantitative Skills Foundation 131 (QSF131) before the start of the academic year shall enrol for Quantitative Skills for Commerce 131 (QSC131) and Business Statistics 132 (BUS132). No module needs to be taken in place of Quantitative Skills Foundation 131 (QSF131).

D.26.2 A student who does not pass Quantitative Skills Foundation 131 (QSF131) and/or Academic Literacy for Business 131 (ALB131) must register for and pass Quantitative Skills Foundation 132 (QSF132) and Academic Literacy for Business 132 (ALB132) in the second semester to qualify for renewal of registration at Level 1.

D.26.3 A student must have passed all Level 1 modules by the end of Level 2 to qualify for renewal of registration at Level 3.

D.26.4 A student who has passed the pre-enrolment exam for Quantitative Literacy for Commerce 141 (QLC141) before the start of the academic year shall follow the curriculum under D.22.1.1.

D.26.5 A student who has passed Quantitative Literacy for Commerce 141 (QLC141) at first attempt with a final mark of at least 70% need not enrol for Quantitative Skills Foundation 131/132 (QSF131/132) and should register for Introduction to SA Accounting 130 (ACC130) and Quantitative Skills for Commerce 132 (QSC132) in the second semester. If such a student passes Quantitative Skills for Commerce 132 (QSC132) at the first attempt, they shall follow the curriculum under D.22.2.1 in the second year of enrolment.

- D.26.6** A student who has not passed Quantitative Literacy for Commerce 141 (QLC141) and/or Academic Literacy for Business 131 (ALB131) and/or Introduction to the Economy and Business 133 (IEB133) must register for and pass Quantitative Literacy for Commerce 141 (QLC141) and/or Academic Literacy for Business 131 (ALB131) and/or Introduction to the Economy and Business 133 (IEB133) in the second semester to qualify for renewal of registration for the second year of enrolment.
- D.26.7** A student who has not passed Intensive Reading and Writing 231 (IRF231) or Analytical and Critical Thinking 231 (ACF231) and/or Analytical and Critical Thinking 232 (ACF232) must repeat these modules in the following semester.
- D.26.8** A student must have passed all Foundation modules by the end of Level 3 to qualify for renewal of registration.
- D.26.9** A student who transfers from the Bachelor of Commerce in Accounting (ECP) programme to Bachelor of Commerce (ECP) programme, must complete all outstanding modules as required for the Bachelor of Commerce (ECP) programme.
- D.26.10** A student who transfers from the Bachelor of Commerce in Accounting (ECP) programme and has not passed Quantitative Skills for Accounting 131 (QSA131) or Quantitative Skills for Commerce 132 (QSC132) should register for QSF131 in the following year.

BACHELOR OF COMMERCE (Extended Curriculum Programme - 1761)

D.27 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Commerce Degree – BCom**:

D.27.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with 4 subjects at a rating of 4, with a score of no fewer than 30 points calculated according to the University's approved points system, as well as the following specific subject requirements:
- Level 3 (40-49%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or Additional Language), and
 - Level 2 (30-39%) in Mathematics or Level 6 (70-79%) in Mathematical Literacy
- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.27.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) An applicant must have obtained a Matriculation Certificate or an Exemption Certificate thereof or an equivalent qualification with an aggregate of at least a D (50%) with the following subject requirements:
- HG (40%, E symbol) Mathematics or
 - SG (50%, D symbol) Mathematics

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.28 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.29 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time study.

D.30 CURRICULUM

D.30.1 Level 1

D.30.1.1 A student who has passed Mathematics (Level 3 or higher)

Module Name	Module Code	Credits
Compulsory		
Academic Literacy for Commerce 130	ALC130	15
Quantitative Skills for Commerce 141	QSC141	15
Financial Accounting 144	FIA144	15
Introduction to Macroeconomics 102	ECO102	10
Total		55

D.30.1.2 A student who has passed Mathematics (Level 2) or Mathematical Literacy (Level 6 or higher)

Module Name	Module Code	Credits
Compulsory		
Academic Literacy for Commerce 130	ALC130	15
Quantitative Skills for Commerce 142	QSC142	15
Financial Accounting 144	FIA144	15
Introduction to Macroeconomics 102	ECO102	10
Total		55

D.30.2 Level 2

Module Name	Module Code	Credits
Compulsory		
Statistics for Commerce 101	STC101	15
Principles of Business Management 133	MAN133	15
Introduction to Microeconomics 101	ECO101	10
Introduction to Information Systems 131/132	IFS131/132	15
Sub-total		55

Electives (select one module)

Financial Accounting 145	FIA145	10
Introduction to Psychology in the Work Place 151	IPS151	15
Sub-total		10-15
Total		65-70

D.30.3 Level 3

1. Select **ONLY ONE** group of subject combinations
2. Students must take all modules in the selected group of subject combinations

Module Name	Module Code	Credits
Group 1 Economics, Finance, and Financial Accounting		
Microeconomics 231	ECO231	10
Macroeconomics 232	ECO232	10
Intermediate Mathematical Economics 235	ECO235	10
Econometrics 242	ECO242	10

Financial Accounting 241	FIA241	20
Financial Accounting 242	FIA242	20
Principles of Finance 211	FIN211	15
Principles of Investment 212	FIN212	15
Introductory Statistics for Financial Analysis 213	FIN213	10
Total		120

Group 2 Management, Economics, and Industrial Psychology

Microeconomics 231	ECO231	10
Macroeconomics 232	ECO232	10
Intermediate Mathematical Economics 235	ECO235	10
Econometrics 242 (Required for PG studies in Economics)	ECO242	10
Marketing 231	MAN231	10
Operations Management 233	MAN233	10
Entrepreneurship 201	MAN201	10
Finance for Small and Medium Enterprises 206	MAN206	10
Career Psychology 231	IPS231	10
Psychometrics 232	IPS232	10
Human Resource Management 233	IPS233	10
Labour Relations 234	IPS234	10
Total		120

Group 3 Finance, Financial Accounting, and Management

Principles of Finance 211	FIN211	15
Principles of Investment 212	FIN212	15
Introductory Statistics for Financial Analysis 213	FIN213	10
Financial Accounting 241	FIA241	20
Financial Accounting 242	FIA242	20
Marketing 231	MAN231	10
Operations Management 233	MAN233	10
Entrepreneurship 201	MAN201	10
Finance for Small and Medium Enterprises 206	MAN206	10
Total		120

Group 4 Economics, Finance, and Information Systems

Microeconomics 231	ECO231	10
Macroeconomics 232	ECO232	10
Intermediate Mathematical Economics 235	ECO235	10
Econometrics 242 (Required for PG studies in Economics)	ECO242	10
Principles of Finance 211	FIN211	15
Principles of Investment 212	FIN212	15
Introductory Statistics for Financial Analysis 213	FIN213	10
Business Systems Analysis 231	IFS231	20
Systems Delivery Management 233	IFS233	20
Total		120

Group 5 Management, Industrial Psychology, and Information Systems

Marketing 231	MAN231	10
Operations Management 233	MAN233	10
Entrepreneurship 201	MAN201	10
Finance for Small and Medium Enterprises 206	MAN206	10
Career Psychology 231	IPS231	10

Psychometrics 232	IPS232	10
Human Resource Management 233	IPS233	10
Labour Relations 234	IPS234	10
Business Systems Analysis 231	IFS231	20
Systems Delivery Management 233	IFS233	20
	Total	120

Group 6 Financial Accounting, Information Systems, and Management

Financial Accounting 241	FIA241	20
Financial Accounting 242	FIA242	20
Business Systems Analysis 231	IFS231	20
Systems Delivery Management 233	IFS233	20
Marketing 231	MAN231	10

FINAL TOTAL 360-365

D.31 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.32 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.32.1 Level 1

A student is required to pass at least 25 credits to renew their Level 1 registration.

D.32.1.1 A student shall be promoted to Level 2 of study on obtaining at least 40 credits including Academic Literacy for Commerce (ALC130)

D.32.2 Level 2

D.32.2.1 After two years of study a student must have passed all Level 1 modules.

D.32.2.2 A student shall be promoted to Level 3 on obtaining at least 90 credits.

D.32.3 Level 3

D.32.3.1 A student shall be promoted to Level 4 of study on obtaining at least 210 credits.

D.32.3.2 After three years of study a student must have passed all Level 2 modules.

D.32.4 Level 4

D.32.4.1 After five years of study a student must have passed all Level 3 modules.

D.32.4.2 A student shall complete the degree once 360 - 365 credits are obtained and all the requirements for the degree are met.

D.32.4.3 Final promotions are done according to the rules applicable to the degree at the date of first enrolment, provided that the student continues to promote.

D.32.4.4 The latest rules applicable to the degree will be applied (the following year) when further admission was refused or when a student has interrupted their studies.

D.33 ADVANCE REGISTRATION

D.33.1 A student who has not promoted to Level 2, shall not be allowed to register for more than 60 credits for the year, which shall include all the outstanding Level 1 credits, provided all the pre-requisites and co-requisites are met.

D.33.2 A student who has not promoted to Level 3 of study may be allowed to register for a maximum of 120 credits for the year. These credits include all outstanding Level 2 modules, provided all pre-requisites and co-requisites for these modules are met.

D.33.3 A student who has not promoted to Level 4 of study may be allowed to register for a maximum of 120 credits for the year. These credits include all the outstanding Level 3 modules, provided all pre-requisites and co-requisites for these modules are met.

D.34 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (C), Electives (E), Year Module (YR), Semester Module (S), Pre-requisites and Co-requisites, Service Module (SM)

ASSESSMENT TYPE:

Continuous Assessment (CA) or Final Assessment (FA) or Continuous Assessment and Final Assessment (CFA)

BACHELOR OF COMMERCE IN FINANCIAL ACCOUNTING (1175)

D.35 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Commerce in Financial Accounting Degree - BCom (Financial Accounting)**:

D.35.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with 4 subjects at a rating of 4, with a score of no fewer than 30 points calculated according to the University's approved points system, as well as the following specific subject requirements:
- Level 4 (50-59%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or First Additional Language), and
 - Level 4 (50-59%) in Mathematics
- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.35.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) An applicant must have obtained a Matriculation Certificate or an Exemption Certificate thereof or an equivalent qualification with an aggregate of at least a D (50%) with the following subject requirements:
- HG (40%, E symbol) Mathematics or
 - SG (50%, D symbol) Mathematics

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.36 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.37 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over three years full-time study.

D.38 CURRICULUM

D.38.1 Level 1

	FINAL TOTAL	385-390

D.39 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.40 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.40.1 Level 1

D.40.1.1 A student is required to pass at least 40 credits to renew their Level 1 registration.

D.40.1.2 After one year of study, in order to promote to Level 2 or renew their registration at Level 1, a student must have passed:

- Academic Literacy for Commerce (ALC131/132), and
- Financial Accounting (FIA141/143), and
- Mathematics (MAM126)
- Quantitative Skills for Commerce (QSC131/132) or

D.40.1.3 A student shall be promoted to Level 2 of study on obtaining at least 90 credits.

D.40.1.4 After two years of study a student must have passed all Level 1 modules in order to promote.

D.40.2 Level 2

D.40.2.1 A student shall be promoted to Level 3 of study on obtaining at least 210 credits.

D.40.2.2 After three years of study a student must have passed all Level 2 modules in order to promote.

D.40.3 Level 3

D.40.3.1 A student shall complete the degree once 385-390 credits are obtained and all the requirements for the degree are met.

D.40.3.2 Final promotions are done according to the rules applicable to the degree at the date of first enrolment, provided that the student continues to promote.

D.40.3.3 Where further admission was refused or when a student's studies have been interrupted the latest rules applicable to the degree shall be applied.

D.41 ADVANCE REGISTRATION

D.41.1 A student who has not promoted to Level 2 of study may be allowed to register for a maximum of 100 credits for the year. These credits include all the outstanding Level 1 modules, provided that all the pre-requisites and co-requisites for these modules are met.

D.41.2 A student who has not promoted to Level 3 of study may be allowed to register for a maximum of 100 credits for the year. These credits include all the outstanding Level 1 and Level 2 modules, provided that all the pre-requisites and co-requisites for these modules are met.

D.42 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.43 SPECIAL REQUIREMENTS FOR THE PROGRAMME

D.43.1 There are no special requirements for this programme.

BACHELOR OF COMMERCE IN ACCOUNTING (1021)

This degree, combined with the Postgraduate Diploma in Accounting (PGDA) is accredited by the South African Institute of Chartered Accountants (SAICA) to prepare candidates for the Initial Assessment of Competence (IAC).

D.44 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Commerce in Accounting Degree - BCom (Accounting)**:

D.44.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with 4 subjects at a rating of 4, with a score of no fewer than 30 points calculated according to the University's approved points system, as well as the following specific subject requirements:
- Level 4 (50-59%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or First Additional Language), and
 - Level 4 (50-59%) in Mathematics, and
 - Level 5 (60-69%) in Accounting (not required if an applicant has Mathematics at Level 5)
- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.44.2 Minimum admission requirements for applicants who matriculated prior to 2008

- (a) An applicant must have obtained a Matriculation Exemption Certificate with a minimum of a C-Aggregate (60%) in Grade 12 with the following subject requirements:
- HG (50%) Mathematics or SG (70%) Mathematics, and
 - HG (50%) Accounting or SG (70%) Accounting
- OR**
- HG (60%) Mathematics or
 - SG (80%) Mathematics (if Accounting was not taken as a matriculation subject)

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.45 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.46 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over three years full-time study.

D.47 CURRICULUM

D.47.1 Level 1

D.48 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.49 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.49.1 Level 1

After one year of enrolment a student should have passed at least 120 credits including Financial Accounting 132 (FIA132) in order to promote to Level 2.

Financial Accounting Winter School:

A student, who was unsuccessful in Financial Accounting 131 (FIA131), will be granted a second opportunity through the Financial Accounting Winter School, to remain on the BCom (Accounting) programme. If a student fails the Financial Accounting Winter School, the student will be academically excluded from the programme.

Please refer to the Accounting Department for the Winter School guidelines.

D.49.2 Level 2

In order to promote to Level 3 of study and to avoid academic exclusion from the programme, a student must have passed at least 90 credits at Level 2 and ALL Level 1 modules by the end of the second enrolment.

D.49.3 A student shall complete the degree once 430 credits are obtained and all the requirements for the degree are met.

D.49.4 Final promotions are done according to the rules applicable to the degree at the date of first enrolment, provided that the student continues to promote.

D.49.5 Where further admission was refused or when a student's studies have been interrupted the latest rules applicable to the degree shall be applied.

D.49.6 A student who does not meet the requirement as outlined in D.49.1 above, shall be transferred to the Bachelor of Commerce degree in Financial Accounting (Level 2), provided they have passed at least 60 credits and the student attends and passes the FIA142 Summer School.

Please refer to the Accounting Department for Summer School guidelines.

D.50 ADVANCE REGISTRATION

Advance registration is not permitted for this programme.

D.51 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.52 SPECIAL REQUIREMENTS FOR THE PROGRAMME

D.52.1 Please refer to the Department for winter and summer school guidelines.

D.52.2 A student shall be excluded from the programme if they have failed one of the core accounting modules twice except Financial Accounting (FIA131) and Financial Accounting (FIA132) modules. Please refer to the Department of Accounting Winter and Summer School guidelines.

- Auditing 201
- Auditing 322
- Financial Accounting 201
- Financial Accounting 301
- Management Accounting and Financial Management 201
- Management Accounting and Financial Management 301
- Taxation 201
- Taxation 327

D.52.3 In order to continue with the BCom (Accounting) programme a student who has not obtained the required pass mark for Financial Accounting (FIA131) or Financial Accounting (FIA132), shall be eligible to attend the winter/summer school, that may assist the student to remain on the programme or transition to another programme in the department or faculty.

Please refer to the Department for further details regarding the requirements for the Winter/Summer Schools.

D.56 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1

D.57 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.57.1 Level 1

D.57.1.1 After one year of study, a student must have obtained a total of at least 90 credits (30 of which must be degree credits) including:

- Academic Literacy for Business 131 (ALB131), and
- Quantitative Skills for Accounting 131 (QSA131) or Quantitative Skills for Commerce 132 (QSC132), and
- Introduction to SA Accounting 131/130 (ACC131/ACC130).

D.57.1.2 A student who has not passed Introduction to SA Accounting 132 (ACC132) must register for Financial Accounting 141/142 (FIA141 and FIA142), obtain a final mark of at least 60% in FIA142 and attend the Summer School. If the student passes the assessments of the Summer School with a mark of at least 55% or more, the student:

- shall be allowed to continue with the 4 year (Accounting) extended curriculum;
- shall receive 15 credits for Introduction to SA Accounting 132 (ACC132); and
- shall have Financial Accounting 141/142 (FIA141 and FIA142) converted to Financial Accounting 131/132 (FIA131 and FIA132).

D.57.1.3 A student who has passed at least 75 credits in Level 1 including the modules listed in Rule D.57.1.1 shall promote to Level 2 of their studies.

D.57.1.4 A student who has passed at least 75 credits in Level 1 but has not met all the requirements listed in Rule D.57.1.1 shall be transferred to Level 2 of the Bachelor of Commerce Degree Extended Curriculum Programme (1751).

D.57.2 Level 2

- D.57.2.1** After two years of study, a student must have obtained 180 credits in total (90 of which must be degree credits) including all Level 1 modules and Financial Accounting 131 (FIA131 or equivalent) and Financial Accounting 132 (FIA132) with at least a final mark of 55%.
- D.57.2.2** A student who has passed at least 180 credits after two years of study, but has not met the requirements of Rule D.57.2.1 shall be transferred to Level 3 of the Bachelor of Commerce Degree Extended Curriculum Programme Programme (1751).
- D.57.3** In every year thereafter passed a total of at least 80 credits.
- D.57.4** Provided that after five years of study the student has completed the degree.
- D.57.5** Final promotions are done according to the rules applicable to the degree at the date of first enrolment, provided that the student continues to promote.
- D.57.6** Where further admission was refused or when a student's studies have been interrupted the latest rules applicable to the degree shall be applied.

D.58 ADVANCE REGISTRATION

A student who has not promoted to Level 2 of study may be allowed to register for a maximum of 90 credits for the year. These credits include all outstanding Level 1 modules, provided that all pre-requisites and co-requisites for these modules are met. The student would be permitted to register for Level 2 modules for the remaining credits.

D.59 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.60 SPECIAL REQUIREMENTS FOR THE PROGRAMME

- D.60.1** A student shall not be allowed to renew their registration for the following modules if they failed to pass after two attempts:
- Academic Literacy for Commerce 131
 - Accounting Information Applications 239
 - Auditing 201
 - Auditing 322
 - Corporate and Financial Management 221
 - Financial Accounting 131 and 132 (55% - applicable to FIA132 only) (The assessment at the end of the Winter/Summer School, as applicable to the module, is considered the second attempt opportunity. If a student fails to utilise this opportunity they will be considered to have waived the second attempt)
 - Financial Accounting 214 and 225
 - Financial Accounting 324
 - Management Accounting 234
 - Managerial Accounting and Finance 334
 - Taxation 212

- Taxation 228
- Taxation 327

D.60.2 A student who has obtained a final mark of 40-49% after the supplementary assessment for Financial Accounting 131 (FIA131) has the choice to attend either:

- (a) the Financial Accounting 131 (FIA131) Winter School in order to continue with Financial Accounting 132 (FIA132) as part of the Bachelor of Commerce Degree in Accounting;

OR

- (b) the Financial Accounting 141 (FIA141) Winter School in order to continue with Financial Accounting 142 (FIA142) and transition to the Bachelor of Commerce Degree Extended Curriculum Programme (1751).

D.60.3 A student who has obtained a final mark of 30-39% after the supplementary assessment for Financial Accounting 131 shall be eligible to attend the Financial Accounting 141 (FIA141) Winter School in order to continue with Financial Accounting 142 (FIA142) and transition to the Bachelor of Commerce Degree Extended Curriculum Programme (1751).

D.60.4 A student who has obtained a final mark of 50-54% after the supplementary assessment for Financial Accounting 132 (FIA132) shall be eligible to attend the Financial Accounting 132 (FIA132) Summer School in order to continue with Financial Accounting 214 (FIA214) as part of the Bachelor of Commerce Degree in Accounting Extended Curriculum Programme.

D.60.5 A student who has obtained a final mark of 40-49% after the supplementary assessment for Financial Accounting 132 (FIA132) shall be eligible to attend the Financial Accounting 142 (FIA142) Summer School in order to continue with Financial Accounting 241 (FIA241) as part of the Bachelor of Commerce Degree in Accounting Extended Curriculum Programme.

D.60.6 A student who has obtained a final mark of 40-49% after the supplementary assessment for Financial Accounting 214 (FIA214) shall be eligible to attend the Financial Accounting 241 (FIA241) Winter School in order to continue with Financial Accounting 242 (FIA242) and transition to the Bachelor of Commerce Degree Extended Curriculum Programme (1751).

D.60.7 A student who has obtained a final mark of 40-49% after the supplementary assessment for Financial Accounting 225 (FIA225) shall be eligible to attend the Financial Accounting 242 (FIA242) Summer School in order to continue with Financial Accounting 341 (FIA341) and transition to the Bachelor of Commerce Degree Extended Curriculum Programme (1751).

BACHELOR OF COMMERCE IN ACCOUNTING (Extended Curriculum Programme - 1762)

D.61 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Commerce in Accounting Degree - BCom (Accounting)**:

D.61.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with 4 subjects at a rating of 4, with a score of no fewer than 30 points calculated according to the University's approved points system, as well as the following specific subject requirements:
- Level 3 (40-49%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in another Language (Home or First Additional Language), and
 - Level 3 (40-49%) in Mathematics and
 - Level 4 (50-59%) in Accounting (not required if an applicant has Mathematics at Level 4)
- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.61.2 Minimum admission requirements for applicants who matriculated prior to 2008

- (a) An applicant must have obtained a Matriculation Exemption Certificate with a minimum of a D-Aggregate in Grade 12 with the following subject requirements:
- HG (D - Symbol) Mathematics or SG (C - Symbol) Mathematics, and
 - HG (D - Symbol) Accounting or SG (C - Symbol) Accounting

OR

- HG (C - Symbol) Mathematics or
- SG (B - Symbol) Mathematics (if Accounting was not taken as a matriculation subject)

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.62 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.63 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over four years full-time study.

D.64 CURRICULUM

D.64.1 Level 1

Module Name	Module Code	Credits
Compulsory

Managerial Accounting and Finance 301 (not offered in 2026)	MAF301	40
Financial Accounting 301	FIA301	40
Taxation 327	TAX327	30
Commercial Literacy for Accountants 311 (not offered in 2026)	ALF311	15
Total		155
FINAL TOTAL		430

D.65 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.66 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.66.1 Level 1

D.66.1.1 After one year of enrolment, a student must have obtained a total of at least 40 credits including Financial Accounting 133 (FIA133) to promote to Level 2 of the programme.

D.66.1.2 A student who has passed at least 40 credits, but not Financial Accounting 133 (FIA133) in first year of enrolment will be academically excluded from the programme. The student will be afforded an opportunity to attend the Financial Accounting 144 (FIA144) Summer School to be eligible for acceptance onto the Bachelor of Commerce Degree Extended Curriculum Programme (1761).

D.66.2 Level 2

D.66.2.1 After the second year of enrolment, a student must have passed at least 120 credits, including all Level 1 modules and Financial Accounting 134 (FIA134).

D.66.2.2 A student who has passed at least 120 credits after two years of enrolment but has not met the requirements of Rule D.66.2.1 shall be transferred to Level 3 of the Bachelor of Commerce Extended Curriculum Programme (1761).

D.66.3 In every year thereafter passed a total of at least 90 credits.

D.66.4 Provided that after five years of enrolment the student has completed the degree;

D.66.5 Final promotions are done according to the rules applicable to the degree at the date of first enrolment, provided that the student continues to promote.

D.66.6 The latest rules applicable to the degree will be applied (the following year) when further admission was refused or when a student has interrupted their studies.

D.67 ADVANCE REGISTRATION

A student who has not promoted to the second year of study shall not be allowed to register for more than 100 credits for the year, which shall include all first year modules, provided that all pre-requisites and co-requisites are met. The student would be permitted to register for second year modules for the remaining credits.

D.68 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.69 SPECIAL REQUIREMENTS FOR THE PROGRAMME

D.69.1 With the exception of Financial Accounting (FIA133) and Financial Accounting (FIA134), a student shall be excluded from the programme if they have failed any of the core accounting modules twice, namely:

- Auditing 201 (AUD201)
- Auditing 322 (AUD322)
- Financial Accounting 201 (FIA201)
- Financial Accounting 301 (FIA301)
- Management Accounting and Financial Management 201 (MAF201)
- Managerial Accounting and Finance 301 (MAF301)
- Taxation 201 (TAX201)
- Taxation 327 (TAX327)

D.69.2 A student who has not obtained the required pass mark for Financial Accounting (FIA133) or Financial Accounting (FIA134), may be eligible for a Summer School, that may assist the student to transition to another programme in the faculty.

Please refer to the Department for further details regarding the requirements for the Winter/Summer School.

BACHELOR OF COMMERCE IN INFORMATION SYSTEMS (1033)

D.70 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Commerce in Information Systems Degree - BCom (Information Systems)**:

D.70.1 Minimum admission requirements for applicants who matriculated from 2008

- (a) The National Senior Certificate for Bachelor's Degree study with 4 subjects at a rating of 4, with a score of no fewer than 30 points calculated according to the University's approved points system, as well as the following specific subject requirements:
- Level 4 (50-59%) in English (Home or First Additional Language), and
 - Level 3 (40-49%) in Another Language (Home or First Additional Language), and
 - Level 4 (50-59%) in Mathematics

D.70.2 Minimum admission requirements for applicants who matriculated before 2008

- (a) An applicant must have obtained a Matriculation Certificate or an Exemption Certificate thereof or an equivalent qualification with an aggregate of at least a D (50%) with the following subject requirements:
- HG (40%, E symbol) Mathematics or
 - SG (60%, C symbol) Mathematics

OR

- (b) A qualification or level of competence which the Senate of the University has deemed to be equivalent to the requirements stipulated in (a) above.

D.71 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.72 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over three years full-time study.

D.74 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.75 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.75.1 Level 1

D.75.1.1 A student shall be promoted to Level 2 of study on obtaining at least 90 credits.

D.75.1.2 After two years of study a student must have passed all Level 1 modules in order to promote to the next level.

D.75.2 Level 2

D.75.2.1 A student shall be promoted to Level 3 of study on obtaining at least 210 credits.

D.75.2.2 After three years of study a student must have passed all Level 2 modules in order to promote to the next level.

D.75.3 Level 3

D.75.3.1 A student shall complete the degree once 365 credits are obtained and all the requirements for the degree are met.

D.75.3.2 Final promotions are done according to the rules applicable to the degree at the date of first enrolment, provided that the student continues to promote.

D.75.3.3 Where further admission was refused or when a student's studies have been interrupted the latest rules applicable to the degree shall be applied.

D.76 ADVANCE REGISTRATION

D.76.1 A student who has not promoted to Level 2 of study may be allowed to register for a maximum of 120 credits for the year. These credits include all outstanding Level 1 modules, provided that all pre-requisites and co-requisites for these modules are met.

D.76.2 A student who has not promoted to Level 3 of study may be allowed to register for a maximum of 100 credits for the year. These credits include all outstanding Level 1 and Level 2 modules, provided that all pre-requisites and co-requisites for these modules are met.

D.77 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by the Rule A.3.2.3, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.78 SPECIAL REQUIREMENTS FOR THE PROGRAMME

D.78.1 There are no special requirements for this programme.

ADVANCED DIPLOMA IN MANAGEMENT (Full-Time - 1612) / (Part-Time - 1613)

D.100 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Advanced Diploma in Management – AdvDip (Management)**:

- D.100.1** a Bachelor's Degree or a three-year national diploma or equivalent in any field other than Management or Finance, or
- D.100.2** a Diploma in Management with 360 credits or equivalent.
- D.100.3** an applicant may qualify for the programme through RPL. Rule A.2.1.4 applies to these applicants and will be considered on a case-by-case basis for each application.
- D.100.3.1** under University regulation A.2.1.4 applicants who do not have a national diploma or degree are required to demonstrate that they have attained a level of competence sufficient to ensure that they can successfully embark on the programme.
- D.100.4** A foreign applicant, who has completed a three-year qualification at an institution where English was not the medium of instruction will only be considered for admission into the programme if they provide proof of one of the following requirements:
 - D.100.4.1** paper score of 550 or computer score of 213 in Test of English as a Foreign Language (TOEFL)
 - D.100.4.2** band 6 International English Language Testing System (IELTS)
 - D.100.4.3** passed the Cambridge Certificate of Advanced English (CAE)
 - D.100.4.4** passed the Cambridge Certificate of Proficiency in English (CPE)
 - D.100.4.5** passed the Cambridge Business English Certificate 3

D.100.5 APPLICATION PROCESS

- D.100.5.1** An application for admission shall only be considered from an applicant who has:
 - D.100.5.1.1** completed the UWC Online Application and submitted all relevant documentation including academic certificates and transcripts;
 - D.100.5.1.2** furnished proof of previous work experience including referee reports from employers and lecturers;
 - D.100.5.1.3** submitted certified copies of all transcripts (not certificates) from all tertiary educational institutions attended;

D.100.5.1.4 written the online ADM Admissions Evaluation at the stipulated time and place, and

D.100.5.1.5 attended an interview and provided any other information if required to do so.

D.101 SELECTION

D.101.1 Selection into the programme involves the vetting of all applications received for the programme. Vetting will take place after the prescribed closing date for receiving applications.

D.101.1.1 Applications will be ranked according to applicants' academic performance in previous qualifications as well as their performance in the ADM Admission Evaluation.

D.101.1.2 Applicants may be invited to attend an interview for the purposes of providing further details, information, or clarification pertaining to their application.

D.102 DURATION

Unless Senate decides otherwise, the curriculum shall extend over one year full-time or two years part-time and shall consist of modules with a total credit value of at least 120 credits.

D.103 CURRICULUM

D.103.1 A student is required to complete four modules.

Module Name	Module Code	Credits
Compulsory		
Business Management 636	ADM636	30
Business Finance 637	ADM637	30
Operations Management 638	ADM638	30
Entrepreneurship and Enterprise Development 639	ADM639	30
FINAL TOTAL		120

D.103.2 Where a student has passed equivalent courses within a completed qualification at undergraduate level, or graduate level, replacement modules to the equivalent credit value offered by the faculty shall be completed from the electives listed above, subject to the approval of the Head of Division: Management.

D.103.3 A student who:

- has completed module(s) equivalent to the listed modules at HEQF Level 6 or higher within the past 5 years;
- has provided supporting evidence of the completed module outcomes and content, and
- has applied in writing for recognition of the equivalence prior to the first registration and
- whose application has been approved by the Faculty;

- e) shall register for alternate HEQF Level 7 modules selected from the list of replacement modules that are aligned with the programme outcomes as approved by the Faculty.

D.103.4 Where a student has passed equivalent modules within an incomplete qualification at undergraduate level, or graduate level, up to five years prior to application, application for such credits may be considered by the faculty on an individual basis.

D.104 ASSESSMENT

Unless the Senate decides otherwise, the following shall apply:

D.104.1 to be admitted to the examination for a module, a student must obtain a coursework mark of at least 40% for the applicable module.

D.104.2 the final mark for each module is composed of either:

- (i) 50% coursework and 50% examination; or
- (ii) 60% coursework and 40% examination.

D.104.3 To pass a module a student must obtain a final mark of at least 50% and a sub-minimum of 40% in the examination for the module; provided that Senate, on recommendation of the head of the Management division, accepts a sub-minimum of 45% as a final mark in two modules with a total credit value of 30 credits.

D.104.4 A student who has one module outstanding for the completion of the ADM shall be awarded a Senate Discretionary Assessment (SDA) if they meet the requirements of A.5.2.8. (General University Calendar).

D.104.5 **Note:** This rule shall not apply to electives as the student may complete any elective in one semester to complete the qualification.

D.104.6 Unless otherwise stated the General Assessment Rules for First Degree Studies (A.5.2) shall apply.

D.105 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as otherwise provided for in the Faculty rules:

D.105.1 Full-time

Unless Senate decides otherwise, a full-time student shall complete the programme in one year. A student who has passed at least 90 credits may proceed with their studies to complete the programme in the following year.

D.105.2 Part-time

Unless Senate decides otherwise, a part-time student shall complete the programme in two consecutive years and accumulate at least 60 credits per annum to proceed with his/her studies

D.106 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3 as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (**C**), Electives (**E**), Year Module (**YR**), Semester Module (**S**), Pre-requisites and Co-requisites, Service Module (**SM**)

ASSESSMENT TYPE:

Continuous Assessment (**CA**) or Final Assessment (**FA**) or Continuous Assessment and Final Assessment (**CFA**)

Module Code	Module Name	Compulsory/ Elective	Level	Credits	NQF Level	Duration	Pre-Requisite	Co-Requisite	Assessment Type

ADVANCED DIPLOMA IN FINANCE (1610)

(not offered in 2026)

D.107 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Advanced Diploma in Finance – AdvDip (Finance)**:

- D.107.1** a Bachelor's Degree or a three-year national diploma or equivalent in any field other than Finance, or
- D.107.2** a Diploma in Management or Finance with 360 credits or equivalent, or
- D.107.3** an applicant may qualify for the programme through RPL. Rule A.2.1.4 applies to these applicants and will be considered on a case-by-case basis for each application:
 - D.107.3.1** under University regulation A.2.1.4 applicants who do not have a national diploma or degree are required to demonstrate that they have attained a level of competence sufficient to ensure that they can successfully embark on the programme.
- D.107.4** A foreign applicant, who has completed a three-year qualification at an institution where English was not the medium of instruction will only be considered for admission into the programme if they provide proof of one of the following requirements:
 - D.107.4.1** paper score of 550 or computer score of 213 in Test of English as a Foreign Language (TOEFL)
 - D.107.4.2** band 6 International English Language Testing System (IELTS)
 - D.107.4.3** passed the Cambridge Certificate of Advanced English (CAE)
 - D.107.4.4** passed the Cambridge Certificate of Proficiency in English (CPE)
 - D.107.4.5** passed the Cambridge Business English Certificate 3

D.107.5 APPLICATION PROCESS

- D.107.5.1** An application for admission shall only be considered from an applicant who has:
 - D.107.5.1.1** completed the UWC Online Application and submitted all relevant documentation including academic certificates and transcripts;
 - D.107.5.1.2** furnished proof of previous work experience including referee reports from employers
 - D.107.5.1.3** written the online ADM Admissions Evaluation at the stipulated time and place, and
 - D.107.5.1.4** attended an interview and provided any other information if required to do so.

D.108 SELECTION

D.108.1 Selection into the programme involves the vetting of all applications received for the programme. Vetting will take place after the prescribed closing date for receiving applications. Application vetting:

D.108.1.1 Applications will be ranked according to applicants' academic performance in previous qualifications as well as their performance in the ADM Admissions Evaluation

D.108.1.2 Applicants may be invited to attend an interview for the purposes of providing further details, information, or clarification pertaining to their application.

D.109 DURATION

Unless Senate decides otherwise, the curriculum shall extend over one year full-time or two years part-time and shall consist of modules with a total credit value of at least 120 credits.

D.110 CURRICULUM

D.110.1 Students are required to complete eight compulsory modules.

Module Name	Module Code	Credits
Compulsory		
Financial Accounting 681	ACC681	15
Quantitative Analysis 616	ADM616	15
Economics for Managers 617	ADM617	15
Principles of Management and Business 618	ADM618	15
Principles of Management Accounting 619	ADM619	15

Business Information Systems 647	ADM647	15
Finance Research and Communication 611	FRC611	15

Students who have completed equivalents to the compulsory modules at HEQC Level 6 or higher may complete up to 3 of the following with the written permission of the Head of Division: Finance

Investment Management 605	ADM605	15
Financial and Analytical Techniques 610	ADM610	15
Strategic Management 629	ADM629	15
Investment Analysis 680	MAN680	15

FINAL TOTAL 120

D.110.2 Where a student has passed equivalent courses within a completed qualification at undergraduate level, or graduate level, replacement modules to the equivalent credit value offered by the faculty shall be completed from the electives listed above, subject to the approval of the Head of Division: Management.

- D.110.3** Where a student has passed equivalent modules within an incomplete qualification at undergraduate level, or graduate level, up to five years prior to application, application for such credits may be considered by the faculty on an individual basis.

D.111 ASSESSMENT

Unless the Senate decides otherwise, the following shall apply:

- D.111.1** to be admitted to the examination for a module, a student must obtain a coursework mark of at least 40% for the applicable module.
- D.111.2** the final mark for each module is composed of either
- (i) 50% coursework and 50% examination; or
 - (ii) 60% coursework and 40% examination.
- D.111.3** To pass a module a student must obtain a final mark of at least 50% and a sub-minimum of 40% in the examination for the module; provided that Senate, on recommendation of the head of department, accepts a sub-minimum of 45% as a final mark in two modules with a total credit value of 30 credits.
- D.111.4** A student who has one module outstanding for the completion of the ADM shall be awarded a Senate Discretionary Assessment (SDA) if they meet the requirements of Rule A.5.2.8. (General University Calendar).
- D.111.5** Unless otherwise stated the General Assessment Rules for First Degree Studies Rule A.5.2 shall apply.

D.112 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as otherwise provided for in the Faculty rules:

D.112.1 Full-time

Unless Senate decides otherwise, a full-time student shall complete the programme in one year. A student who has passed at least 90 credits may proceed with their studies to complete the programme in the following year.

D.112.2 Part-time

Unless Senate decides otherwise, a part-time student shall complete the programme in two consecutive years and accumulate at least 45 credits per annum to proceed with his or her studies. A student who has accumulated 90 credits within two years may be allowed to proceed to the following year to complete the programme.

D.113 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.3.2.3 as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

RULES FOR POSTGRADUATE PROGRAMMES

POSTGRADUATE DIPLOMA IN FINANCE (1624)

D.114 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Postgraduate Diploma in Finance – PGDip (Finance)**:

- D.114.1** a Bachelor's degree with at least 30 credits in Finance or a cognate subject at the final year level, or
- D.114.2** the Advanced Diploma in Finance or equivalent qualifications (Financial Accounting, Economics, Statistics) at HEQF Level 7 specialising in Finance, or
- D.114.3** the Advanced Diploma in Financial Planning, Financial Accounting, Economics, Statistics or equivalent. Such a qualification should include the following modules Corporate Finance, International Finance, Investment Analysis, Financial and Analytical Techniques or equivalent, or
- D.114.4** a student in possession of the Advanced Diploma in Financial Planning, Financial Accounting, Economics, Statistics or equivalent may only be admitted to the Postgraduate Diploma in Finance if they have passed Corporate Finance and Investments with at least 50% Continuous Assessment Mark and 50% Examination Mark or equivalent Level 7 qualification.

D.115 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.116 DURATION

Unless Senate decides otherwise the curriculum shall extend over one year full-time or two years part-time.

D.117 CURRICULUM

- D.117.1** A student is required to complete six (6) compulsory modules.
- D.117.2** A student must complete all compulsory modules listed below unless they :
 - (a) has completed equivalent modules within the past five years as determined by the faculty;
 - (b) has provided supporting evidence of the completed module outcomes and content;
 - (c) has applied in writing for recognition of equivalence prior to the first registration, and their application has been approved by the faculty, and

- (d) shall register for alternate HEQF Level 8 modules in the listed elective modules offered.

Module Name	Module Code	Credits
Compulsory		
Applied Financial Management 711	FIN711	30
Currency Risk Management 712	FIN712	15
Alternative Investments 713	FIN713	15
Investment Management 714	FIN714	30
Financial Technology 715	FIN715	15
Financial Statement Analysis 712	FSA712	15
	FINAL TOTAL	120

D.118 ASSESSMENT

Unless the Senate decides otherwise, the following shall apply:

- D.118.1** to be admitted to the examination for a module, a student must obtain a coursework mark of at least 50% for the applicable module, or must comply with Rule A.5.3.5(c).
- D.118.2** the final mark for each module is composed of either:
- (i) 50% coursework and 50% examination; or
 - (ii) 60% coursework and 40% examination.
- D.118.3** to pass a module a student must obtain a final mark of at least 50% and a sub-minimum of 50% in the examination or final assessment task, provided that Senate, on recommendation of the faculty may accept a sub-minimum of 40% in the examination or final assessment for no more than two modules with a total credit value of 30 credits, if the final mark is no less than 50%.

D.119 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

- D.119.1** A full-time student shall complete the programme in one year. A student who has passed at least 90 credits may proceed with their studies to complete the programme in the following year.
- D.119.2** A part-time student shall complete the programme in two consecutive years and accumulate at least 45 credits per annum to proceed with their studies. A student who has accumulated at least 90 credits within two years may be allowed to proceed to the following year to complete the programme.

D.120 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4 as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (C), Electives (E), Year Module (YR), Semester Module (S), Pre-requisites and Co-requisites, Service Module (SM)

POSTGRADUATE DIPLOMA IN ACCOUNTING (1507)

NB: This Diploma combined with the Bachelor of Commerce in Accounting Degree is accredited by the South African Institute of Chartered Accountants (SAICA) to prepare candidates for the Initial Assessment of Competence (IAC).

D.129 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Postgraduate Diploma in Accounting - PGDip (Accounting)**:

D.129.1 a Bachelor of Commerce (Accounting) Degree or equivalent (as approved by the Department of Accounting) and

D.129.2 passed all the Level 3 modules of the Bachelor of Commerce (Accounting) Degree (or equivalent) in one year with a sub-minimum of 55% for each module and an overall percentage of 57.5%.

D.130 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.131 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over one year full-time.

D.132 CURRICULUM

Module Name	Module Code	Credits
Compulsory		
Advanced Taxation 706	ACC706	30
Advanced Financial Accounting 721	ACC721	50
Advanced Auditing 741	ACC741	30
Advanced Management Accounting and Financial Management 751	ACC751	30
	FINAL TOTAL	140

D.133 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.134 PROMOTION RULES

A student shall complete the programme in one year. A student who has passed at least 60 credits may proceed with their studies to complete the programme in the following year.

Requirements to complete the programme:

D.134.1 In order to gain admission to write the examination for a module, a student must obtain a minimum continuous assessment mark of 40% for that module.

D.134.2 A student is awarded the postgraduate diploma if they obtain a final mark of at least 50% and a sub-minimum of at least 45% in the examination for each module.

D.134.3 The final mark for each module is either:

D.134.3.1 40% continuous assessment mark plus 60% examination mark.

OR

D.134.3.2 The examination mark.

D.134.4 A student shall gain access to a supplementary examination if they have passed three of the four compulsory modules.

D.135 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.136 SPECIAL REQUIREMENTS FOR THE PROGRAMME

There are no special requirements for this programme.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (**C**), Electives (**E**), Year Module (**YR**), Semester Module (**S**), Pre-requisites and Co-requisites, Service Module (**SM**)

ASSESSMENT TYPE:

Continuous Assessment (**CA**) or Final Assessment (**FA**) or Continuous Assessment and Final Assessment (**CFA**)

POSTGRADUATE DIPLOMA IN BUSINESS ADMINISTRATION (1626)

D.137 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for for the **Postgraduate Diploma in Business Administration – PGDip (Business Administration)**:

- D.137.1** a Bachelor's degree in Management or Finance or a cognate subject or equivalent qualification;
- D.137.2** the Advanced Diploma in Management, or Advanced Diploma in Management (Finance) or Advanced Diploma in Management (Financial Planning) or an equivalent HEQF level 7 qualification plus at least three years appropriate work experience;
- D.137.3** students may qualify for the programme through RPL. Rule A.2.1.4 applies to these applicants and will be considered on a case-by-case basis for each application.

D.138 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.139 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over one year full-time or two years part-time.

D.140 CURRICULUM

- D.140.1** The programme consists of four compulsory modules.
- D.140.2** A student who:
 - D.140.2.1** has completed module(s) equivalent to the listed modules at HEQF Level 7 or higher within the past 5 years;
 - D.140.2.2** has provided supporting evidence of the completed module outcomes and content;
 - D.140.2.3** has applied in writing for recognition of equivalence prior to the first registration, and whose application has been approved by the faculty.

Module Name	Module Code	Credits
Compulsory		
Strategic Finance 711	PGB711	30
Management Theory 712	PGB712	30
Business Informatics 713	PGB713	30
Business Analytics 714	PGB714	30
	FINAL TOTAL	120

D.141 ASSESSMENT

Unless Senate decides otherwise, the following shall apply:

- D.141.1** To be admitted to the examination for a module, a student must obtain a coursework mark of at least 50% for the applicable module, or must comply with Rule A.5.3.5 (c).
- D.141.2** The final mark for each module is composed of either:
- (i) 50% coursework and 50% examination; or
 - (ii) 60% coursework and 40% examination.
- D.141.3** To pass a module a student must obtain a final mark of at least 50% and a sub-minimum of 50% in the examination or final assessment task, provided that Senate, on recommendation of the faculty may accept a sub-minimum of 40% in the examination or final assessment for no more than two modules with a total credit value of 30 credits, if the final mark is no less than 50%.

D.142 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

- D.142.1** A full-time student shall complete the programme in one year. A student who has passed at least 90 credits may proceed with their studies to complete the programme in the following year.
- D.142.2** A part-time student shall complete the programme in two consecutive years and accumulate at least 30 credits per annum to proceed with their studies. A student who has accumulated at least 90 credits within two years may be allowed to proceed to the following year to complete the programme.

D.143 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.144 SPECIAL REQUIREMENTS FOR THE PROGRAMME

There are no special requirements for this programme.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (C), Electives (E), Year Module (YR), Semester Module (S), Pre-requisites and Co-requisites, Service Module (SM)

ASSESSMENT TYPE:

POSTGRADUATE DIPLOMA IN COMPUTER SOFTWARE AND MEDIA APPLICATION (1627)

D.145 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Postgraduate Diploma in Computer Software and Media Application - PGDip (Computer Software and Media Application)**:

D.145.1. Admission into the Data Analytics and Business Intelligence Stream

- a) A Bachelor's degree with an average of 55% for exit level modules in the areas of Information Systems, Business Management, Computer Science or Statistics.

OR

- b) An applicant without the required exit modules should at least in the Bachelor's degree have passed Statistics or equivalent.

OR

- c) A Bachelor's degree (or equivalent) with two years relevant working experience.
- d) An applicant who does not have a South African qualification are required to send their results/qualifications to the South African Qualifications Authority (SAQA) in order to have them evaluated and equated to a South African qualification.

D.145.2. Admission into the E-Logistics Stream

- a) A Bachelor's degree with an average of 60% for exit level modules in the areas of Information Systems, Business Management, Computer Science or Statistics.

OR

- b) A Bachelor's degree (or equivalent) with two years relevant working experience.
- c) An applicant who does not have a South African qualification are required to send their results/qualifications to the South African Qualifications Authority (SAQA) in order to have them evaluated and equated to a South African qualification.

D.146 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.147 DURATION

Unless Senate decides otherwise the curriculum shall extend over one year full-time or two years part-time.

D.148 CURRICULUM

BACHELOR OF COMMERCE (HONOURS) (1701)

D.152 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Bachelor of Commerce Honours Degree – BCom Hons (as indicated in D.155 below)**:

D.152.1 a Bachelor of Commerce Degree (or equivalent Commerce Degree) with 60% or higher in the exit level modules in the discipline of choice.

D.152.2 Admission into Industrial Psychology

D.152.2.1 An applicant requires a Bachelor's Degree with Industrial Psychology/Human Resources Management as a major (or equivalent qualification) for admission to the Honours programme in Industrial Psychology.

D.152.2.2 An applicant should have obtained an average of at least 60% in the exit level modules in Industrial Psychology/ Human Resource Management with a sub-minimum of 55% per module. The Department of Industrial Psychology reserves the right to limit the annual intake of students for the Honours programme based on a consideration of both the internal capacity of the Department and/or academic performance of applicants.

D.152.2.3 An applicant who has not completed the required undergraduate and/or equivalent modules in Industrial Psychology shall not be allowed to register for this programme.

D.152.2.4 An applicant from another university, Faculty and /or Department will have to meet the requirements as stipulated by the Department. Such requirements shall include the completion of a bridging programme (i.e. relevant modules to be prescribed by the Department) and the student obtaining a pass mark of at least 60% per module. Each case shall be assessed in terms of the individual merit and at the discretion of the Department.

D.152.2.5 An applicant who chooses Industrial Psychology and who has completed a Bachelor of Commerce Degree but not in Industrial Psychology may apply to complete the outstanding modules as an occasional commerce student. However, the completion of prescribed occasional commerce modules in Industrial Psychology does not guarantee the applicant an automatic entry into the Honours programme. An applicant who has completed the prescribed occasional commerce modules will still be subjected to a formal selection process. The Department of Industrial Psychology reserves the right to limit the intake of occasional commerce students based on a consideration of both the internal capacity of the Department and/or academic performance of the applicant.

D.153 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.154 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over one year full-time or two years part-time.

D.155 CURRICULUM

D.155.1 Industrial Psychology

Module Name	Module Code	Credits
Compulsory		
Organisational Psychology 701	BPS701	20
Research Methodology 702	BPS702	30
Psychometrics 704	BPS704	20
Advanced Human Resource Management 705	BPS705	20

Occupational and Career Psychology 709	BPS709	15
	FINAL TOTAL	120

D.156 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.157 PROMOTION RULES

Unless Senate decides otherwise and subject to Rule A.3.2.3 or as provided for in the Faculty rules:

D.157.1 Full-time

Unless Senate decides otherwise, a full-time student shall complete the programme in one year. A student who has passed at least 60 credits may proceed with their studies to complete the programme in the following year.

D.157.2 Part-time

Unless Senate decides otherwise, a part-time student shall complete the programme in two consecutive years and accumulate at least 45 credits per annum to proceed with their studies. A student who has accumulated 90 credits within two years may be allowed to proceed to complete the programme in the following year.

D.158 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.159 SPECIAL REQUIREMENTS FOR THE PROGRAMME

There are no special requirements for this programme.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (C), Electives (E), Year Module (YR), Semester Module (S), Pre-requisites and Co-requisites, Service Module (SM)

MASTER OF ADMINISTRATION (Structured - 1817)

(not offered to new students from 2026)

D.223 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Master of Administration Degree – MAdmin (as indicated in D.226 below)**:

D.223.1 Admission to a Master's Degree is at the discretion of the department, subject to the general rules of the University. An applicant who has not taken a research methodology module would be required to complete that module.

D.223.2 Admission Requirements for the MAdmin Industrial Psychology

D.223.2.1 An applicant should have obtained an average of at least 65% in a recognised Honours Degree in Industrial Psychology in order to be eligible for selection into the Master's Programme.

D.223.2.2 An applicant from another university, faculty and/or department who has completed an Honours Degree in Industrial Psychology/ Organisational Psychology/ Human Resource Management and wishes to pursue a MAdmin in Industrial Psychology would have to meet the requirements as stipulated by the Department.

D.223.2.3 An applicant who has not completed and passed a chosen elective at Honours level, shall not be allowed to register for that elective in the Master's programme.

D.224 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty.

D.225 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over three years full-time or part-time.

D.226 CURRICULUM

The programme comprises of the following specialisation areas, namely Political Studies, Economics and Industrial Psychology.

D.226.1 Political Studies (not offered in 2026)

Module Name	Module Code	Credits
Compulsory		
Political Studies Mini-Thesis 803 (1 st Enrolment)	POL803	60
Political Studies Mini-Thesis 804 (2 nd Enrolment)	POL804	
Advanced Research Methodology 811	POL811	30

***Electives (select three modules)**

International Political Economy 814	POL814	30
Political Philosophy 816	POL816	30
Political Development in South Africa Politics 819	POL819	30
Institutions and Policy Making in Regional Community 823	POL823	30
Contemporary Democratic Theory and Practice 822	POL822	30
Security Studies 831	POL831	30
Politics: Gender and Sexuality 843	POL843	30
The Theory of Work-Integrated Political 844	POL844	30
The Practice of Work-Integrated Political Studies 845	POL845	30

FINAL TOTAL 180

*Not all electives will be offered

D.226.2 Economics (not offered in 2026)**Module Name**

Module Code Credits

Compulsory

Economics Mini-Thesis 803 (1 st Enrolment)	ECO803	
Economics Mini-Thesis 804 (2 nd Enrolment)	ECO804	60
Applied Research Workshop 824	ECO824	15
Econometrics 830	ECO830	15
Advanced Microeconomics 831	ECO831	15
Advanced Macroeconomics 832	ECO832	15

Advanced International Financial Economics 839	ECO839	15
Labour Economics 840	ECO840	15
Financial Economics 841	ECO841	15

FINAL TOTAL 180

*A minimum of four electives are offered each year

D.226.3 Industrial Psychology (not offered in 2026)**Module Name**

Module Code Credits

Compulsory

Industrial Psychology Master's Mini-Thesis 803 (1 st Enrolment)	IPS803	
Industrial Psychology Master's Mini-Thesis 804 (2 nd Enrolment)	IPS804	60
Organisational Development: Diversity and Change Management 811	BPS811	20
Research Methodology 812	BPS812	20
Counselling 813	BPS813	20
Training Management 818	BPS818	20
Assessments in the Workplace 820	BPS820	40

FINAL TOTAL 180

D.227 ASSESSMENT

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.228 PROGRESSION RULES

Registration for the following year of study shall be recommended by the supervisor if in their opinion adequate progress has been made during the current year.

D.229 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.230 SPECIAL REQUIREMENTS FOR THE PROGRAMME

D.230.1 Subject to the written approval of the Head of Department, the electives may be selected from Masters modules offered elsewhere in the University - e.g. in School of Government, School of Business and Finance, Industrial Psychology, Women and Gender Studies, Public Health, Natural Sciences, Education, etc., provided the modules were not previously taken at Honours level. Students may have to meet additional prerequisites of those departments. By arrangement modules can be selected at other local institutions, provided you comply with their requirements (e.g. additional tuition fees).

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.272 PROGRESSION RULES

D.272.1 A full-time student should pass a minimum of 80 credits to proceed to the next year.

D.272.2 Registration for the following year shall be recommended by the supervisor if in their opinion adequate progress has been made during the current year.

D.273 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.274 SPECIAL REQUIREMENTS FOR THE PROGRAMME

A thesis on an approved topic must be selected in conjunction with the department.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (**C**), Electives (**E**), Year Module (**YR**), Semester Module (**S**), Pre requisites and Co-requisites, Service Module (**SM**)

ASSESSMENT TYPE:

Continuous Assessment (**CA**) or Final Assessment (**FA**) or Continuous Assessment and Final Assessment (**CFA**)

Module Code	Module Name	Compulsory/ Elective	Credits	NQF Level	Enrolment Year	Duration	Assessment Type

MASTER OF PUBLIC ADMINISTRATION (Structured - 1851)

D.275 ADMISSION REQUIREMENTS

Unless Senate decides otherwise, a student shall be required to meet one of the following criteria to be enrolled for the **Master of Public Administration Degree – MPA**:

- D.275.1** An Honours Degree, BTech or equivalent in public administration or a related field;
- D.275.2** Advanced Bachelor's Degree (e.g. LLB or BEd) or equivalent, plus demonstration of competence to proceed at the Master's level in the fields of governance and public administration;
- D.275.3** Four-year Bachelor's Degree or equivalent, plus demonstration of competence to proceed at the Master's level in the fields of governance and public administration;
- D.275.4** A Bachelor's Degree, plus postgraduate diploma in public administration or a related field.
- D.275.5** Three-year Bachelor's Degree in public administration or a related field, plus appropriate practical work experience, and demonstration of competence to proceed at the Master's level.
- D.275.6** A Postgraduate Diploma in public administration or a related field, plus appropriate practical work experience, as well as demonstration of competence to proceed at the Master's level, where the postgraduate diploma holder has no previous degree.
- D.275.7** A minimum of 60% average required for admission.
- D.275.8** Where practical experience is part of the admission requirements, the School will normally require evidence of a minimum of three appropriate experience. In assessing the relevance of such experience for the purpose of admission, however, the School will attach greater weight to the competencies gained from such experience than to the length of experience per se.
- D.275.9** Subject to approval by Senate, upon the recommendation of the School and Faculty, an applicant may also be admitted into the MPA, provided that they are able to demonstrate that they have in any other manner attained a level of competence sufficient to enable them to embark successfully upon the programme, in line with the University regulation A.2.1.4 and the University's competency guidelines.
- D.275.10** An applicant applying under the requirements in D.275.5 must provide three references, two of which must be of an academic nature. In the case of an applicant who must demonstrate evidence of practical experience, the third reference must be from a previous employer. The references for applicants applying under Rule A.2.1.4 should demonstrate the applicant's competence for postgraduate study.
- D.275.11** In the case of an applicant who has attained an Upper Second or equivalent in a previous Honours Degree or equivalent in public administration or a related field, selection will be on the basis of the application form, transcripts, references and statement. An applicant may also be required to attend an interview. All other

applicants will be required to attend an interview, as well as to furnish a portfolio of evidence demonstrating their competence to proceed at the Master's level in governance and public administration.

- D.275.12** An applicant who falls within regulation A.2.1.4 will be required to attend an interview and to furnish proof of the required number of years work experience. In addition, they shall be required to submit and defend an essay or practical assignment on a topic set by the school. Where appropriate, they shall also be required to submit a portfolio of previous work done.

D.276 DURATION

Unless Senate decides otherwise the duration of the programme shall extend over three years full-time and part-time.

	FINAL TOTAL	180

D.329 ASSESSMENT RULES

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.330 PROMOTION RULES

D.330.1 Level 1

A student must have obtained a total of at least 60 credits, including the modules Research Methods (POL811), and The Theory of Work-Integrated Political Studies (POL844) to progress to Level 2.

D.330.2 Level 2

A student must have obtained a total of at least 120 credits, including the module The Practice of Work-Integrated Political Studies 845 (POL845) and one or more elective to progress to Level 3.

D.330.3 Level 3

A student shall complete the degree once 180 credits are obtaining, including the mini-thesis (POL804), to complete the degree.

D.331 PROGRESSION RULES

Registration for the following year of study shall be recommended by the supervisor if in their opinion adequate progress has been made during the current year.

D.332 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.333 SPECIAL REQUIREMENTS FOR THE PROGRAMME

A student may take an equivalent of one Masters module, not exceeding 30 credits from cognate disciplines that fits the theme of placement, provided that they have permission from both HoDs.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (C), Electives (E), Year Module (YR), Semester Module (S), Pre-requisites and Co-requisites, Service Module (SM)

ASSESSMENT TYPE:

Continuous Assessment (CA) or Final Assessment (FA) or Continuous Assessment and Final Assessment (CFA)

Module Code	Module Name	Compulsory/ Elective	Credits	NQF Level	Enrolment Year	Duration	Pre-Requisite	Co-Requisite	Assessment Type
POL803	Political Studies Mini-Thesis 803	C	60	9	1	YR	None	None	FA

MASTER OF ARTS (Structured - 1858)

D.334 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Master of Arts Degree in Political Studies – MA (Political Studies)**:

D.334.1 The admission shall be governed by the Rule A.2.4, as stipulated in the University Calendar: General Information Part 1.

D.334.2 An Honours degree or equivalent with an average of at least 65% in the final mark in Political Studies or a cognate discipline, such as History or Public Administration.

D.335 SELECTION

Final selection shall be based on an applicant meeting the minimum criteria as well as supervision capacity in the department and the number of available places as determined by the Faculty.

D.336 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over two years full-time or three year part-time.

D.337 CURRICULUM

Module Name	Module Code	Credits
Compulsory		
Political Studies Mini-Thesis 803 (1 st Enrolment)	POL803	
Political Studies Mini -Thesis 804 (2 nd Enrolment)	POL804	60
Advanced Research Methodology 811	POL811	30
*Electives (select three modules)		
Comparative Area Politics 813 (not offered in 2026)	POL813	30
International Political Economy 814 (not offered in 2026)	POL814	30
Political Philosophy 816 (not offered in 2026)	POL816	30
Politics of Mass Communication 817	POL817	30
Political Development in South African Politics 819	POL819	30
Contemporary Democratic Theory and Practice 822 (not offered in 2026)	POL822	30
Institutions and Policy Making in Regional Community 823	POL823	30
Security Studies 831	POL831	30
International Relations Theory 840 (not offered in 2026)	POL840	30
Politics: Gender and Sexuality 843 (not offered in 2026)	POL843	30
An elective from a cognate discipline that fits with the Political Studies curriculum		30
FINAL TOTAL		180

*Not all electives will be offered

D.338 ASSESSMENT RULES

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.339 PROMOTION RULES

A full-time student should pass a minimum of 90 credits to proceed to the second year of registration.

D.340 PROGRESSION RULES

Registration for the following year of study shall be recommended by the supervisor if in their opinion adequate progress has been made during the current year.

D.341 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.342 SPECIAL REQUIREMENTS FOR THE PROGRAMME

A thesis on an approved topic must be selected in conjunction with the department.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (**C**), Electives (**E**), Year Module (**YR**), Semester Module (**S**), Pre-requisites and Co-requisites, Service Module (**SM**)

ASSESSMENT TYPE:

Continuous Assessment (**CA**) or Final Assessment (**FA**) or Continuous Assessment and Final Assessment (**CFA**)

MASTER OF ARTS (Thesis - 1857)

D.343 ADMISSION

Unless Senate decides otherwise, a student shall be required to meet the following criteria to be enrolled for the **Master of Arts Degree in Political Studies – MA (Political Studies)**:

- D.343.1** An applicant must be in possession of an Honours Degree in Political Studies or a cognate discipline, such as History or Public Administration with an average mark of 65% or have obtained a qualification which in the opinion of the Senate is of an equivalent standard (See also Rule A.2.1.4)

D.344 SELECTION

Final selection shall be based on an applicant meeting the criteria as determined by the Faculty as well as the availability of supervision capacity on the chosen topic.

D.345 DURATION

Unless Senate decides otherwise, the duration of the programme shall extend over three years full-time and part-time.

D.346 CURRICULUM

Module Name	Module Code	Credits
Political Studies Master's Thesis 801 (1 st Enrolment)	POL801	180
Political Studies Master's Thesis 802 (2 nd Enrolment)	POL802	
FINAL TOTAL		180

D.347 ASSESSMENT RULES

Assessment is governed by Rule A.5 as stipulated in the University Calendar: General Information Part 1.

D.348 PROGRESSION RULES

Registration for the following year of study shall be recommended by the supervisor if in their opinion adequate progress has been made during the current year.

D.349 RENEWAL OF REGISTRATION

Renewal of registration shall be governed by Rule A.4, as stipulated in the University Calendar: General Information Part 1 or as provided for in the faculty rules as contained in this Calendar.

D.350 SPECIAL REQUIREMENTS FOR THE PROGRAMME

A thesis on an approved topic must be selected in conjunction with the department or relevant person concerned.

MODULE LIST PER YEAR LEVEL:

MODULE TYPE:

Compulsory (**C**), Electives (**E**), Year Module (**YR**), Semester Module (**S**), Pre-requisites and Co-requisites, Service Module (**SM**)

ASSESSMENT TYPE:

Continuous Assessment (**CA**) or Final Assessment (**FA**) or Continuous Assessment and Final Assessment (**CFA**)

Module Code	Module Name	Compulsory	Credits	NQF Level	Enrolment Year	Duration	Assessment Type

UNDERGRADUATE MODULE DESCRIPTORS

Faculty	Economic and Management Sciences		Home Department			Accounting / Academic Development		
Module Name	Introduction to South African Accounting 130/131		Module Code			ACC130 (BCom ECP) ACC131 (BCom Accounting ECP)		
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	15	
Programmes in which the module will be offered		BCom (1751), BCom (Accounting) (1753)				Total Learning Time	150 hours	
Duration	Semester		Proposed Semester			ACC131 -First Semester ACC130 - Second Semester		
Main Learning Outcomes	On completion of this module, students should be able to: Record business transactions in the appropriate record with generally accepted accounting principles up to trial balance.							
Main Content	- Accounting as an information system - Data processing and double-entry bookkeeping to trial balance - Subsidiary journals and ledgers - Accounting for Value Added Tax - Periodic and perpetual inventory systems							
Pre-requisite	None		Prohibited module Combination			None		
Co-requisite	QLC141 or QSF131							
Timetable Requirement per week			3	Lectures p.w.				
			0	Practicals p.w.				
			2	Tutorials p.w.				
Other teaching modes that does not require time-table								
Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment		CA			50%
					FA			50%

Faculty	Economic and Management Sciences		Home Department			Accounting / Academic Development	
Module Name	Introduction to South African Accounting 132		Module Code			ACC132	
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	15
Programme in which the module will be offered		BCom (Accounting) (1753)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Prepare the financial statement of a sole trader based on accrual accounting. • Do an elementary analysis and interpretation of the financial statements of a sole trader.						
Main Content	• Accounting as an information system • Periodic measurement of income • Preparation of the income statement and the balance sheet for a sole trader • Elementary analysis and interpretation of the financial statements of a sole trader						

Pre-requisite	ACC130/131	Prohibited module Combination		None

Programmes in which the module will be offered		BCom (Accounting) (1021, 1762)				Total Learning Time	150 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to: • Draw connections among the technical concepts taught in Level 1 and Auditing, Financial Accounting, Cost and Management Accounting and Finance, and Taxation. • Interpret accounting data with the aid of information technology tools. • Use the enabling competencies in accounting for decision making • Identify unethical behaviour and critically examine the ethical dilemma and behaviours of individuals • Discuss the relationship between corporate governance, business ethics, citizenship and social justice concepts and business. • Interpret business reports and presentations.						
Main Content	• Introduction to different business industries • Introduction to business risks. • Introduction to ethics and decision-making in business • Managing ethics (ethical risk assessment, directional and aspirational codes, institutionalising and reporting on ethics). • Introduction to corporate governance and business decision-making • Reading integrated annual reports.						
Pre-requisite	FIA132/FIA134, ALF111 A student may only register for ALF211 in the year that all the core second year modules will be completed.		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			3	Lectures p.w.			
			0	Practicals p.w.			
			1	Tutorials p.w.			
Other teaching modes that does not require time-table							
Assessment Module Type	Continuous Assessment (CA)		Method of Student Assessment			CA	100%

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Commercial Literacy for Accountants 311		Module Code			ALF311	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	15
Programmes in which the module will be offered		BCom (Accounting) (1021, 1762)				Total Learning Time	150 hours
Duration	Year		Proposed Semester			Both Semesters	

Main Learning Outcomes	On completion of this module, students should be able to: • Apply Auditing, Financial Accounting, Cost and Management Accounting and Finance, and Taxation concepts to integrated scenarios. • Analyse accounting data with the aid of information technology tools for decision making purposes. • Apply concepts of corporate governance, business ethics, citizenship and social justice to complex business case studies. • Write business reports and deliver presentations				
Main Content	• Business industries in the economy • Risks associated with different industries in the economy • Ethics and business decision-making • Corporate governance and business decision-making • Interpretation of integrated annual reports • Business reports and presentations				
Pre-requisite	ALF211, FIA201, TAX201, MAF201, AUD201	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		3	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous Assessment (CA)	Method of Student Assessment		CA	100%

Faculty	Economic and Management Sciences		Home Department			Academic Development	
Module Name	Academic Literacy for Commerce 130		Module Code			ALC130	
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	15
Programme in which the module will be offered		BCom (1761)				Total Learning Time	150 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students, should be able to: • Apply the use of various listening and note-taking skills • Work more effectively in groups • Apply analytical and critical thinking • Apply critical and analytical reading skills • Write well-constructed and written assignments and academic essays • Use references and quotations in a coherent and appropriate manner • Summarise main and supporting ideas in written texts • Write well-constructed reports						
Main Content	• Listening and note-taking skills • Group dynamics skills • Critical thinking skills • Reading skills • Writing skills • Referencing skills Additional support will be provided through the inclusion of: • Effective planning, organisational and time management skills						

	• Vocabulary building skills • Personal management skills • Branding skills				
Pre-requisite	None	Prohibited module Combination		ALC131 and ALC132	
Co-requisite	None				
Timetable Requirement per week		3	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.	one communal & one individual	
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment		CA	60%
				FA	40%

Faculty	Economic and Management Sciences		Home Department			Academic Development	
Module Name	Academic Literacy for Commerce 131/132		Module Code			ALC131 (Full-time and part-time) ALC132 (Full-time repeat module only)	
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		BCom (1008, 1751), BCom (Accounting) (1021, 753), BCom (Financial Accounting) (1175), BCom (Law) (7211), BAdmin (1011)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First or Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate the use of various listening and note-taking strategies. • Demonstrate an understanding of group dynamics. • Demonstrate an understanding of analytical and critical thinking • Apply critical and analytical reading skills in various contexts, e.g. text books and articles in journals, newspapers, magazines. • Write well-constructed - written assignments and academic essays. Use references and quotations in a coherent and appropriate manner. • Summarise main and supporting ideas in written texts. • Write well-constructed reports and proposals. • Effectively utilize IT-based productivity tools to organize and manage information.						
Main Content	• Listening and note-taking skills • Group dynamics skills • Critical thinking skills • Reading skills • Writing skills • Referencing skills • Digital information literacy skills						
Pre-requisite	ALB131 for ECP students only		Prohibited module Combination			None	
Co-requisite	ALB131 for ECP students only						

Timetable Requirement per week	3	Lectures p.w.		
	0	Practicals p.w.		
	1	Tutorials p.w.		
Other teaching modes that does not require time-table				
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA	60%
			FA	40%

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Auditing 201		Module Code			AUD201	
Module Type	Core	NQF Level	6	Year Level	2/3	NQF Credit	20
Programmes in which the module will be offered		BCom (Accounting) (1021, 1762)				Total Learning Time	200 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to: Business environment • Explain the purpose of the external audit. • Identify business risks in a scenario and propose measures to address the risks. • Assess and propose controls (manual and computerised) for the business cycles. • Explain the importance of ethics to professional accountants and auditors. • Explain basic theories of ethical decision-making, and apply such theories to scenarios. • Apply the guidance in SAICA's Code of Conduct to scenarios. • Apply principles of corporate governance, with the focus on the King Report, to scenarios. • Apply principles of company law, with the focus on the Companies Act, to scenarios. • Revenue and receipts • and payments • Inventory and production Factors influencing the audit process • Explain the moral obligations of organizations (business ethics). • Explain the importance of ethical behavior. • Explain the principles of corporate governance. • Explain the theories about the nature of an organization. • Identify the aspects of IFAC's Code of Conduct that are relevant to a given scenario. • Demonstrate an understanding of relevant company law.						
Main Content	The Business environment • Business risks and measures, including controls, that can be implemented to address such risks. • Business cycles: • Revenue and receipts • Purchases and payments • Human Resources • Design of Internal controls in both manual and computerized environments						

	• Evaluation of effectiveness off internal controls • General and application controls in an IT environment • EFT Controls • Factors that influence the audit process • Ethics, including SAICA's Code of Professional Conduct and theories about ethical decision-making. • Corporate governance, focusing on the King Report • Company law, focusing on the Companies Act				
Pre-requisite	FIA132/FIA134, ALF111	Prohibited module Combination		AUD241 and AUD242	
Co-requisite	None				
Timetable Requirement per week		4	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA		50%
			FA		50%

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Internal Auditing 241		Module Code			AUD241	
Module Type	Core	NQF Level	6	Year Level	2	NQF Credit	10
Programme in which the module will be offered		BCom (Financial Accounting) (1175)			Total Learning Time		100 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Explain basic theory relating to the role of the internal auditing function in the modern corporation. • Explain types of internal audit. • Explain the importance of the Institute of Internal Auditors' standards for the professional practice of internal auditing, and apply some of these standards to scenario-type questions. • Explain the performance objectives of organisations. • Explain important concepts relating to risk assessment, and perform basic risk assessments. • Explain control frameworks, with an emphasis on control techniques. • Explain how audit evidence can be collected and assessed. • Explain the flow of the internal audit process.						
Main Content	• The emerging role of internal auditing • Types of internal audit • The Institute of Internal Auditors' standards for the professional practice of internal auditing • The performance objectives of organisations • Risk assessment • Control frameworks • Audit evidence • The internal audit process and documentation						
Pre-requisite	FIA141 or FIA131 AND ALC131 or ALC132		Prohibited module Combination			AUD236	
Co-requisite	None						

Timetable Requirement per week	3	Lectures p.w.		
	0	Practicals p.w.		
	1	Tutorials p.w.		
Other teaching modes that does not require time-table				
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA	50%
			FA	50%

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Internal Auditing 242		Module Code			AUD242	
Module Type	Core	NQF Level	6	Year Level	2	NQF Credit	10
Programme in which the module will be offered		BCom (Financial Accounting) (1175)			Total Learning Time		100 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Explain the flow of the internal audit process.						
	• Explain basic theory relating to control and performance evaluation, e.g. the purpose of controls and the types of controls.						
	• Explain the theory relating to audit engagement tools, statistics and quantitative methods, focusing on the application of sampling.						
	• Explain the steps to be followed during the planning phase of the internal audit engagement.						
	• Explain the steps to be followed when drafting an audit report, including follow-up actions.						
	• Apply the above theory to scenario-type questions.						
	• Explain sound corporate governance practices, and apply corporate governance theory to scenario-type questions.						
	• Explain the interaction between an organisation's financial accounting function, internal audit function and external auditors.						
	• Explain the internal auditor's duties regarding the organisation's regulatory and legal compliance.						
Main Content	• The internal audit process and documentation						
	• Control and performance evaluation						
	• Audit engagement tools, statistics and quantitative methods						
	• Engagement planning						
	• Audit reporting and follow-up						
	• Corporate governance						
	• The internal audit function and financial accounting and finance						
	• The legal and regulatory environment						
	• Auditing in a computerised environment						
	• General and application controls						
• CAATS							
Pre-requisite	AUD241		Prohibited module Combination			AUD236	
Co-requisite	None						
Timetable Requirement per week			3	Lectures p.w.			
			0	Practicals p.w.			
			0	Tutorials p.w.			

Other teaching modes that does not require time-table									
Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment			CA	50%		
						FA	50%		
Faculty	Economic and Management Sciences		Home Department			Accounting			
Module Name	Auditing 322		Module Code			AUD322			
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	30		
Programmes in which the module will be offered		BCom (Accounting) (1021, 1753)				Total Learning Time	300 hours		
Duration	Year		Proposed Semester			Both Semesters			
Main Learning Outcomes	On completion of this module, students should be able to:								
	• Discuss, explain and apply the regulatory principles, as contained in the International Standards of Auditing, governing the external auditor's work. • Design and perform test of controls on key internal controls implemented by management but also relevant to the auditor. • Discuss and apply the various stages of the external audit process to a given scenario. • Demonstrate a practical ability to apply the principles and concepts governing the various stages of the external audit process, including • audit planning • materiality and risk assessment • substantive procedures • completion of the audit • subsequent events • going concern • Design audit programmes for both manual and computerised environments. • Prepare, select and discuss the appropriate type of audit report that an external auditor can issue in a given situation. • Explain how IT influences audit procedures with application to specific scenarios.								
Main Content	• The stages of the external audit process • Performance of an interim audit, identifying key internal controls and performing test of controls • Concepts and principles important to the external audit process, e.g. audit planning, materiality and risk assessment, substantive procedures, completion of the audit, subsequent events and going concern • The regulatory environment governing the external auditor's work, including International Standards of Auditing • Audit testing in both manual and computerized environments • The reports that an external auditor can issue • The influence of IT on an audit • Examinable pronouncements as yearly communicated by SAICA								
	Pre-requisite	AUD201		Prohibited module Combination			AUD341		
Co-requisite	None								
Timetable Requirement per week			3	Lectures p.w.					
			0	Practicals p.w.					
			1	Tutorials p.w.					

Other teaching modes that does not require time-table				
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA	50%
			FA	50%

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Internal Auditing 341		Module Code			AUD341	
Module Type	Core	NQF Level	7	Year Level	3	NQF Credit	15
Programmes in which the module will be offered		BCom (Financial Accounting) (1175), BCom (Accounting) (1753)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: - Assess controls as outlined in a scenario-type question, point out control weaknesses, and make recommendations about controls that can be implemented to address such weaknesses. - Explain what quality assurance should involve, and apply the relevant theory to a scenario-type question. - Explain the independent review process.						
Main Content	- Auditing in a computerised environment – networks and related concepts - Controls techniques - Controls in the following cycles: - Revenue and receipts cycle - Acquisition and payments cycle - Inventory and production cycle - Payroll and personnel cycle - Internal audit quality - Overview of the independent review process						
Pre-requisite	AUD241 and AUD242 OR AUD236		Prohibited module Combination			AUD327	
Co-requisite	None						
Timetable Requirement per week			3	Lectures p.w.			
			0	Practicals p.w.			
			1	Tutorials p.w.			

Other teaching modes that does not require time-table				
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA	50%
			FA	50%

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Business Ethics 242		Module Code			BET242	
Module Type	Core	NQF Level	6	Year Level	2	NQF Credit	10
Programmes in which the module will be offered	BCom (Financial Accounting) (1175), BCom (1008, 1751)					Total Learning Time	100 hours
Duration	Semester			Proposed Semester		Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Explain the purpose of this module as well as the arguments for and against the teaching of ethics at tertiary level. • Explain the arguments for and against the notion that ethics belongs in						

	the business environment. • Explain some core elements of some important value systems, including the African value system, Judaism and Christianity, and Islam. • Explain the ideas of ethical absolutism and relativism, and criticise extreme relativism. • Explain the basic theory of the following theories of ethics, and criticise the theories: • Virtue ethics • Rule morality, and more specifically Kant's version thereof • Utilitarianism, and more specifically Bentham's and Mill's versions thereof • Apply Kant's version of rule morality and Bentham's and Mill's versions of utilitarianism to scenarios. • Explain a process that can be used for the purposes of ethical decision-making. • Explain the argument in favour of a free market system as put forward by Smith. • Explain Marx's theory about the inevitable march of history, and criticise his theory. • Explain the central ideas of some theories of economic justice. • Explain some notions about the moral obligations of the corporation, specifically corporate social responsibility. • Explain the basic ideas of corporate governance, focusing on the role of the board of directors. • Explain the arguments relating to executive remuneration as a contentious governance-related matter. • Explain the steps in the process of ethics management, and the problems involved in ethics management, particularly in the context of a company with suppliers in developing countries. • Explain three theories about the nature of the organisation.			
Main Content	• Some value systems • Some important ethical theories • The free market system and the Marxist critique of the free market system • The moral obligations of the corporation • Corporate governance • Ethics management • Some theories about the nature of the organization			
Pre-requisite	ALC131 or ALC132	Prohibited module Combination		BET211
Co-requisite	None			
Timetable Requirement per week		2	Lectures p.w.	
		0	Practicals p.w.	
		0	Tutorials p.w.

Module Name	Intermediate Mathematical Economics 235		Module Code			ECO235	
Module Type	Core/ Elective	NQF Level	6	Year Level	2/3	NQF Credit	10
Programmes in which the module will be offered		BCom (1008, 1751), BCom (Law) (7211)				Total Learning Time	100 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of the module, a student should be able to: • Apply differentiation techniques to solve the non-linear economic problems in consumption and production theories in microeconomics. • Solve linear mathematical economic problems in macroeconomics.						

	- Explain matrix concepts and apply them to solve linear economic problems. - Apply the integral calculus techniques to non-linear economic functions.				
Main Content	- Differentiation techniques used to solve economic problems. - Linear mathematical economic problems in macroeconomics (e.g. AD-AS curves, IS-LM curves). - Non-linear mathematical economic problems in microeconomics (e.g. consumption equilibrium, production equilibrium, returns to scale, partial elasticity). - Matrices in economics applications. - Integral calculus in economics applications.				
Pre-requisite	ECO241 or ECO151	Prohibited module Combination		None	
Co-requisite	None

Programmes in which the module will be offered		BCom (1008,1751), BCom (Law) (7211)				Total Learning Time	100 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of the module, a student should be able to: • Explain the theoretical background of econometrics. • Apply the basic tools of mathematics, statistics and econometrics to analyse the economic relationship between variables. • Apply the appropriate functional forms to derive econometric models which explain economic phenomena. • Use relevant quantitative software packages to conduct basic mathematical, statistical and econometric analysis of data, and interpret findings in an economic context.						
Main Content	• Methodology of Econometrics. • Basic probability theories and probability distributions in economic context. • Assumptions of Classical Linear Regression Model (CLRM). • Using the matrix approach to Ordinary Least Squares to derive sample regression parameters. • Interval estimation and hypothesis testing to sample regression parameters. • Different functional forms of the linear regression model. • Application of Excel to conduct mathematical, statistical and econometric analysis of economic data.						

Pre-requisite	ECO241 or ECO151 and ECO152	Prohibited module Combination		None	
Co-requisite	ECO231				
Timetable Requirement per week		2	Lectures p.w.		
		1	Practicals p.w.		
		0.5	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA		50%
			FA		50%

Faculty	Economic and Management Sciences		Home Department			Economics	
Module Name	Intermediate Econometrics 311		Module Code			ECO311	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	15
Programmes in which the module will be offered		BCom (1008, 1751), BCom (Law) (7211)			Total Learning Time	150 hours	
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of the module, a student should be able to: • Conduct multivariate regression analysis. • Conduct various inference tests on multivariate regressions. • Explain regression models with dummy variables. • Explain the definition, consequences, detection methods and remedies to various violations of the classical linear regression model (CLRM). • Use econometric software package to undertake econometric analysis.						
Main Content	• Multivariate regression analysis. • Advanced hypothesis tests on multivariate regressions. • Dummy-variable regression models. • Multicollinearity: definition, detection, consequences and remedies. • Heteroscedasticity: definition, detection, consequences and remedies. • Autocorrelation: definition, detection, consequences and remedies. • Model specification. • Use econometric software package to undertake econometric analysis.						
Pre-requisite	ECO242		Prohibited module Combination				
Co-requisite							
Timetable Requirement per week			3	Lectures p.w.			
			1	Practicals p.w.			
			0	Tutorials p.w.			
Other teaching modes that does not require time-table

Main Content	• Detailed application of a selection of statements of Generally Accepted Accounting Practice, including selected standards from International Financial Reporting Standards (IFRS) and accounting for group situations				
Pre-requisite	FIA225	Prohibited module Combination		FIA341 and FIA342	
Co-requisite	None				
Timetable Requirement per week		5	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA		50%
			FA		50%

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Financial Accounting 341		Module Code			FIA341	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	30
Programmes in which the module will be offered		BCom (Financial Accounting) (1175), BCom (1008, 1751)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Prepare and present financial statements for companies in terms of International Financial Reporting Standards (IFRS); and/or International Financial Reporting Standards (IFRS) for SMEs.						
Main Content	• Accounting as information system • The Conceptual Framework • Preparation and presentation Financial Statements, including the statement of cash flows and notes to the financial statements • A selection of standards from International Financial Reporting Standards (IFRS), and/or International Financial Reporting Standard (IFRS) for SME's, including but not limited to the following: • Financial instruments: Disclosures • Taxation • Leases • Property, plant and equipment • Investment property • Intangible assets • Provisions, contingent assets and liabilities • Borrowing costs • Earnings per share (separate companies) • Events after the reporting period • Write reports on financial and business risk as well as on financial performance and financial position						

Pre-requisite	FIA241 and FIA242 or FIA214 and FIA225	Prohibited module Combination		FIA324	
Co-requisite	None				
Timetable Requirement per week		4	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA	50% of final mark	
			FA	50% of final mark	

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Financial Accounting 342		Module Code			FIA342	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	30
Programmes in which the module will be offered		BCom (Financial Accounting) (1175), BCom (1008, 1751)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Prepare and present separate and consolidated financial statements for companies in terms of International Financial Reporting Standards (IFRS); and/or International Financial Reporting Standard (IFRS) for SME's.						
Main Content	• Preparation and presentation of Group Financial Statements, including the group statement of cash flows and notes to the group financial statements • A selected standards from International Financial Reporting Standards (IFRS), and/or International Financial Reporting Standards (IFRS) for SME's, including but not limited to the following: • Taxation and deferred tax • Foreign entities and the effects of changes in foreign exchange rates • Non-current assets held for sale and discontinued operations • Related party disclosure • Earnings per share (group companies) • Capita selecta as determined by the Department of Accounting						
Pre-requisite	FIA341		Prohibited module Combination			FIA324	
Co-requisite	None						
Timetable Requirement per week			4	Lectures p.w.

			1	Tutorials p.w.				
Other teaching modes that does not require time-table								
Assessment Module Type	Continuous Assessment (CA)		Method of Student Assessment			CA	100%	

Faculty	Economic and Management Sciences		Home Department			Information Systems	
Module Name	Databases and Data Modelling 242		Module Code			IFS242	
Module Type	Core	NQF Level	6	Year Level	2	NQF Credit	20
Programme in which the module will be offered		BCom (Information Systems) (1033)				Total Learning Time	200 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Understand the principles of relational and object-oriented databases. • Understand the role of databases in modern information systems. • Design relational databases of moderate complexity. • Abstract table structure from data requirement statements. • Understand the principles of primary- and foreign-key data relationships. • Utilise the SQL language to query databases.						

	• Utilise a modern relational database management system using the data manipulation language and the data definition language. • Model data relationships.				
Main Content	• The theory and application of relational and object-oriented databases • Data-oriented modelling theory and application • Unified Modelling Language • Object-oriented design principles • The object-oriented development life cycle				
Pre-requisite	IFS131 or IFS132 and IFS140, QSC131 or QSC132 and ALC131 or ALC132	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		3	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous Assessment (CA)	Method of Student Assessment		CA	100%

Faculty	Economic and Management Sciences		Home Department			Information Systems	
Module Name	Business Information Systems 244		Module Code			IFS244	
Module Type	Core	NQF Level	6	Year Level	2	NQF Credit	20
Programme in which the module will be offered		BCom (Information System) (1033)				Total Learning Time	200 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, a student should be able to: - Fully explore and apply the HTML5 technology stack on the client side. - Understand the principles and application of Object Orientated Programming (OOP) on the client side. - Understand the process and architecture of linking the client side to the server side in networked applications. - Understand the application of OOP and a query language to server-side relational database driven applications. - Understand the application of client-server architecture to business information systems and their management.						
Main Content	- Client-server network applications - The principles and application of OOP - Production of a client-server business information application - System architecture and management of business information systems for commerce - The value of data to commerce in the 21st century						
Pre-requisite	IFS242		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			3	Lectures p.w.			
			1	Practicals p.w.			
			1	Tutorials p.w.			

Other teaching modes that does not require time-table				
Assessment Module Type	Continuous Assessment (CA)	Method of Student Assessment	CA	100%

Faculty	Economic and Management Sciences		Home Department			Information Systems	
Module Name	Emerging Trends in Information Systems 315		Module Code			IFS315	
Module Type	Core	NQF Level	7	Year Level	3	NQF Credit	30
Programme in which the module will be offered		BCom (Information Systems) (1033)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, a student should be able to: • Apply the basic principles of data analysis within information systems • Understand how to apply appropriate models to data sets to improve data visualization • Analyse large data sets to identify meaningful trends • Apply data-driven programming languages to query large data sets to gain valuable insights • Integrate existing frameworks and libraries to improve the data analysis process • Understand and demonstrate the importance of data cleansing and transformation to improve the accuracy of models to support decision-making						
Main Content	• Introduction to data analysis • Data visualisation • Data-driven programming languages • Working with large data sets • Programming frameworks and libraries • Data insights and trends • Data transformation and cleansing						
Pre-requisite	IFS244		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			3	Lectures p.w.			
			1	Practicals p.w.			
			0	Tutorials p.w.			

Other teaching modes that does not require time-table				
Assessment Module Type	Continuous Assessment (CA)	Method of Student Assessment	CA	100%

Faculty	Economic and Management Sciences		Home Department			Information Systems	
Module Name	Information Systems Strategic Projects 316		Module Code			IFS316	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	30

Programmes in which the module will be offered		BCom (Information Systems) (1033), BSc Computer Science (3023, 3221)		Total Learning Time	300 hours
Duration	Semester	Proposed Semester		First Semester	
Main Learning Outcomes	On completion of this module, a student should be able to: • Evaluate how businesses create value and how information systems assist in value creation. • Discuss the different contributions that information systems can make to drive innovation. • Analyse the role of policy, strategy and operational interventions in promoting effective developmental use of ICTs. • Apply steps that link idea generation to the introduction of new products or services in a project. • Identify and assemble the required resources, processes, and partners to bring a business model to fruition				
Main Content	• Innovation • IS strategic management concepts and analysis • Mapping and unlocking opportunities • Design thinking • The structure of an IT company				
Pre-requisite	IFS233 and IFS244	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		3	Lectures p.w.		
		2	Practicals p.w.		
		0	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous Assessment (CA)	Method of Student Assessment		CA	100%

Faculty	Economic and Management Sciences		Home Department			Information Systems	
Module Name	Information Systems Project Implementation 317		Module Code			IFS317	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	30
Programmes in which the module will be offered		BCom (Information Systems) (1033), BSc (Computer Science) (3023, 3221)			Total Learning Time		300 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, a student should be able to: • Design and develop an information system that is responsive to future technology trends • Apply modern architecture and its relationship and application to infrastructure. • Apply concepts in the roll-out of a systems development project. • Utilise tools for team and client collaboration and communication • Apply techniques for system security						
Main Content	• Digital business, technology innovation and the impact on society. • Agile project management • Enterprise architecture						

	• Requirements analysis, design, build, test, quality assurance • Tools for collaboration • Techniques for security				
Pre-requisite	IFS316	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		3	Lectures p.w.		
		2	Practicals p.w.		
		0	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous Assessment (CA)	Method of Student Assessment		CA	100%

Faculty	Economic and Management Sciences		Home Department			Information Systems	
Module Name	Advanced Computing 325		Module Code			IFS325	
Module Type	Core	NQF Level	7	Year Level	3	NQF Credit	30
Programme in which the module will be offered		BCom (Information Systems) (1033)			Total Learning Time	300 hours	
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, a student should be able to: • Apply the foundational principles of information theory to datasets • Apply the foundational principles and theory of object-oriented data processing • Analyse data sets by means of information theory techniques • Translate data dictionaries into digital encodings for information processing • Understand and apply object-oriented coding techniques to the production of simple compiled computer applications • Use object-oriented coding to address information theory problems • Use object-oriented coding to digitally encode and decode data sets for digital processing and transmission, using information theory techniques.						
Main Content	• Introductory Information Theory and the Digital Nature of Information • Simple applications of Information Theory • Introductory formal Object-oriented theory and coding • Application of object-oriented coding to Information Theory tasks • Application of object-oriented coding to data encoding and decoding						
Pre-requisite	IFS315		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			4	Lectures p.w.			
			0	Practicals p.w.			
			1	Tutorials p.w.			
Other teaching modes that does not require time-table

Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment			CA	60%
						FA	40%

Faculty	Economic and Management Sciences		Home Department			Industrial Psychology	
Module Name	Career Psychology 231		Module Code			IPS231	
Module Type	Core	NQF Level	6	Year Level	2/3	NQF Credit	10
Programmes in which the module will be offered		BCom (1008, 1751, 1761), BCom (Law) (7211), BAdmin (1011), BA (2101, 2612)				Total Learning Time	100 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Explain the concept: Career. • Discuss the evolving concept of career development. • Identify and discuss relevant career development issues and its impact on both individuals and organizations. • Discuss the dimensions of the Career Cycle. • List and discuss the life cycle of an individual and the impact of each stage on his/her career.						

	• Discuss the various stages of career development. • Identify and discuss the challenges related to each of the career development stages. • Explain the role of the organization and the individual with regard to career development.			
Main Content	• Understand the meaning of work • Career concepts and a Career Management Model • Career Choice • Career Anchors • Life and Career Stages • Organizational Choice • Changes in organizations and implications for careers • Organizational Support • Career Issues			
Pre-requisite	IPS132 / IPS131	Prohibited module Combination		None
Co-requisite	None			
Timetable Requirement per week		1	Lectures p.w.

			FA	40%

Faculty	Economic and Management Sciences		Home Department			Industrial Psychology	
Module Name	Psychometrics 232		Module Code			IPS232	
Module Type	Core	NQF Level	6	Year Level	2/3	NQF Credit	10
Programmes in which the module will be offered		BCom (1008, 1751, 1761), BCom (Law) (7211), BAdmin (1011), BA (2101, 2612)			Total Learning Time		100 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Explain the nature, characteristics, uses and abuses of psychometric tests. • Describe the legislative and ethical framework pertaining to psychometric tests based on the roles played by various users of psychological assessments. • Evaluate selection techniques and decisions and determine fairness and bias involved. • Clarify and define competency-based assessment						
Main Content	• Development, nature, characteristics, application and abuses of assessment techniques and psychological tests • Legislative and ethical framework governing test administration • Multimodal methods of assessment • Competency-based assessment						
Pre-requisite	IPS131/IPS132 AND BUS131 or BUS132 (BCom), OR STA141 or 142 (BAdmin/BA)			Prohibited module Combination		None	
Co-requisite	None						

Timetable Requirement per week	1	Lectures p.w.		
	0	Practicals p.w.		
	1	Tutorials p.w.		
Other teaching modes that does not require time-table

Module Name	Human Resource Management 233		Module Code			IPS233	
Module Type	Core	NQF Level	6	Year Level	2/3	NQF Credit	10
Programmes in which the module will be offered		BCom (1008, 1751, 1761), BCom (Law) (7211), BAdmin (1011), BA (2101, 2612)				Total Learning Time	100 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: - Recall and explain the history of human resources management. - Explain the major role(s) and functions of a Human Resources Department. - Recognise and evaluate the importance of environmental factors impacting on the management of human resources. - Apply knowledge of human resources functions in a real life-simulated scenario.						
Main Content	- Foundations of Human Resource Management - Job analysis and job design - Employee recruitment, selection and induction - Internal staffing - Performance appraisal and performance management - Employee training, management, development and career management.						
Pre-requisite	IPS132/IPS131		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			1	Lectures p.w.			
			0	Practicals p.w.			
			1	Tutorials p.w.

Faculty	Economic and Management Sciences		Home Department			Industrial Psychology	
Module Name	Labour Relations 234		Module Code			IPS234	
Module Type	Core	NQF Level	6	Year Level	2/3	NQF Credit	10
Programmes in which the module will be offered		BCom (1008, 1751, 1761), BCom (Law) (7211), BAdmin (1011), BA (2101, 2612)			Total Learning Time		100 hours
Duration	Semester		Proposed Semester			First Semester	

Main Learning Outcomes	On completion of this module, students should be able to: • Describe the environmental context of labour relations. • Explain the various parties involved in labour relations and their respective roles. • Discuss the importance of promoting sound labour relations in SA				
Main Content	• Labour relations theory and perspectives • The history of labour relations in SA • Environmental influence on labour relations • Trade unions; goals, strategies and organizations • Management strategy and employer organizations • The role of the state, government strategies and the state as employer • South African labour law • Collective bargaining law • Employee participation • Workplace agreements and procedures • The negotiation process • Conciliation, arbitration and Labour Court adjudication • Strikes and lock-outs				
Pre-requisite	IPS132/131	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		1	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA	60%	
			FA	40%	

Faculty	Economic and Management Sciences		Home Department			Industrial Psychology	
Module Name	Organisational Behaviour 331		Module Code			IPS331	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	15
Programmes in which the module will be offered		BCom (1008, 1751, 1761), BCom (Law) (7211), BAdmin (1011), BA (2101, 2612)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Understand the concepts of Organizational Behaviour. • Trace the historical development and schools of thought. • Identify and discuss the fundamental characteristics of the field. • Critically discuss the theories of motivation and leadership. • Discuss the basic principles of group dynamics and team work. • Apply theories of Organizational Behaviour to selected cases. • Evaluate the impact of technology on modern organizations.						
Main Content	• Motivation in organizations • Group Dynamics and Team Work • Communication in Organizations • Decision-Making in Organizations • Influence, Power and Politics in Organizations • Leadership in Organizations						

	• Organizational Structure and Design • Technology in Organizations • Managing Organizational Change			
Pre-requisite	Any three of the following (3) modules: IPS231, IPS232, IPS233 and IPS234		Prohibited module Combination	None
Co-requisite	None			
Timetable Requirement per week		1	Lectures p.w.	
		0	Practicals p.w.	
		1	Tutorials p.w.	
Other teaching modes that does not require time-table				
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA	60%
			FA	40%

Faculty	Economic and Management Sciences		Home Department			Industrial Psychology	
Module Name	Research Methodology 333		Module Code			IPS333	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	15
Programmes in which the module will be offered		BCom (1008, 1751, 1761), BCom (Law) (7211), BAdmin (1011), BA (2101, 2612)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Discuss the logic of scientific research. • Handle practical problems encountered during research. • Plan projects to solve problems. • Conduct scientific research, inter alia, write a research proposal, gather relevant information, analyse data, interpret the information and come to appropriate conclusions. • Write a research report.						
Main Content	• Different methods of acquiring knowledge • The Scientific Method applied to social reality • Problem formulation, hypothesis formulation • Types of research design • Data collection, analysis and interpretation • Writing a research report						
Pre-requisite	Any three (3) of the following modules: IPS231, IPS232, IPS233, IPS234			Prohibited module Combination		IPS131/132 and IPS331	
Co-requisite	None						
Timetable Requirement per week			1	Lectures p.w.			
			0	Practicals p.w.			
			1	Tutorials p.w.			
Other teaching modes that does not require time-table							
Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment		CA		60%
					FA		40%

Faculty	Economic and Management Sciences		Home Department			Industrial Psychology	
Module Name	Consumer Behaviour 335		Module Code			IPS335	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	15
Programmes in which the module will be offered		BCom (1008, 1751, 1761), BCom (Law) (7211), BAdmin (1011), BA (2101, 2612)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Define consumer behaviour. • Describe the marketing concept. • Describe market segmentation. • Explain and contrast consumer research and compile a questionnaire. • Describe individual consumer related aspects. • Describe social and cultural consumer related aspects. • Describe the consumer decision-making process. • Explain the role of individual, social and cultural related consumer aspects in consumer decision-making. • Apply their knowledge of consumer behaviour in designing an advertisement.						
Main Content	• Market segmentation and marketing concept • Consumer research • Consumer as individual: • Motivation • Personality • Perception • Learning • Attitude formation and change • Communication • Consumer in social and cultural setting: • Reference groups and family influences • Social class • Culture • Consumer's decision-making process: • Consumer influence and diffusion of innovations • Decision-making and beyond						
Pre-requisite	Any three (3) of the following modules: IPS231, IPS232, IPS233, IPS234		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			1	Lectures p.w.			
			0	Practicals p.w.			
			0	Tutorials p.w.			
Other teaching modes that does not require time-table							
Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment			CA	60%

Faculty	Economic and Management Sciences		Home Department			Industrial Psychology	
Module Name	Training Management 337		Module Code			IPS337	
Module Type	Core	NQF Level	7	Year Level	3/4	NQF Credit	15
Programmes in which the module will be offered		BCom (1008, 1751, 1761), BCom (Law) (7211), BAdmin (1011), BA (2101, 2612)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: - Identify international and local trends in HRD, with specific reference to ETD practices and legislation (The Skills Development Act, etc). - Comprehend the need for the establishment of a culture of life-long learning in the workplace, and the transition from a focus on training to a focus on performance improvement. - Describe and provide practical guidelines for each of the phases of the training process – need analysis, designing and planning, implementation and evaluation. - Design a basic training programme, based on needs analysis conducted in a real work situation and taking into account all factors involved in the management of the HRD function (budgeting, administration, etc).						
Main Content	- International and local trends in human resource development - The transformational purpose and principles underpinning the skills development legislation - The learning organization and performance management - Conducting training needs analysis - Practical guidelines for the design of various interventions - Managing the HRD function (e.g. marketing, budgeting etc) - Guidelines for: - Technology-based learning (TBL) - Adult Basic Education and Training (ABET) - Multi-skilling - EE and diversity training - Conducting evaluation of a learning intervention in the workplace using the most appropriate techniques, based upon an outcomes-based assessment system.						
Pre-requisite	Any three (3) of the following modules: IPS231, IPS232, IPS233, IPS234		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			1	Lectures p.w.			
			0	Practicals p.w.			
			1	Tutorials p.w.			
Other teaching modes that does not require time-table							
Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment			CA	60%
						FA	40%

Faculty	Economic and Management Sciences		Home Department			Academic Development	
Module Name	Intensive Reading and Writing 231/232		Module Code			IRF231/232	
Module Type	Core	NQF Level	6	Year Level	2	NQF Credit	15
Programme in which the module will be offered		BCom (1751)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Read academic material comprehensively and critically. • Apply various reading strategies to various kinds of texts. • Assess their progress on the on-line reading programme, Reading Excellence. • Write logical, coherent and meaningful academic essays. • Analyse and summarise written texts. • Construct effective business documents.						
Main Content	• Academic reading techniques • Textbook analysis • Reading journals magazines and newspapers • Computer-Assisted learning • Establishing the relationship between thinking, and reading and writing • Contextualisation and integration of arguments • Business documents						
Pre-requisite	ALC131/ ALC132		Prohibited module Combination			Quantitative Skills for BAdmin	
Co-requisite	None						
Timetable Requirement per week			3	Lectures p.w.			
			2	Practicals p.w.			
			4	Tutorials p.w.			
Other teaching modes that does not require time-table							
Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment			CA	60%
						FA	40%

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Management Accounting 234		Module Code			MAC234	
Module Type	Core	NQF Level	6	Year Level	2/3	NQF Credit	10
Programmes in which the module will be offered		BCom (Accounting) (1021, 1753)				Total Learning Time	100 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Explain the basic concepts and processes in establishing the costs that are incurred when producing a product or providing a service. • Prepare and comment on cost statements or cost reports based on job order costing, process costing, joint and by-product costing and activity based costing. • Analyse the relationship between cost, volume and profit and interpret the results. • Prepare income statements based on variable costing and absorption costing, and reconcile the net income under the two methods.						

	• Discuss the budget development process, compile various operating budgets and financial budgets and comment on their use as control instruments. • Comment on the standard costing. • System as a control technique, compute basic variances and reconcile actual profit with budgeted profit. • Evaluate the performance of managers.			
Main Content	• Functions of management accounting, and relationship between financial and management accounting • Cost concepts and classifications • Cost elements – materials, labour and overheads • Cost accumulation systems – job costing, process costing • Direct and absorption costing • Cost-volume –profit analysis • Budgeting • Standard costing			
Pre-requisite	FIA131 and FIA132 and ALC131 or ALC132	Prohibited module Combination		MAC241
Co-requisite	None

Module Type	Core	NQF Level	6	Year Level	2	NQF Credit	10
Programmes in which the module will be offered		BCom (Financial Accounting) (1175), BEd (4401)				Total Learning Time	100 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Explain the basic concepts and processes in establishing the costs that are incurred when producing a product or providing a service. • Prepare cost statements or cost reports based on job order costing, process costing, joint and by-product costing and activity based costing. • Analyse the relationship between cost, volume and profit and interpret the results. • Prepare the statement of comprehensive income based on variable costing and absorption costing, and reconcile the net income under the two methods. • Discuss the budget development process, compile various operating budgets and financial budgets. • Applying basic techniques and principles in the decision making process.						

Main Content	• Functions of management accounting, and relationship between financial and management accounting • Cost concepts, classifications and the nature of costs • Cost elements – materials, labour and overheads • Cost accumulation systems – job costing, process costing and activity-based costing • Direct and absorption costing • Cost-volume-profit analysis • Budgeting • Basic decision making applications					
	Pre-requisite	BCom (Financial Accounting) (1175): FIA141 and FIA142 or FIA131 and FIA132 and QSF141 or QSC131 or QSC132 or MAM126 and ALC131 or ALC132 BEd (4401): FIA141 and FIA142 and QSC131 or QSC132	Prohibited module Combination		MAC234	
Co-requisite		None				
Timetable Requirement per week			3	Lectures p.w.		
			0	Practicals p.w.		
			1	Tutorials p.w.		
Other teaching modes that does not require time-table						
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA		50%	
			FA		50%	

Faculty	Economic and Management Sciences		Home Department			Accounting	
Module Name	Management Accounting 341		Module Code			MAC341	
Module Type	Core	NQF Level	7	Year Level	3	NQF Credit	15
Programme in which the module will be offered		BCom (Financial Accounting) (1175)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Apply costing concepts in the design, implementation and operation of costing systems. • Apply appropriate indicators of performance to measure and evaluate management performance and provide information for management control decision-making and system design.						
Main Content	• Joint and by-product costing • Cost volume profit analysis • Relevant cost and decision making						

	• Activity-based costing • Zero based budgeting • Standard costing • Divisional performance measures and transfer pricing			
Pre-requisite	MAC241 or MAC234	Prohibited module Combination		MAC314
Co-requisite	None			
Timetable Requirement per week		3	Lectures p.w.	
		0	Practicals p.w.	
		1	Tutorials p.w.

Other teaching modes that does not require time-table									
Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment			CA	60%		
						FA	40%		

Faculty	Economic and Management Sciences		Home Department			Management and Entrepreneurship	
Module Name	Project Management 325		Module Code			MAN325	
Module Type	Core/ Elective	NQF Level	7	Year Level	3/4	NQF Credit	15
Programmes in which the module will be offered		BCom (1008, 1751), BCom (Law) (7211), BA (Sport, Recreation and Exercise Science) (8061)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, a student should be able to: • Define project management and articulate the evolving role of project managers. • Describe and articulate a project life cycle, and can skillfully map each stage in the cycle. • Identify the resources needed for each stage, including involved stakeholders, tools and supplementary materials. • Evaluate the time needed to successfully complete a project, considering factors such as task dependencies and task lengths. • Calculate project costs. • Communicate and provide internal stakeholders with information regarding project costs by considering factors such as estimated cost, variances and profits. • Develop and design a project scope while considering factors such as customer requirements and internal/ external goals. • Assess the viability of project proposals						
Main Content	Introduction to Project Management • Role and characteristics of project managers Project Management Processes and Actions • Initiating, Planning, Executing and Controlling Processes • Closing Activities Key Knowledge and Competence Areas • Project Scope, Cost, Time and Quality Management • Project Communication and Procurement Management • Project Stakeholder and Social Compact Management • Project Risk Management Project Integration Management Project planning and evaluation						
Pre-requisite	MAN231 and MAN233		Prohibited module Combination			None	
Co-requisite	None

Faculty	Economic and Management Sciences		Home Department			Political Studies	
Module Name	Introduction to Political Studies and International Relations 131		Module Code			POL131	
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		BAdmin (1011), BA (2101, 2612), LLB (7161, 7171), BA (Law) 7221				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: - Identify and describe the essential characteristics of politics and the state in a national and international context (e.g. authority, power, legitimacy and sovereignty). - Outline the development of political institutions. - Provide the theoretical foundations for the study of international relations. - Identify and describe key factors, issues and trends in national and international politics. - Develop the basic techniques and knowledge necessary to pursue further study in the field of Political Science and International Relations.						
Main Content	- Key features of contemporary political dynamics and state structures - Key theoretical approaches to the study of international relations - Political trends in national and international politics - Key concepts in the fields of Political Science and International Relations, e.g. power and authority - The impact of historical trends on current political structures at the national and global level.						
Pre-requisite	None		Prohibited module Combination			None	
Co-requisite	None

Faculty	Economic and Management Sciences		Home Department			Political Studies	
Module Name	Political Studies 231		Module Code			POL231	
Module Type	Core	NQF Level	6	Year Level	2/3	NQF Credit	20
Programmes in which the module will be offered		BAdmin (1011), BA (2101, 2612), BA (Law) (7221)				Total Learning Time	200 hours
Duration	Semester		Proposed Semester			First or Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: Describe concepts, employ methods and apply theoretical perspectives in the field of comparative politics.						

	• Apply these concepts, methods and theories to compare South African political institutions with other selected case studies. • Analyse the latest debates and controversies in South African politics and political-economy using a comparative context (in relation to other case studies).				
Main Content	• Comparative method in Political Studies • Political institutions • Contemporary debates in South African politics • Political issues in South Africa • Selected comparative case studies				
Pre-requisite	POL131 OR GOV132 OR POL142	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		2	Lectures p.w.		
		0	Practicals p.w.		
		1	Tutorials p.w.

Module Name	Public Administration 131		Module Code			PUA131	
Module Type	Core	NQF Level	5	Year Level	1	NQF Credit	15
Programme in which the module will be offered		BAdmin (1011), B (Community Development) (8415)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Possess a comprehensive introduction to the discipline of public administration/management from its early days to the present. • Demonstrate an understanding of the role and scope of the activity of public administration or public management and in the context of the contemporary state. • Analyse the patterns of interaction between public administration at work, and other formal political institutions of the state and as well as other components of civil society. • Evaluate the role of public administration in the process of public policy-making. • Examine and evaluate the on-going changing role and scope of the state and its administration. • Understand and analyse the importance of the administration and/or management of public affairs and the role and functions of the public manager within this context. • Understand theories of local government and comprehend the structure of local government in South Africa.						
Main Content	• Public Administration as a field of study • Government functions and services • Intergovernmental relations • The relationship between governance and public management • Policy implementation, impact and evaluation • The role of and functions of the public manager • An introduction to the composition and structure of the local sphere of government • The importance, role, functions, structures and process of the local sphere of government in South Africa

Faculty	Economic and Management Sciences		Home Department			School of Government	
Module Name	Comparative Public Administration and Governance 232		Module Code			PUA232	
Module Type	Core	NQF Level	6	Year Level	2/3	NQF Credit	20
Programme in which the module will be offered		BAdmin (1011), B (Community Development) (8415)			Total Learning Time		200 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Explain the terminology specific facts, trends and sequences of public administration. • Explain and compare the structure, theories and systems of governance of developed and developing nations. • Compare and explain the nature and dynamics of public administration and the significant role of public participation in governance.						

	- Comprehend and explain the relationship between public administration, governance and ethics. - Explain the role, functions and skills required of the public manager in a public sector management. - Comprehend the utility of specific management techniques to enhance efficient and effective public administration. - Compare and evaluate the on-going changing role and scope of administration, state, citizens and other institutions in governance process.						
Main Content	- Conceptualising administration, governance, state and civil society. - Comparisons of structure, theories, and systems pertaining to administrative culture. - Dimensions of administrative capacity. - Comparative study of key policy issues. - Causes of chronic mal-administration in the public sector. - Overview of the relationship between public administration, governance and ethics. - The roles of public managers and skills required. - Comparison of public administration and governance (case studies in developed and developing countries). - Principles and ethical theories that encapsulate good governance and professional ethics in the South African public sector. - Changing approaches to public sector management.						
Pre-requisite	PUA131, GOV132			Prohibited module Combination		None	
Co-requisite	None

						FA	40%

Faculty	Economic and Management Sciences			Home Department		School of Government	
Module Name	Public Finance Management 331			Module Code		PUA331	
Module Type	Core	NQF Level	7	Year Level	3	NQF Credit	30
Programme in which the module will be offered		BAdmin (1011)				Total Learning Time	300 hours
Duration	Semester			Proposed Semester		First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: - Distinguish between the allocative, distributive and stabilisation functions of government. - Analyze the key economic systems that underpin the role of public finance. - Illustrate by using relevant case studies the difference between market failure and government failure, privatization versus nationalization. - Compare the traditional (conventional) approach and the new public management approach to public financial management.						

	• Evaluate the types of intergovernmental grants and provide a critical analysis of its impact on the South African economy. • Differentiate between taxes and other sources of government revenue. • Demonstrate understanding of budgeting and how the constitution effects governments expenditure in South Africa. • Appraise the role and challenges of the internal and external structurers of public finance as well as application of principles (e. g accountability).
Main Content	Government goals and functions • Allocation, Distribution and Stabilisation function Political economic systems and public finance • Centrally state planned (Socialism) • Market economies (Capitalism) • Welfare states (Mixed capitalist economies) • Globalisation and South African context. Market and government interventions and failure • Market and Government failures. • Private versus public goods. • Privatisation versus nationalization. Public financial management and policy approaches • Public Financial Management (Public Expenditure Management, traditional approach). • Fiscal policy (cyclical and counter cyclical). Finance and fiscal relations • Central versus federal systems. Government management of public finance • Role of Legislature, Executive and Judiciary. • Regulation and public financial management policies • PFMA, MFMA/MFPA. • Planning, budgeting and Oversight. • Cash managements and investments. • Financial managements and financial reporting. Sources of public sector revenue (income) • Taxation, privatisation, capital markets and official development assistance. Public sector expenditure and debt management • Size of deficit/surplus, government (expenditure/GDP Ratio), Proportions, public debt, Cost containment and debt minimization. Budget, features, functions and processes • Definitions, features and functions. • Budget cycle and types (Operational versus capital budgets). Supply chain management and procurement • Purchases, provision and delivery of goods and services. • Principles of procurement (Competition; fairness; value for money). • Supply Chain Management and tender systems. Financial reporting and auditing • Financial compliance (PFMA/ MFMA, GRAP) and performance. • Auditing (Auditor General). • Annual Financial Statements (Balance sheet; Income and expenditure and Cash-flow). • Key ratios. • Audit Reports (outcomes).

Pre-requisite	PUA231, PUA232	Prohibited module Combination		None	
Co-requisite	None

Faculty	Economic and Management Sciences		Home Department			School of Government	
Module Name	Public Sector Human Resource Management 332		Module Code			PUA332	
Module Type	Core	NQF Level	7	Year Level	3	NQF Credit	30
Programme in which the module will be offered		BAdmin (1011)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Define and explain the different schools of HRM. • Compare and contrast the concepts of HRM and personnel administration. • Explain the concept strategic human resource management. • Define, describe and apply the functions of HRM. • Identify and discuss the four phases in the recruitment process. • Compare and discuss the difference between training and development. • Critically discuss the relationship between motivation, people needs and organizational goals in a public sector context. • Discuss the difference between coaching and mentoring. • Differentiate between the classical understanding of HRM and strategic HRM. • Apply the principles of strategic HRM to the South African context. • Critically describe the typical collective bargaining process. • Apply a model of positive discipline and discuss the procedures for ensuring that discipline achieves its goals. • Discuss and apply various leadership theories to an organizational situation. • Critically appraise and discuss ethical leadership and its challenges in the context of SA governance.						
Main Content	Introduction to the Module Human Resource Management: A Global perspective • Definitions and Concepts • Strategic Human Resources Management in Public Sector • Functions of Human Resource Management in SA context • Recruitment and Selection in SA context • Legislative requirements such as Employment Equity Act and Affirmative Action policy						

	Strategic Human Resource Management: A South African perspective • Principles guiding HRM • Right Fit people Strategy • HRM Policies, • Regulatory Framework in SA context Managing Labour Relations • LRA Act - Case Studies on Public Administration • Bargaining Council for Public Sector Workers • Disputes • Strikes and • Dismissals Public Sector Leadership • Theories of leadership: • Great Man Theory, • Trait Theory, • Management Theory, • Contingency and • Functional Theory. • Styles of leadership: • Servant, Charismatic, • Transformational, • Autocratic, Participative and • Collective Styles. • Ethical Leadership Dilemmas. • Leader follower relationship.			
Pre-requisite	PUA231, PUA232	Prohibited module Combination		None
Co-requisite	None

Module Type	Core/ Elective	NQF Level	6	Year Level	2	NQF Credit	15
Programmes in which the module will be offered		BCom (1751), BCom (Accounting) (1753)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Calculate, understand and analyse trends in financial ratios from financial statements. • Deal with basic Capital Budgeting problems (NPV, IRR). • Understand and work with Index Numbers. • Calculate and interpret Demand and Supply curves and elasticity.						

	• Calculate statistical measures of dispersion. • Understand the Normal Distribution curve and its relation to economic and financial situations. • Graphically solve simple Linear Programming problems. • Understand the meaning of the derivative of a function and perform simple differentiation.			
Main Content	• Application of mathematical and analytical tools to make comparisons of ratios over time, against plan, against industry norms, etc • Time value of money • Capital budgeting • Index numbers • Basic mathematics of Supply and Demand theory and elasticities • Measures of central tendency and dispersion • Normal distributions, z-scores and interpretation • Graphical solution to Linear Programming problems • Introduction to differential calculus			
Pre-requisite	QSA131 OR QSC131/132	Prohibited module Combination	None	
Co-requisite	None

Programmes in which the module will be offered		BCom (1751), BAdmin (1011)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			QLC141 - First Semester QLC142 - Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate an understanding of the number systems. • Demonstrate knowledge and ability to work with Real numbers, in particular Integers and Rational Numbers. • Solve basic arithmetic problems • Apply basic operations (+, -, × and ÷) to Real Numbers i.e. Fractions, Decimal Fractions and Percentages. • Simplify algebraic expressions. • Solve basic algebraic equations including simultaneous equations. • Demonstrate an understanding of problems on Direct and Inverse proportions.						

	• Draw Linear Graphs using the table and algebraic method. • Draw Parabolic Graphs using the table and algebraic method.			
Main Content	• Mathematical Thinking Skills • Problem Solving Skills • Number Systems • Integers, Rational Numbers; Irrational Numbers • Basic Mathematical Operations • Calculator Skills • Fractions and Decimal Fractions • Percentages • Basic Algebra: variables, expressions and equations • Products and factors • Graphs: Ordered Pairs; Linear and Quadratic • Linear and Quadratic equations			
Pre-requisite	None	Prohibited module Combination		None

Duration	Semester	Proposed Semester		Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to:				
	• To gain a critical insight on the concept of entrepreneurship and an understanding of the role of the entrepreneur in society and the economy				
	• To analyse and critically evaluate effective entrepreneurship, its components and its benefits to the entrepreneurial process.				
	• To analyse and critically evaluate entrepreneurial opportunity recognition and application in the context of real-life case scenarios.				
	• To understand, analyse and critically evaluate social entrepreneurship and its importance in the context of....				
	• To evaluate the skill set that an entrepreneur requires in order to exploit entrepreneurial and business growth opportunities.				
	• To gain a critical insight and an understanding on entrepreneurial leadership and management skills required to attain sustainable growth.				
	• To understand, analyse and critically evaluate the importance of business networking in entrepreneurship.				
	• To demonstrate the ability to synchronise creativity and innovation as driving forces of entrepreneurship by means of analysing and evaluating their uses in the entrepreneurial process.				
	• To analyse and critically evaluate the impact of legal, political and other macro environment external forces which can influence entrepreneurship and entrepreneurial decision making.				
Main Content	• To draw a sound marketing plan for entrepreneurs in a collaborative manner and effort.				
	• To draw up sustainable financial plans and strategies for entrepreneurship.				
	• To draw up a sound Operations Management strategy from an entrepreneurial perspective				
	• Management and entrepreneurship: Introductory views, perspectives and models.				
	• Effectual Entrepreneurship, its dimensions and application.				
	• Identifying small business ideas, as well as identification, screening and application of business opportunities.				
	• Social entrepreneurship, its importance and different models to apply social entrepreneurship in practice.				
	• Basic financial planning and calculations.				
	• Choice of a form of business enterprise, the establishment procedure and general legal requirements.				
	• strategic entrepreneurship.				
• Introduction to business functions such as Marketing, Finance and Operational Management from an entrepreneur perspective.

Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment			CA	50%
FA						50%	

Faculty	Economic and Management Sciences		Home Department			Computer Science	
Module Name	Data Warehousing 712		Module Code			BIA712	
Module Type	Core	NQF Level	8	Year Level	1/2	NQF Credit	15
Programme in which the module will be offered		PGDip (Computer Software and Media Application) (1627)				Total Learning Time	150 hours
Duration	Semester	Proposed Semester			Second Semester		
Main Learning Outcomes	On completion of this module, students should be able to: • Design, deploy and maintain data warehousing for business applications.						

	• Understand the data warehousing life cycle, data structure, concepts and architectures. • Design a dimensional and physical model for data warehousing. • Design and develop business intelligence applications				
Main Content	• Introduction to data warehousing • Data warehousing concepts and architectures • Business process modelling • Dimensional modelling • Data modelling techniques • Physical database architecting • Leveraging Business Intelligence for data analysis • Exploring and testing selected business intelligence tools for data warehousing				
Pre-requisite	None	Prohibited module Combination		None

Faculty	Economic and Management Sciences		Home Department			Statistics and Population Studies	
Module Name	Statistics and Visualisation 713		Module Code			BIA713	
Module Type	Core	NQF Level	8	Year Level	1/2	NQF Credit	15
Programme in which the module will be offered		PGDip (Computer Software and Media Application) (1627)			Total Learning Time		150 hours
Duration	Semester	Proposed Semester			First Semester		
Main Learning Outcomes	On completion of this module, students should be able to: • Understand the importance of statistics in both private and public sectors. • Summarise and visualise basic data into summary measures (e.g. mean, median, standard deviation, appropriate graphical displays). • Prepare and interpret simple statistical analyses • Use computer tools and techniques to analyse and present data.						
Main Content	• Visualisation of statistics • Regression analysis procedures for business • Probability • Sampling and sampling distributions • Inferential statistics for business						
Pre-requisite	None		Prohibited module Combination			None	
Co-requisite	None

Faculty	Economic and Management Sciences		Home Department			Statistics and Population Studies	
Module Name	Data Mining 715		Module Code			BIA715	
Module Type	Core	NQF Level	8	Year Level	1/2	NQF Credit	15
Programme in which the module will be offered		PGDip (Computer Software and Media Application) (1627)				Total Learning Time	150 hours
Duration	Semester	Proposed Semester			Second Semester		
Main Learning Outcomes	On completion of this module, students should be able to: • Utilise a statistical package to prepare data for data mining using basic techniques. • Test a data mining package to visualise and explore data patterns. • Apply a data mining package to do basic predictive modelling.						
Main Content	• Prepare data for data mining (missing data, imputation, transformations, sampling, parsing). • Explore data						

	• Pattern discovery (cluster analysis) • Introduction to predictive modelling (e.g. decision trees, regression).				
Pre-requisite	Final Mark of at least 45% in BIA713 Statistics and Visualisation.	Prohibited module Combination		None	
Co-requisite	None

Faculty	Economic and Management Sciences		Home Department			Information Systems/ Statistics and Population Studies/ Computer Science/ School of Business and Finance	
Module Name	Research Project 716		Module Code			BIA716	
Module Type	Core	NQF Level	8	Year Level	1/2	NQF Credit	30
Programme in which the module will be offered		PGDip (Computer Software and Media Application) (1627)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: - Engage with clients to define and scope the business need/challenge and/or opportunity. - Utilise the theoretical knowledge acquired in terms of data structuring, management, statistical procedures and mining to select the appropriate business intelligence and data analytical processes and methodologies to effectively explore and address the business need. - Structure and apply the selected process and methodologies according to sound project management principles within the appropriate time line. - Interpret, package and present the outcome of the advanced data analytical and business intelligence project within the context of a client's business reality.						
Main Content	- Client need identification/scoping in business and economic terms. - Data analytics and business intelligence processes and methodologies selection based on the integration of theoretical knowledge on data structuring, management, statistical procedures to address client needs. - Application of methodology, data analytics, and business intelligence process in a structured project format. - Data analytics and business intelligence as multi-stakeholder or team activity. - Interpretation and presentation of project outcomes (analytics and intelligence) in the client's business context. - Business communication.						

Pre-requisite	Achieved at least 60 credits of which BIA715: Introduction to Data Mining is compulsory		Prohibited module Combination	None	
Co-requisite	None

Faculty	Economic and Management Sciences		Home Department			Industrial Psychology	
Module Name	Organisational Psychology 701		Module Code			BPS701	
Module Type	Core	NQF Level	8	Year Level	1/2	NQF Credit	20
Programme in which the module will be offered		BCom Hons (1701), BCom Hons (Human Resources) (1709)			Total Learning Time		200 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: - Engage in a critical discussion and evaluation of contemporary organisational theory. - Explain and evaluate an organisation as an open system. - Critically discuss the different theories of motivation. - Apply different theories of motivation to case studies. - Engage in a critical discussion of the different theories of leadership. - Apply critical thinking skills in resolving leadership challenges. - Critically discuss the relevance of various leadership theories. - Explain group and team dynamics. - Critically discuss and evaluate team effectiveness. - Discuss advanced organisational theory and the major challenges facing modern organisations in this regard.						
Main Content	- Advanced contemporary organisational theory - Organisations as an Open systems model; - Theories of motivation; - Theories of leadership - Group and Team Effectiveness - Aspects of the external environment of organisations - Organisational Behaviour challenges facing modern organisations						
Pre-requisite	Bachelor's degree with a major in Industrial Psychology			Prohibited module Combination		None

Module Type	Core	NQF Level	8	Year Level	1	NQF Credit		30	
Programme in which the module will be offered		BCom Hons (1701), BCom Hons (Human Resources) (1709)				Total Learning Time		300 hours	
Duration	Year		Proposed Semester			Both Semesters			
Main Learning Outcomes	On completion of this module, students should be able to:								
	• Provide a critical discussion of scientific research. • Explain the logic of scientific research. • Apply the methodology of scientific research within the work environment. • Formulate research problems. • Anticipate, interpret and rectify practical problems encountered during research. • Plan projects to solve such problems. • Evaluate the empirical studies of other researchers; • Formulate and compile a research proposal. • Collate relevant information by means of appropriate measuring instruments and/or techniques. • Analyse data using SPSS; interpret the information and come to appropriate conclusions. • Write a research report. • Present data to others.								
Main Content	• Different methods of acquiring knowledge (non-scientific and scientific) • Sources and identification of research problems; • Literature review • Variables and hypothesis formulation • Conceptual and operational definitions • Research Design • Validity of research design • Sampling techniques • Data Collection • Scales of measurement • Techniques of data collection • Construction of questionnaires • Reliability and validity of measurements • Data capturing • Interpretation of results and writing reports

Module Name	Psychometrics 704		Module Code			BPS704			
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit		20	
Programme in which the module will be offered		BCom Hons (1701)				Total Learning Time		200 hours	
Duration	Semester		Proposed Semester			First Semester			
Main Learning Outcomes	On completion of this module, students should be able to:								
	• Critically discuss the nature, characteristics, uses and abuses of psychometric tests. • Explain why use of assessment measures should be controlled, how control over the use of psychological assessment measures is exercised in SA, statutory control, different categories of psychological professionals who may use psychological measures, the role of the Professional Board for Psychology and the protection of the public. • Describe and explain the legislative and ethical framework pertaining to psychological tests based on the roles played by various users of psychological tests. • Evaluate selection techniques and decisions and determine fairness and bias involved. • Explain the basis and application of competency-based assessment. • Apply their knowledge of psychometrics.								
Main Content	• An overview of assessment • Psychological assessment: retrospective overview • Levels of measurement • Reliability of measures • Validity • Norms • Developing a psychological measure • Cross-cultural test adaptation and translation • The practice of psychological assessment: • Controlling the use of measures, competing values and ethical practice standards • Administering psychological measures • Assessment of young children, physically disabled individuals, mentally challenged learners and individuals with chronic conditions • Computer-based and Internet-delivered assessment • Use of assessment measures in various applied contexts: • Interpreting and reporting assessment results • Factors affecting assessment results • The future of psychological assessment

Programme in which the module will be offered		BHons (Development Studies) (1707)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Identify and explain the key theories, debates, and strategies in the field of urban and rural development. • Identify and explain rural and urban problems and issues.						

	• Apply this knowledge by critically analysing these concepts to case study material drawn from the South African context. • Explain how rural to urban migration and globalisation processes shape urban and rural areas. • Critically analyse and engage in the debate of current policy frameworks in relation to urban and rural development in South Africa. • Examine why certain urban and rural development initiatives succeed through a critical examination of case studies in other 'Third World' countries			
Main Content	• Overview of the state of development and/or underdevelopment of urban and rural areas in South Africa • Theories of and urban and rural development • Globalisation processes impact rural and urban development • South African urbanisation and rural development processes and spatial transformations in the post-apartheid era, focusing on a critical appraisal of the government's rural development (including land reform) and urban development programmes.

Programme in which the module will be offered		BHons (Development Studies) (1707)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Identify, explain and contrast concepts relevant to social policy in developing countries. • Identify and explain debates concerning social policy though the application and comparison of alternative theories of welfare. • Explain and compare how different historical experiences and socio-political perspectives may lead to different kinds of policies. • Identify, discuss and compare social policies in a number of key fields (eg. Disability, child support, old age, unemployment). • Apply this knowledge by critically analysing case study policies which been formulated and institutionalised.						
Main Content	• Social issues and problems in our time • Social Policy as a response: Definitions, models and challenges • The socio-economic context – coping with social problems within the context of globalisation • Models of social security, such as the social-democratic model and conservative welfare states • The neo-liberal model in developing nations: South Africa and Chile; problem of this model from the perspective of the poor • The Developmental State and social security in Latin America and Asia • Cash transfers to the poor • The relevance of gender to social policy • Measuring the impact of social policy • The challenges for social policy in developing countries in different fields such as housing, education, health care, food security and labour law • The impact on the environment of all social and economic policies • An elementary understanding of different theoretical models for analysing and interpreting social policy, such as the Capability Approach and the Livelihood Approach						

Pre-requisite	None	Prohibited module Combination		None

Faculty	Economic and Management Sciences		Home Department			Institute for Social Development	
Module Name	Research Methodology 749		Module Code			DVS749	
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	20
Programme in which the module will be offered		BHons (Development Studies) (1707)			Total Learning Time		200 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Apply this knowledge by drafting a research proposal using techniques appropriate to their research question. • Describe, define, contrast and explain the theory and principles of social science research methods • Demonstrate the expertise in research design of the empirical research using some of the main data collection and analysis techniques. • Describe, define, contrast and explain methods of enquiry in development studies. • Demonstrate the ability to critically evaluate scientific literature, synthesise knowledge and make a logical argument. • Apply this knowledge by providing academic writing and oral skills, including the ability to engage with and respond appropriately to the presentation of team work.						
Main Content	• Introduction to literature and referencing procedures • The planning of a research proposal • The philosophy of science • The scientific research process • The different types of research • Research design and problem formulation • Quantitative research design (surveys, sampling, questionnaire construction) • Qualitative studies • The ethics and politics of social research

Programme in which the module will be offered		BEcon Hons (1781)			Total Learning Time		300 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate a sound understanding of the research process. • Submit a feasible topic for research on Economics studies related research problem. • Conduct a literature review • Conduct empirical analysis using appropriate methods and data • Present and interpret the empirical findings of research • Make appropriate economic policy recommendations						
Main Content	• Research process • Interaction between student and supervisor • Difference between research proposal and research thesis						

	• Research question and objectives • Citation and referencing • Searching literature and data • Reading and note-taking methods • Technicalities of writing • Literature review • Methods and data • Empirical analysis and findings • Interpretation and discussion of results. • Research ethics

Module Type	Elective	NQF Level	8	Year Level	1	NQF Credit	15
Programme in which the module will be offered		BEcon Hons (1781)				Total Learning Time	150 hours

Duration	Semester	Proposed Semester	Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to:			
	• Demonstrate an understanding of the core international trade models. To be able to critique and compare these models relative to each other. • Evaluate the effectiveness of regional economic integration in Africa. • Demonstrate an understanding and analyse the dynamics of trade among developed and developing countries in the globalised trading system; • Evaluate trade and industrial policy of the developing countries specifically South Africa;			
Main Content	• Modern trade theories and their developments • Arguments against international free trade • Trade and SADC and SACU • Africa and its lack of international development • Growth and development with international trade • Changes in trade pattern with economic integration • Globalisation and international trade. • Trade and WTO

			0	Tutorials p.w.			

Other teaching modes that does not require time-table								
Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment		CA		40%	
					FA		60%	
Faculty	Economic and Management Sciences		Home Department		School of Business and Finance			
Module Name	Research Project E-logistics 716		Module Code		ELG716			
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit		30
Programme in which the module will be offered		PGDip (Computer Software and Media Application) (1627)				Total Learning Time		300 hours
Duration	Semester		Proposed Semester		First Semester of Second (or subsequent) Year of enrollment			
Main Learning Outcomes	On completion of this module, students should be able to: - Engage with clients to define and scope a business need/challenge and/or opportunity. - Utilise theoretical knowledge acquired in terms of data structuring, management, statistical procedures and mining to propose data analytics solutions to the identified business needs/challenges. - Select the appropriate business intelligence and data analytical processes and methodologies to effectively explore and address a business need in the area of Logistics and Supply Chain Management - Apply the selected process and methodologies according to sound project management principles within the appropriate time line. - Interpret, and present the outcome of the advanced data analytics and business intelligence project within the context of a client's business reality.							
Main Content	- Application of theoretical knowledge of data mining and data analytics in the context of industry-based problem solving through the following areas of content: - Problem identification and scoping in business terms in the area of Logistics and Supply Chain Management - Data structuring, data management, and statistical manipulation applied to solve an identified problem. - Application of methodology, data analytics, and business intelligence process using a structured project format. - Communication and multi-stakeholder engagement to enable data analytics and business intelligence led outcome to an identified problem. - Presentation of project outcomes (analytics and intelligence) in the client's business context. - Business communication - Research reporting.							
Pre-requisite	ELG711 and 45 further credits made up of any combination of the following modules: BIA710, BIA711.		Prohibited module Combination		None			

	BIA712, ELG710, ELG711, BIA714				
Co-requisite	None

Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	30
Programmes in which the module will be offered		BCom Hons (Finance) (1721, 1722)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	The module aims to develop applied quantitative and qualitative research skills in the area of finance. On completion of this module, students should be able to: • Design a research study under the supervision of a project leader • Discuss the background or circumstances surrounding a particular finance research problem • Synthesise and engage with academic literature to identify gaps in a particular area of research • Formulate finance research question • Identify and apply an appropriate research design in line with the research question • Collect, sort and prune financial data from databases. • Apply appropriate quantitative computational skills necessary to obtain research results. • Describe and analyse research results • Compare and contrast research results to significant prior empirical findings • Identify contributions to the existing body of knowledge • Write up and compile research dissertation						
Main Content	• Research design and problem statement • Research goal and objectives • Data collection, sorting and pruning • Research methodologies • Analysis of Research Results • Oral and written presentation of the research dissertation • Analysis, interpretation and application of finance case studies/current economic affairs						
Pre-requisite	FIN710		Prohibited module Combination			None

Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	30
Programme in which the module will be offered		PGDip (Finance) (1624)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, a student should be able to:						
	• Critically analyse local and international investment environment • Explain ethical conduct, understand the framework for making ethical decisions, analyse ethical dilemmas and make recommendations • Explain risks associated with the investment decisions • Evaluate the formulation and use of derivate strategies for managing financial risks						

	• Determine the pricing and value of derivative instruments (option, forward, future swap) • Apply different strategies to create and manage an investment portfolio, • Evaluate investment/security returns and methods for managing the associated risk • Analyse the application of investment theories in South Africa and international markets and make recommendations			
Main Content	1. Investment environment 2. Professionalism and ethical standards for investment professionals, insiders trading, misrepresentation and consequences, conflict of interest 3. Financial risk management techniques, derivative instruments and markets 4. Management of Investment portfolios 5. Management of portfolio risks 6. Efficient market hypothesis and Asset Pricing models 7. Seminar topics on behavioural finance, market manipulation and abuse, financial crises, etc. in relation to investments

Programmes in which the module will be offered		BCom Hons (Finance) (1721) (1722)			Total Learning Time		150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Apply advanced econometric techniques to summarise and make inferences from financial data • Develop and estimate quantitative models to assist in the financial research process • Use statistical packages (Eviews, STATA, etc.) to organize, present and analyse data drawn from the financial databases • Build and construct investment models to obtain quantitative solutions to investment problems • Develop and enhance analytical and problem-solving skills for investment analysis • Apply quantitative tools within the investment/finance research process						
Main Content	1. Time Series concepts 2. Univariate time-series modelling and forecasting 3. Stationarity and Eagle Granger cointegration 4. Multivariate time-series modelling using Vector autoregressive models, impulse responses and variance decomposition, granger causality 5. Modeling long-run relationship in finance: structural break, Johansen's cointegration, and autoregressive distributed lag, and error correction model, models 6. Asset pricing models (time-series and cross-sections) 7. Modelling correlation and volatility in finance (ARCH and GARCH family models) 8. Panel data analysis (Pooled, Fixed and random effect models) 9. Finance research consideration

Programmes in which the module will be offered		BCom Hons (Finance) (1721) (1722)				Total Learning Time	150 hours		
Duration	Semester		Proposed Semester			Second Semester			
Main Learning Outcomes	On completion of this module, students should be able to:								
	- Construct and appraise efficient bond and equity portfolios locally and internationally - Analyse various fixed and variable income securities types and propose investment recommendations - Describe the topology of financial risk, construct and apply the framework for the financial risk management process - Apply derivative instruments to generate investment income and manage investment risks - Evaluate and critique the South African bond and equity markets and make policy recommendations - Evaluate the applicability of traditional theories such as EMH, MPT, CAPM, and APT vis-a-vis emerging capital market theories such as AMH, FMH etc. - Interrogate the effectiveness of alternative investment vehicles for financial risk management								
Main Content	1. Classification and measurement of financial risk								
	2. Managing financial risk using derivatives (Futures; Forwards; Options; Swaps)								
	3. Asset allocation strategies using efficient frontier, and Treynor Black Model								
	4. Equity derivative instruments (warrants, single stock future, contract for difference) and how to speculate with them								
	5. Bond analysis and portfolio management strategies								
	6. Active and Passive portfolio management strategies								
	7. International diversification								
	8. Seminar topics: noise trading, alternative investment vehicles, price bubble portfolio, Value at Risk, etc., and their implication for portfolio management								
	9. Case studies on theoretical asset pricing models (CAPM, APT, Fama and French) and Sharpe's return-based style investing etc.

Faculty	Economic and Management Sciences		Home Department			Information Systems	
Module Name	The Networked World 741		Module Code			IFS741	
Module Type	Elective	NQF Level	8	Year Level	1	NQF Credit	20
Programme in which the module will be offered		BCom Hons (Information Systems) (1703)				Total Learning Time	200 hours
Duration	Semester	Proposed Semester			Second Semester		
Main Learning Outcomes	On completion of this module, students should be able to: • Analyse and compare major issues and trends in inter and intra organisational and eCommerce systems. • Evaluate the roles of systems and enterprise architects. • Analyse strategic opportunities provided by Information Systems. • Critically assess the implications of the implementation of strategic systems. • Evaluate benefits of the networked world.						
Main Content	• Investigation of the issues related to inter and intra organisational and strategic systems. • The role of the architect in planning these systems • Inter-organisational and e-commerce systems • The role of systems and enterprise architects • Strategic opportunities of Information Systems • Benefits of the networked world

Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	20
Programme in which the module will be offered		BCom Hons (Information Systems) (1703)				Total Learning Time	200 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of the module, a student should be able to: Interpret the nature of scientific inquiry within the field of IS.						

	• Critically analyse themes/fields/interests/debates within information systems research in order to scope a research problem. • Demonstrate the critical application of research logic. • Critically analyse theoretical and empirical research in information systems. • Formulate appropriate research designs for application during a research study. • Apply the philosophical principles of academic writing and publishing in information systems to formulate a research proposal. • Demonstrate an understanding of the ethical issues raised during the process of conducting research. • Apply academic writing techniques to compile all of the above into a Research Proposal.				
Main Content	• Concepts in relation to Research Methods and Design in relation to Information Systems inquiry covered according to the following themes: • Formulate and clarify social inquiry • Scope research problem • Formulate research design • Conduct literature review and analysis • Formulate components of the research proposal • Critically review data gathering tools • Select data types and analysis

Faculty	Economic and Management Sciences		Home Department			Institute for Poverty, Land and Agrarian Studies	
Module Name	Structural Poverty and Marginalised Livelihoods in Southern African Agro-Food Systems 711		Module Code			LAS711	
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	30
Programme in which the module will be offered		PGDip (Poverty, Land and Agrarian Studies) (1616)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module students should be able to: • Demonstrate a solid grasp of the most important concepts relating to poverty, vulnerability and food insecurity. • Show a critical understanding of the use, value and limitations of qualitative and quantitative indicators.						

	• Have a broad understanding of trends relating to poverty, vulnerability and food insecurity in South and Southern Africa, with a particular reference to marginalised, excluded and rural livelihoods. • Have a thorough grasp of the underlying causal factors contributing to poverty and marginalised livelihoods in Southern African in the context of the nature of dominant agro-foods systems. • Be conversant with the policy frameworks relevant to poverty and marginality; including both social protection and economic growth policies. • Engage critically with the strengths and weaknesses of proposed policies and interventions aimed at inclusive growth and poverty reduction in their own professional and work contexts.			
Main Content	• Basic literature on poverty concepts (monetary poverty, food insecurity, capability poverty, vulnerability, chronic and structural poverty). • Overview of relevant qualitative and quantitative indicators and diagnostics. • Overview of poverty trends and statistics in South and Southern Africa. • Overview of historical background, causes and contributing factors, including policies relating to growth and employment. • Overview of nature of agro-food system and its impact on marginalised livelihoods. • Overview of social policy framework(s) in South and Southern Africa.

Faculty	Economic and Management Sciences			Home Department			Institute for Poverty, Land and Agrarian Studies	
Module Name	The Political Economy of Land and Agrarian Reform in Southern Africa 712			Module Code			LAS712	
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit		30
Programme in which the module will be offered		PGDip (Poverty, Land and Agrarian Studies) (1616)				Total Learning Time		300 hours
Duration	Semester		Proposed Semester			Second Semester		
Main Learning Outcomes	On completion of this module, students should be able to: • Understand the key concepts used in contemporary debates over land and agrarian reform, globally, in Africa, and in South Africa in particular. • Understand the main arguments in key historical and contemporary debates around land and agrarian reform globally, in Africa, and in South Africa in particular.							

	• Have a thorough grasp of the links between agrarian structure, processes of agrarian change, rural livelihoods and land reform, including their gendered dimensions. • Understand the character of contemporary processes of large-scale land acquisition ('land grabs'). • Be able to compare and contrast the range of approaches to land and agrarian reform across Africa. • Have a thorough grasp of land and agricultural reform policies in at least two African countries other than South Africa. • Have an in-depth understanding of both policies and outcomes in land and agrarian reform in South Africa since 1994. • Participate in debates around the possible future direction of land and agrarian reform in Africa. • Have a strong foundation for more in-depth study of issues of land and agrarian reform.			
Main Content	• Key concepts and theories: agrarian structure and change, agro-food regimes and value chains; property rights and dispossession; gender, land and agriculture; land and agrarian reform. • Land and agrarian reform – global debates. • Land and agrarian reform in Africa – Zimbabwe, Mozambique and Kenya. • Land grabs in Africa in historical and comparative perspective • The political economy of land and agrarian reform in South Africa since 1994. • Land restitution, redistribution, and tenure reform in South Africa. • Agricultural sector reform since 1994. • Implementing policies: politics, ideology and state capacity.

Module Name	Economics of Farming and Food Systems 713		Module Code			LAS713	
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	30
Programme in which the module will be offered		PGDip (Poverty, Land and Agrarian Studies) (1616)			Total Learning Time		300 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Demonstrate an understanding of key themes in the economics of agrarian systems. • Clearly articulate the dynamics of food and farming systems; and engage with debates.						

	- Engage in critical discussion with key economic issues and concepts'. - Apply the frameworks to their specific contexts and realities.				
Main Content	- The economics of agrarian reform - Basic concepts in rural economic development - Comparative farming/agrarian systems - Dynamics of farming/agrarian systems and underlying forces - Commodity markets, distribution systems and concept of market power - International trade - Economic globalisation and developing country agriculture - Agro-food system structure and household food security

Programme in which the module will be offered		MSc (Computational Finance) (3093)		Total Learning Time	150 hours	
Duration	Semester	Proposed Semester		Second Semester		
Main Learning Outcomes	On completion of this module, a student should be able to:					
	• Demonstrate an understanding of the foreign exchange market and computations of various foreign exchange quotations.					
	• Use the understanding of foreign exchange parity relations to identify potential arbitrage opportunities in the foreign exchange market.					
	• Explain various forms of foreign exchange exposures and their influences in foreign exchange transactions.					
	• Apply internal and external hedging techniques (derivatives) in managing foreign exchange exposures.					
	• Critically discuss the current international economic and political affairs and evaluate their impacts on the financial positions of MNCs.					
	• Conduct performance evaluation on assets from an international investor's perspective using international asset pricing models.					
	• Critically analyse issues relating to multinational investment and financing decisions.					
	• Perform international capital budgeting on projects of an MNC.					
	Main Content	• The foreign exchange market				
• Foreign exchange parity relations						
• Foreign currency exposures						
• Forward cover and money market hedge						
• Currency options						
• Internal hedging techniques						
• International asset pricing						
• International capital budgeting

Faculty	Economic and Management Sciences		Home Department			School of Government	
Module Name	Issues in Local Government 707		Module Code			PUB707	
Module Type	Elective	NQF Level	8	Year Level	1	NQF Credit	15
Programme in which the module will be offered		BAdmin Hons (1711)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate a critical understanding of the challenges, opportunities, roles and relationships of local authorities. • Explain systems of local government, with specific reference to developing nations; and • Critically discuss issues confronting local government in South Africa.						

Main Content	• Local government service delivery, local government politics, local government finance, local government development and strategies for change management in such areas as service delivery • Institution building and management, representivity and affirmative action, amalgamation • Rationalisation of previously separate local government administrations, accountability, human resource development and management, cooperation with civil society and effective urban and rural management				
Pre-requisite	Bachelor Degree in Public Administration or equivalent	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		1	Lectures p.w.		
		0	Practicals p.w.		
		0	Tutorials p.w.		
		0	Supervision lab p.w.

Faculty	Economic and Management Sciences		Home Department			School of Government	
Module Name	Public Sector Transformation and Reform 710		Module Code			PUB710	
Module Type	Elective	NQF Level	8	Year Level	1	NQF Credit	15
Programme in which the module will be offered		BAdmin Hons (1711)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Define and discuss concepts related to public sector transformation and reform; • Utilise and apply different approaches and models in administrative or organisation theory to explain administrative reform as a political as well as a management process; • Demonstrate a critical understanding of past and current debates surrounding the relationship between the state, civil society, doe agencies etc. • Analyse the historical, political, administrative, economic and social context of public sector reform in South Africa; • Identify and discuss key regional, African and international influences on public sector transformation and reform; • Evaluate the relevant legislative framework. • Analyse the key issues and problems facing the transformation of the public service, including gender perspectives. • Compare the South African experience with that of other countries, selected African countries in particular.						
Main Content	• Define and discuss the concepts of Public sector transformation and reform; • Areas of public service reform (i.e. quality customer services; systems and work procedures; information technology; policy implementation and management; organisational structures and human resource management; accountability and discipline; values of excellence; financial management; public-private partnerships; etc; • Donor-sponsored structural adjustment programmes and administrative reforms;						

	• Administrative reform strategies in selected African and/or Commonwealth countries; • Public service transformation, the state and civil society in South Africa • Influences of Global, African and regional positions on the local (SA) transformation context • The South African constitution and the legislative framework for governance, and its transformational outlook • Issues in public service transformation and reform in South Africa including gender perspectives				
Pre-requisite	Bachelor Degree in Public Administration or equivalent	Prohibited module Combination		None	
Co-requisite	None

Faculty	Economic and Management Sciences		Home Department			Finance	
Module Name	Research Project Finance 716		Module Code			SBF716	
Module Type	Core	NQF Level	8	Year Level	1	NQF Credit	30
Programme in which the module will be offered		PGDip (Computer and Media Application) (1627)			Total Learning Time		300 hours
Duration	Semester		Proposed Semester			First Semester of Second (or subsequent) Year of enrollment	
Main Learning Outcomes	On completion of this module, students should be able to: - Engage with clients to define and scope a business need/challenge and/or opportunity. - Utilise theoretical knowledge acquired in terms of data structuring, management, statistical procedures and mining to propose data analytics solutions to the identified business needs/challenges. - Select the appropriate business intelligence and data analytical processes and methodologies to effectively explore and address a business need in the area of Logistics and Supply Chain Management - Apply the selected process and methodologies according to sound project management principles within the appropriate time line. - Interpret, and present the outcome of the advanced data analytics and business intelligence project within the context of a client's business reality.						
Main Content	- Application of theoretical knowledge of data mining and data analytics in the context of industry-based problem solving through the following areas of content: - Problem identification and scoping in business terms in the area of Logistics and Supply Chain Management						

	• Data structuring, data management, and statistical manipulation applied to solve an identified problem. • Application of methodology, data analytics, and business intelligence process using a structured project format. • Communication and multi-stakeholder engagement to enable data analytics and business intelligence led outcome to an identified problem. • Presentation of project outcomes (analytics and intelligence) in the client's business context. • Business communication • Research reporting.				
Pre-requisite	ELG711 and 45 further credits made up of any combination of the following modules: BIA710, BIA711, BIA712, ELG710, ELG711, BIA714	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		4	Lectures p.w.		
		0	Practicals p.w.		
		0	Tutorials p.w.		
		0	Supervision lab p.w.

Faculty	Economic and Management Sciences		Home Department			Industrial Psychology	
Module Name	Diversity and Change Management 811		Module Code			BPS811	
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	20
Programmes in which the module will be offered		MAdmin (1817), MCom (1863)				Total Learning Time	200 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Diagnose complex organisational problems. • Apply and implement the action research paradigm in organisation development. • Apply the systems perspective to planned organisational change. • Critically compare and implement individual level interventions to enhance individual performance. • Critically evaluate and implement the most effective group level interventions to enhance group performance - based on a formal diagnosis. • Critically compare appropriate organisation system wide interventions and implement these in a planned change process to enhance diversity.						

	Evaluate and analyse the effectiveness of organisation development interventions and take appropriate steps to make corrections.				
Main Content	- Advanced models of organisation diagnosis - Models of planned organisation change - Dealing with resistance to change - Advanced techniques to improve employee empowerment, developing sensitivity towards diversity, and coaching - Advanced process consultation - Complex team and inter-group enhancement approaches - Advances models of high-performing organisation, mergers, acquisitions and strategy - Ethical issues in planned organisational change and diversity				
Pre-requisite	An Honours or 4-year Bachelor's degree in Industrial Psychology, Human Resource Management	Prohibited module Combination		None	
Co-requisite	None				
Timetable Requirement per week		3	Lectures p.w.

Programme in which the module will be offered		M (Development Studies) (1827)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Distinguish, assess and interpret concepts, causes and measures of poverty and inequality • Compare, assess and critically analyse poverty reduction policies and the extent to which they can contribute to enabling development, economic growth and poverty reduction. • Identify, describe, critically analyse and apply relevant social and economic theories to problems related to the reduction of poverty and inequality. • Compare, describe, critically analyse the economic, political and cultural determinants and of the institutional and situational context dependency of the effectiveness of different means of poverty reduction. • Apply this knowledge by deriving theory and research based policy recommendations that enable development and poverty reduction and that are adapted to developing country contexts.						
Main Content	• Conceptualisation and critical analysis of different definitions, measurements and causes of poverty and inequality. • Overview and critical analysis of different social and economic theories of poverty and inequality. • Overview and critical analysis of economic theories in the field of public and development economics that are relevant for the analysis of the effectiveness of poverty reduction policies • Critical discussion of the possibilities, limitations and determinants of the following means of public policy to enable poverty reduction: • Livelihoods • Savings, Remittances and Donations						

	• Direct and Indirect Taxation • State Owned Enterprises and Public/Private Partnerships • Asset Redistribution • Social Protection • Foreign and Domestic Investment • Foreign Aid • Two Case Studies			
Pre-requisite	None	Prohibited module Combination	None	
Co-requisite	None			
Timetable Requirement per week		4	Lectures p.w.

Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	30
Programme in which the module will be offered		M (Development Studies) (1827)			Total Learning Time		300 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Prepare a research proposal for a Masters mini-thesis. • Describe, define, contrast and explain theoretical ideas and logic of social science research method including logical positivism, interpretivism/phenomenology, critical theory, feminism and postmodernism. • Describe, define, contrast and explain quantitative, qualitative and participatory data collection and data analysis techniques used by social science researchers. • Apply high level of knowledge by demonstrating the use of social science research methods in their own research using secondary data, proposing techniques appropriate to their research question in order to reach relevant and confirmable conclusions. • Apply these techniques using a statistical package used for social science research data analysis. • Analyse, synthesise and explain the results of their research.						
Main Content	• Introduction to literature and referencing procedures • The planning of a research proposals • The philosophy of science • The scientific research process • The different types of research • Research design and problem formulation • Quantitative research design (surveys, sampling, questionnaire construction) • Qualitative studies • Participatory action research						

	• Evaluative research • The ethics and politics of social research			
Pre-requisite	DVS821, DVS822	Prohibited module Combination	None	
Co-requisite	None			
Timetable Requirement per week		4	Lectures p.w.	
		0	Practicals p.w.	
		2	Tutorials p.w.

Module Type	Elective	NQF Level	9	Year Level	1	NQF Credit	15
Programmes in which the module will be offered		MEcon (1878)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Critically analyse and interpret the impact of public sector activities on the South African economy from a macro and microeconomic perspective.						
	• Critically evaluate the South African government's redistributive role and the consequent economic impact of policies.						
	• Explain and analyse the impact of government intervention on the South African economy.						
	• Critically analyse the economic impact of specific taxes in South Africa						
	• Critically analyse recent tax developments in South Africa.						
	• Critically assess the nature and complexity of intergovernmental fiscal relations in South Africa.						
Main Content	• Construct models of social decision-making in the context of the South African public policy space.						
	• The role of government in the South African economy.						
	• Income Distribution and Social Security Issues in South Africa.						
	• Efficiency and equity considerations in economic decision-making: analysing unintended consequences of policies.						
	• Economic modelling of social behaviour.						
	• Government intervention in South Africa.						
	• Direct and indirect taxation.						
Pre-requisite	• Tax issues in South Africa as a developing country.						
	• Intergovernmental fiscal relations: subnational taxation and intergovernmental grants in the South African context.

Duration	Semester		Proposed Semester			First Semester		
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate an understanding of the research process for a Business Research Project; • Critically discuss the philosophy surrounding the identification of a workable Research topic, conceptualisation of a Research Project, preliminary survey of relevant literature • Apply relevant theory to chosen topic, identified relevant concepts, the relationships between them, and their operationalisation • Analysed how different research methods are utilised to address particular research questions							

	• Demonstrate an understanding of various Data collection and Analysis tools, and identified what is applicable to him/her • Complete a draft Research Proposal. • Identify logical fallacies in research and correct poorly reasoned arguments and conclusions • Construct an organising framework to integrate relevant literature on a selected topic • Develop a research/conceptual framework • Develop a theoretical framework • Develop a research instrument						
Main Content	This module offers an in-depth introduction to theoretical and practical issues surrounding the conduct of Business Research at Masters level. Topics that will be covered are: • Introduction to Business Research Process and Proposal writing. • Library resources and using internet, referencing and plagiarism. • Formulating and clarifying researchable topic and research questions and/or hypotheses. • Developing Theory, and how to do a preliminary literature review. • Concepts, relationships and operationalisation of concepts. • Examination of different Research Strategies/designs - Qualitative vs. Quantitative studies. • Designing, Planning and doing a Case Study • Designing, planning and doing a Survey • Questionnaire design and administration • Data analysis and reporting • Report writing and presentation of findings • Organising a research framework • Research conceptual and theoretical frameworks • Research instrument development						
Pre-requisite	None		Prohibited module Combination		None		
Co-requisite	None

Other teaching modes that does not require time-table							
Assessment Module Type	Continuous and Final Assessment (CFA)		Method of Student Assessment		CA	60%	
					FA	40%	
Faculty	Economic and Management Sciences		Home Department		Management and Entrepreneurship		
Module Name	Mini-Thesis Management 863		Module Code		MAN863		
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	60
Programme in which the module will be offered		MCom (Management) (1830)			Total Learning Time	600 hours	
Duration	Year		Proposed Semester			Both Semesters	

Main Learning Outcomes	On completion of this module, students should be able to: • Formulate a specific focused topic for research • Demonstrate the ability to conduct critical and independent research • Compile a literature review on the topic selected • Formulate a research problem and research question from the literature review of the selected topic • Identify and apply an appropriate research methodology to answer the formulated research question • Collect, analyse and apply basic knowledge and application of qualitative and/or quantitative methods • Articulate a particular position within theoretical and methodological frameworks of the discipline • Structure, organise and present research findings in the form of a logical and coherent mini- dissertation of between 15 000 to 20 000 words in the selected field				
Main Content	Introduction to Advanced Analytics and Machine Learning • Research proposal • Literature review • Research methodology • Research findings • Interpretation of research findings in the context of the extant literature • Structuring and organising research findings in a logical and coherent manner • Prepare and submit a mini thesis under supervision				
Pre-requisite	None	Prohibited module Combination	None		
Co-requisite	None				
Timetable Requirement per week		0	Lectures p.w.

		0	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Final Assessment (FA)	Method of Student Assessment		FA	100%

Faculty	Economic and Management Sciences		Home Department			Institute for Social Development	
Module Name	Migration Research (Mini-thesis) 803/804		Module Code			MGS803/804	
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	60
Programme in which the module will be offered		MA (Migration Studies) (1855)				Total Learning Time	600 hours
Duration	Year		Proposed Semester			Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Analyse the capability to independently formulate research ideas, problem and plans • Evaluate the theoretical bases for analyses of results from empirical studies • Apply, assess, select and integrate information related to migration using various sources • Critique and formulate migration-related research questions and hypothesis and operationalize them						

	• Prove the ability to independently conduct empirical research on migration • Develop the ability to communicate results and conclusions from research understandably • Analyse the capability to systematically and critically integrate knowledge • Prove the capability to contribute to migration research				
Main Content	The thesis (mini-thesis) requires the completion of an independent study used to investigate a migration research problem, under expert supervision. A research proposal is initially developed which provides a review of literature, research design, methodology and analytical framework. Independent research is conducted using quantitative, qualitative or mixed methods. Students will decide whether to conduct fieldwork themselves or use secondary data for their theses. Data will be analyzed and recommendations put forward to inform migration policies.				
Pre-requisite	MGS810	Prohibited module Combination		None	
Co-requisite	None

Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	30
Programme in which the module will be offered		MA (Migration Studies) (1855)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Critique the literature on methodological theories in the social sciences • Evaluate the particular approaches to studying migration phenomena • Analyse the strengths and weaknesses of the different theories of conducting research • Critique the importance of ethics in social science research • Evaluate a research proposal						
Main Content	The module will focus on						
	• Introduction to literature and referencing procedures • The planning of a research proposal • The philosophy of science • The scientific research process • The different types of research • Research design and problem formulation • Quantitative research design (surveys, sampling, questionnaire construction) • Qualitative studies						

	• Participatory action research (par) • Evaluative research • The ethics and politics of social research • Data collection and sampling methods • Data processing, data analysis and interpretation of results • Introduction to computer packages, computer analysis of data • Graphical representation of results • Report writing

		0	Practicals p.w.		
		0	Tutorials p.w.		
Other teaching modes that does not require time-table					
Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA		50%
			FA		50%

Faculty	Economic and Management Sciences		Home Department			Institute for Social Development	
Module Name	Theories of Migration 811		Module Code			MGS811	
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	30
Programme in which the module will be offered		MA (Migration Studies) (1855)			Total Learning Time		300 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Apply the basic concepts and notions which constitute and/or critical to the theories of migration (emigration, immigration, migration, push-pull factors – migration etc....) • Analyse the dynamics between these concepts and role-players within the migration • Prove an ability to deconstruct debates around development though the application of human mobility. • Analyse the class presentations to fellow masters students • Prove the ability to think critically about issues around migration						
Main Content	1) Historical and contemporary migration theories: push and pull notion, dual labour market, neo- classical theory of migration, new economics of labour migration, institutional theory 2) Typologies, scales and levels of migration analysis (micro, meso, macro) 3) Politics of migration: citizenship and integration, identity and politica migration by migrants and social movements 4) Diasporic engagement 5) Causes of migration: functionalist and structuralist perspectives 6) Impacts of migration: migration and development 7) The continuation of migration: networks, migration systems and cumulative causation, and 8) Migration as an intrinsic part of development and change 9) The course finishes up with country case studies from both migrant sending countries and migrant receiving countries

Programme in which the module will be offered		MA (Migration Studies) (1855)				Total Learning Time	200 hours
Duration	Semester		Proposed Semester			Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	• Evaluate the key themes and concepts in human security, conflict and forced migration						
	• Analyse the impact of compromised human security and conflict resulting from loss of tenure/rights to natural resources or as a result of climate change						
	• Apply some of the key concepts in human security, conflict and forced migration to relevant case studies						
	• Analyse a deeper understanding of the relationship between human security, conflict and forced migration in relation to natural resources and climate change						
Main Content	• Theories and key concepts in human security, conflict and forced migration in relation to Sustainable Livelihoods						
	• Links between human security, natural resources and climate change						
	• Forced migration as a consequence of natural resource conflicts						
	• Regional dimensions of natural resource related human security, conflicts and forced migration						
	• Key African case studies that highlight human security, conflict and forced migration as studied in this module

Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	15

Programme in which the module will be offered		MPA (1851)		Total Learning Time		150 hours		
Duration	Semester	Proposed Semester		Second Semester				
Main Learning Outcomes	On completion of this module, students should be able to:							
	• Demonstrate a detailed knowledge and comprehension of the research process to be followed in completing the MPA Mini-Thesis.							
	• Choose a relevant research topic, state the problem for research and develop hypotheses as well as assumptions to guide their research.							
	• Review related literature on the topic.							
	• Select appropriate methodological techniques for data collection and analysis.							
	• Use the Internet and Electronic Journals to access information.							
	• Demonstrate the necessary communication and practical skills to participate meaningfully in research activities offered through the MPA.							
	• Demonstrate more effective writing skills through improved design and structure, sentence construction and the usage of grammar.							
	• Demonstrate a knowledge of quantitative data analysis and presentation, and the ability to use SPSS.							
	• Prepare a clear and coherent abstract for their proposed MPA mini-theses.							
Main Content	• Write an academically acceptable research proposal.							
	• Concepts of research and research design							
	• Theories of research, types of research and the research process							
	• Conducting the literature survey							
	• Planning the research project							
	• Research methods/techniques							
	• Interactions with the academic supervisor							
	• Writing the abstract and research proposal							
	• An introduction to academic writing skills, including organisation, presentation and layout; sentence construction; punctuation and grammar; citation and referencing.							
	• Avoiding plagiarism.

Module Name	Gender Development and Management 825		Module Code			MPA825	
Module Type	Elective	NQF Level	9	Year Level	1	NQF Credit	15
Programme in which the module will be offered		MPA (1851)				Total Learning Time	150 hours
Duration	Semester		Proposed Semester			First Semester	
Main Learning Outcomes	On completion of this module, students should be able to:						
	- Analyse how socialised gender roles affect social roles both within the home and work environments - Critically discuss how such socialised roles, derived from both within developing states and without, affect sound and inclusive development strategies - Compare the normative edge to “scientific” and “objectively empirical” development studies, particularly the ways in which these “findings” are gendered and discriminatory						

	• Demonstrate a critical understanding of the ways in which gendered understandings of development theory and development management economics inhibit more inclusive development strategies • Critically discuss the ways in which gendered understandings of development may be deconstructed and reconstructed so as to ensure more stable long-term development strategies • Identify and discuss gender equality in governance structures in South Africa (and elsewhere) • Identify and discuss perspectives on gender equality in the global context • Identify and discuss linkages between gender and race affirmative action • Analyse the construction of 'gender' sensitive policies in the public service (including examining the notion of a gender budget) • Explain how gender equality is used in the construction of gender and employment policies • Analyse gender, race and collective identity debates in governance and development									
Main Content	• Social roles which men and women take up in the personal and work environments • A review of individual socialisation processes • The interface between gendered socialisation roles (men vs women) • Women in Development (WID); Woman and Development (WAD) a brief historical overview • Development from a gender perspective and the relation between gender and development global governance • Gender in the context of debates about "development" as a process of North – South neocolonialism • Examining the nexus between gender and development at the national level • Examining gender in governance: the public service, parliament, government, political parties • Gender, Public Policy and management of change: thinking through gender policies and what they entail.

Assessment Module Type	Continuous and Final Assessment (CFA)	Method of Student Assessment	CA		50%
			FA		50%

Faculty	Economic and Management Sciences		Home Department			Political Studies	
Module Name	The Practice of Work-Integrated Political Studies 845		Module Code			POL845	
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	30
Programme in which the module will be offered		MA (Political Studies) (1853)				Total Learning Time	300 hours
Duration	Semester		Proposed Semester			First or Second Semester	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate a critical understanding of the key principles of work-integrated learning (WIL) design in Political Studies • Critically analyse best practice cases in respect of WIL in Political Studies, especially integration of practical and theoretical knowledge, relations with key role-players, process design, techniques of reflection and, legal, ethical and logistical challenges. • Critically draw on this knowledge in designing and reflecting on a WIL Political Studies research project.						
Main Content	• The key principles and cases of WIL design in Political Studies • Lessons from good practice in WIL Political Studies • The process of developing, and critically reflecting on, a WIL research project in Political Studies based on the knowledge of principles, cases and best practices.						
Pre-requisite	None		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			2	Lectures p.w.			
			0	Practicals p.w.			
			0	Tutorials p.w.

						FA	50%

Faculty	Economic and Management Sciences		Home Department		School of Government		
Module Name	Public Admin. Master Thesis 801/802		Module Code		PUA801/802		
Module Type	Core	NQF Level	9	Year Level	1	NQF Credit	120

Programme in which the module will be offered		MAdmin (1811)		Total Learning Time	1200 hours	
Duration	Year	Proposed Semester		Both Semesters		
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate the ability to conduct independent research • Demonstrate the ability to locate empirical work in theoretical contexts • Demonstrate the ability to apply analytical and research competencies • Demonstrate the ability to coherently structure and organise a research study • Demonstrate the ability to contribute in a unique way to the particular field under study					
Main Content	• Research methods • Literature review • Interpretation of research findings • Structuring and organising research findings in a logical and coherent manner					
Pre-requisite	None	Prohibited module Combination		None		
Co-requisite	None					
Timetable Requirement per week		0	Lectures p.w.

Faculty	Economic and Management Sciences		Home Department			School of Government	
Module Name	Public Admin. Doctoral Thesis 901/902		Module Code			PUA901/902	
Module Type	Core	NQF Level	10	Year Level	1	NQF Credit	360
Programme in which the module will be offered		PhD (1921)				Total Learning Time	3600 hours
Duration	Year	Proposed Semester				Both Semesters	
Main Learning Outcomes	On completion of this module, students should be able to: • Demonstrate the ability to conduct independent research of a relatively new area in the existing field of study. • Demonstrate the ability to make a unique contribution to his/her field of study. • Demonstrate the ability to coherently and logically structure and organise his/her study. • Demonstrate good writing skills. • Demonstrate the ability to analytically and conceptually apply research findings to the issue under investigation. • Demonstrate the ability to analyse and conceptualise existing literature in the field under investigation.						
Main Content	• Drafting a research proposal • Exposure to research methodologies • Literature reviews • Structuring and organising chapters • Conceptualising theoretical debates and discourses • Interpreting empirical findings in the context of the issue under investigation						
Pre-requisite	Admission to the Doctoral programme within SOG		Prohibited module Combination			None	
Co-requisite	None						
Timetable Requirement per week			0	Lectures p.w.

EXPLANATION OF SYMBOLS AND REMARKS ON ACADEMIC TRANSCRIPT

A	75-100%	Pass with Distinction
B	70-74%	Pass
C	60-69%	Pass
D	50-59%	Pass
E	45-49%	Fail
F	40-44%	Fail
G	39-0%	Fail
No Year mark		Absent from the examination: No results
SPG		Absent from the examination but with special permission to write the supplementary examination on medical or non-medical grounds.
SAG		Supplementary examination granted on academic grounds.
SUB		Failed to obtain the required sub minimum and have to repeat the course.
Ceased Programme		Ceased studying the programme.
DNQ		Did not qualify to write the examination.
ABS		Absent from the examination.
SDA		Senate Discretionary Assessment granted.
External Credit Transfer		An external module completed at another institution deemed equivalent to be credited toward a qualification for which the student is registered.
Internal Credit Transfer		A module completed at this institution credited toward a qualification for which the student is registered.
